Specially prepared for us
as the highest grade and
richest Fertilizer on the
market.

0.7% Phosphoric Acid, Insol.
31.2% Phosphoric Acid, Sol.
15.6% Nitrogen.
18.3% Ammonia (N.H₃).

NET CONTENTS :
2 LBS.

Wondergrowth

WONDERGROWTH is an extremely high-grade Fertilizer combination of Ammonia and Phosphoric Acid. The proportions of Ammonia, Nitrogen, and Phosphoric Acid in this Fertilizer are always constant, and in ideal relationship to one another, representing a correct balance of Nitrogenous and Phosphoric Fertilizer ready for immediate use on fruit, vegetable, or flower gardens.

The high percentage of phosphoric acid is a particular virtue of WONDERGROWTH, for our South Australian soils are notoriously deficient in phosphate. Further, the 31.2 per cent. Phosphoric Acid is completely water soluble, and is immediately, after application, available to plants or trees.

The ratio of 5 to 1 of Phosphoric Acid to Nitrogen is an ideal balance. Nitrogen alone makes for leaf growth at the expense of fruit and flowers; on the other hand Nitrogen balanced with a greater proportion of phosphoric (as in Wondergrowth) forms the perfect fertilizer for the home garden.

A continued use of this rich Fertilizer does not take toll of the bacteria mixture or composition of the soil.

WONDERGROWTH in contact with the soil will not yield acid or unwanted secondary products of reaction in the soil; in the proper dilution thus the tenderest and strongest plants will respond quickly to application. The Fertilizer does not decompose or deteriorate with storage, but is ever-ready for use, either in dry form or dissolved in water. It is extremely economical to use, one dessertspoonful of WONDERGROWTH being used to two gallons of water.

CATALOGUE

for

1939

IN this Catalogue for the 1939 season will be found many new introductions which it is hoped will meet with the approval of our many friends and garden lovers.

Novelties.—For Novelties, Recent Introductions, and Special Lines see Colored Pages in centre of catalogue. **Index.**—For the convenience of our Clients a Complete Index of Seeds, Ornamental Trees, Shrubs, Plants, Fruit Trees, etc., has been compiled, and will be found on Pages 2 and 3.

Terms of Business.—We believe that all Seeds, Bulbs, Rose Trees, Fruit Trees, Roots, etc., sold by us are of the description and kind specified by us at the time of sale, but owing to the practical impossibility in many cases of being certain of this we give no undertaking that Seeds, Bulbs, Roots, Trees, etc., will correspond with the description under which they are sold, and we make all sales subject to this condition. We further give no warranty, expressed or implied, as to their growth, description, quality or productiveness, and will not be in any way responsible for the crop. If the purchaser does not accept the goods sold to him on these terms they are at once to be returned to us and any money paid to us will be refunded.

Ordering Name and Address.—Customers when ordering are requested to give their full name and address, together with full directions as to how they wish the goods to be sent, whether by carrier, rail, or boat, and to whose care the goods must be consigned.

We deliver all goods free on rail, or wharf, after which our responsibility ceases, but we take special care in packing, so that our goods will carry well.

Substituting.—On account of the difficulty in obtaining full supplies of many lines, and the failures of crops of others, we may, if unable to supply the exact variety ordered, substitute for it some other variety of a similar nature, which will, in our opinion, give satisfactory results.

Should customers wish us not to follow this plan with their orders, it is only necessary to state on the order, "Do not substitute."

We Want Your Business.—No order is too large, and none too small to receive prompt and personal attention.

Remittance.—For ordinary payments, customers may remit by Bank Draft, Cheque, or Post Office Order. Small amounts should be remitted by Postal Notes, payable Adelaide.

Packing.—Cases, Bags, and Straw Bundles, used in packing, will be charged at actual cost price. The greatest care is taken in the packing of all plants and trees, so as to ensure their arrival in good condition.

Storekeepers and the Trade supplied at wholesale rates.

Note.—Should there be any seeds, plants, etc., required that are not mentioned in this Catalogue we will be only too pleased to endeavour to supply them.

All Prices in this Catalogue are subject to market fluctuations.

Seed Calendar

Months for Sowing FLOWER SEEDS

JANUARY—

Ageratum, Amaranthus, Antirrhinum, Anemone, Aquilegia, Balsam, Cyclamen, Calliopsis, Cineraria, Delphinium, Dianthus, Didiscus, Gaillardia, Geum, Marigold, Nemesia, Pansy, Poppy (Iceland), Primula, Phlox, Ranunculus, Stocks, Sweet Peas, Viola, Salpiglossis, Zinnia, Acroclinium.

FEBRUARY—

Acroclinium, Anchusa, Antirrhinum, Anemone, Alyssum, Aquilegia, Clarkia, Calendula, Calceolaria, Carnations, Calliopsis, Cineraria, Cyclamen, Delphinium, Dianthus, Didiscus, Eschscholtzia, Forget-Me-Not, Gaillardia, Geum, Hollyhock, Heliotrope, Hunnemannia, Marigold, Mimulus, Nemesia, Nigella, Pansy, Polyanthus, Ranunculus, Schizanthus, Stocks, Sweet Peas, Sweet William, Viola.

MARCH, APRIL and MAY—

Ageratum, Antirrhinum, Anemone, Alyssum, Aquilegia, Aubrietia, Auricula, Bellis Perennis, Brachycome, Calceolaria, Clarkia, Calendula, Canterbury Bells, Carnations, Calliopsis, Cineraria, Cornflower, Cowslip, Coreopsis, Cyclamen, Delphinium, Dianthus, Eschscholtzia, Forget-Me-Not, Geum, Gaillardia, Godetia, Hollyhock, Heliotrope, Hunnemannia, Ipomopsis, Larkspur, Linaria, Lobelia, Leptosyne, Marigold, Mesembryanthemum, Mimulus, Mignonette, Nasturtium, Nemophila, Nemesia, Nigella, Pansy, Pentstemon, Poppy (Iceland), Primula, Polyanthus, Ranunculus, Scabious, Schizanthus, Silene, Stocks, Sweet Peas, Sweet William, Viola, Violets, Virginian Stock, Wallflower, Anchusa, Convolvulus, Dimorphotheca, Vinca, Viscaria, Gypsophila.

JUNE—

Antirrhinum, Alyssum, Bellis Perennis, Calendula, Calliopsis, Candytuft, Carnations, Dianthus, Foxglove, Gaillardia, Godetia, Geum, Gypsophila, Larkspur, Leptosyne, Linaria, Marigold, Mimulus, Mignonette, Nasturtium, Pansy, Poppies (various), Sweet Peas, Stocks.

JULY—

Antirrhinum, Alyssum, Calliopsis, Candytuft, Chrysanthemum, Carnations, Delphinium, Dianthus, Gaillardia, Geum, Larkspur, Mignonette.

AUGUST—

Ageratum, Antirrhinum, Calliopsis, Chrysanthemum, Carnations, Delphinium, Dianthus, Geum, Gaillardia, Marigold, Mignonette, Nasturtium, Scabious, Verbena.

SEPTEMBER, OCTOBER, and NOVEMBER—

Ageratum, Amaranthus, Antirrhinum, Asters, Balsam, Calliopsis, Celosia, Centaurea, Coleus, Chrysanthemum, Cockscomb, Convolvulus, Cosmos, Dahlia, Delphinium, Dianthus, Didiscus, Dimorphotheca, Geum, Gerbera, Globe Amaranthus, Helichrysum, Marigold, Mesembryanthemum, Mina Lobata, Nasturtium, Portulaca, Petunia, Phlox, Salpiglossis, Salvia, Scabious, Sunflower, Sweet William, Tithonia, Verbena, Zinnia.

DECEMBER—

Amaranthus, Antirrhinum, Asters, Balsam, Calliopsis, Celosia, Cosmos, Cockscomb, Didiscus, Gerbera, Marigold, Portulaca, Petunia, Phlox, Salpiglossis, Salvia, Scabious, Sunflower, Tithonia, Verbena, Zinnia.

Months for Sowing VEGETABLE SEEDS

JANUARY—

Beans (French), Beetroot, Borecole, Broccoli, Brussels Sprouts, Cabbage, Celery, Cauliflower, Cress, Carrot, Kohl Rabi, Lettuce, Parsnip, Parsley, Radish, Spinach, Swedes, Turnip.

FEBRUARY—

Beans (French), Beetroot, Borecole, Broccoli, Brussels Sprouts, Celery, Cabbage, Cauliflower, Cress, Carrot, Kohl Rabi, Leek, Lettuce, Mustard, Onions, Parsnip, Peas, Radish, Spinach, Swedes, Turnip.

MARCH, APRIL and MAY—

Beans (Broad), Beetroot, Borecole, Broccoli, Brussels Sprouts, Cabbage, Celery, Cauliflower, Cress, Carrot, Kohl Rabi, Leek, Lettuce, Mustard, Onions, Parsnip, Peas, Radish, Spinach, Swedes, Turnip, Potatoes, Mushroom Spawn, Garlic, Shallots.

JUNE—

Asparagus, Beet (Red and Silver), Broad Beans, Broccoli, Cabbage, Carrot, Cauliflower, Cress, Endive, Kohl Rabi, Lettuce, Mustard, Onions, Parsnip, Parsley, Peas, Radish, Spinach, Turnip, Mushroom Spawn, Garlic, Potatoes, Rhubarb.

JULY—

Beet (Red and Silver), Broad Beans, Broccoli, Carrot, Cress, Endive, Kohl Rabi, Lettuce, Onions, Parsnip, Peas, Radish, Spinach, Turnip, Tomato in Hotbed, Potatoes, Mustard.

AUGUST—

Asparagus, Beet (Red and Silver), Broad Beans, Carrot, Cress, Herbs, Endive, Lettuce, Parsnip, Peas, Radish, Spinach, Turnip, Tomato in Hotbed, Parsley, Pickling Onion, Potatoes (late crop).

SEPTEMBER and OCTOBER—

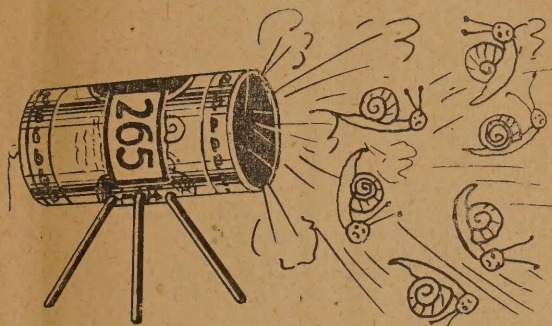

Asparagus, Beet, Cape Gooseberry, Carrot, Chokos, Celery, Cress, Corn (sweet), Cucumber, Egg Plant, French Beans, Lettuce, Melons, Mustard, Parsnip, Parsley, Peas, Pumpkin, Radish, Rhubarb, Spinach, Squash, Tomatoes, Turnip, Trombone, Vegetable Marrow.

NOVEMBER—

Beet (Red and Silver), Cabbage, Carrot, Cress, Corn (sweet), Cucumber, Egg Plant, French Beans, Lettuce, Melon (Water and Preserving), Parsley, Parsnip, Peas, Pumpkin, Radish, Rhubarb, Spinach, Squash, Tomatoes, Turnip, Trombone, Vegetable Marrow, Sweet Potatoes.

DECEMBER—

Beet (Red and Silver), Cabbage, Cauliflower, Carrot, Celery, Corn (sweet), Cucumber, Egg Plant, French Beans, Lettuce, Melon (Water and Preserving), Parsley, Pumpkin, Radish, Spinach, Squash Turnip, Trombone, Vegetable Marrow, Sweet Potatoes.

The Snail Problem Solved With

"INSTANT 265"

Reliable Slug and Snail
Exterminator

There is no more sure destructive agent for Snails and Slugs than "Instant 265." It kills instantly. It needs no messy preparation, but is ready for use in the tin. Its effectiveness lies in its irresistible attraction for all garden pests—none are proof against it. It is pleasant to handle, simple to use, and the most efficient and economical exterminator that has ever been marketed. Sold in tins containing 1½ lbs. for 1/9, 2½ lbs. for 2/9, and 5 lbs. for 5/-.

HARRIS, SCARFE'S "INVINCIBLE" HIGH-GRADE SEEDS NOW OBTAINABLE IN THREEPENNY PACKETS.

In order to meet the growing demand of our customers for smaller quantities of flower seeds, we now offer practically all of the lines in general demand at threepence per packet. We sincerely trust that this advantage will be of great assistance to those who do not require the larger packet. Our High-Grade vegetable seed will still be issued in threepenny packets as before.

SPECIAL NOTE!

We wish to intimate that in offering our "Invincible" Flower Seeds in threepenny packets the same High-Grade Seed will be used as contained in the sixpenny packets.

Since the inauguration of our Seed and Florists' Department, 13 years ago, it has been our definite policy to supply only the best at all times, and we are very pleased to announce that in pursuing this course the department has grown beyond our most sanguine expectations.

All Retail orders for our "Invincible" Seeds in packets to the value of 1/- and over are sent post free, excepting Peas, Beans, and Sweet Corn.

"Australian Gardener"

AN encyclopaedia of Australian Gardening Knowledge. 560 Pages filled with sound, practical advice, and up-to-date hints on the growing of Flowers, Vegetables and Fruits. Complete with Planting-out Tables, Seed-Sowing Calendars, Lists of Flowering Shrubs and Trees.

Cactus Culture, Pruning, Diseases, 230 Illustrations. Send to-day for your Copy.

Price 7/6. Postage 9d.

HARRIS, SCARFE, LIMITED
Grenfell Street ————— Adelaide, S.A.

Select List of Flower Seeds.

6d. and 3d. per Packet, except where otherwise priced.

The Flower and Vegetable Seeds offered in this list are of high standard and quality, always associated with Harris Scarfe's strains, and suitable to our climate. Our seeds are fresh and clean, and purchased from the most reliable growers throughout the world, and we definitely state there is nothing better procurable. The greatest of care is taken to supply everything true to name, but on account of the many adverse influences, which affect the growth of seeds and their germination, it is impossible to give any warranty or take any responsibility for the crop. Also included in the following list is **SUTTON'S RELIABLE SEEDS**, in their own sealed packets.

ACROCLINIUM.—Charming Annual "Everlasting Flowers." Double Rose, 6d. pkt.

AGERATUM.—Hardy Annual.

Little Dorrit.—A splendid variety. 12 in., azure blue. 3d. packet.

Mexicanum.—Blue, 3d. and 6d. pkt.

Blue Cap.—The best dwarf Ageratum yet offered. A deep, rich blue, and very compact in growth. An ideal variety for edgings to flower borders, 6d. pkt.

Sutton's Dwarf Blue (H.H.A.).—Sweet-scented bedding plant; excellent also for edgings, 6d. pkt.

Mauve Beauty.—3d. and 6d. packet.

ALONSOA.—These very beautiful Annuals are becoming deservedly more popular.

Grandiflora, scarlet 3d. packet

Miniata.—One of the brightest scarlet annuals.

Fine compact habit and very free-flowering. 3d. packet.

Mutisi.—Delicate pink, crimson centre, a very pretty variety. 3d. packet.

Warszewiczii.—Scarlet. 3d. packet.

ALYSSUM.—Hardy Annual. A splendid little plant for edgings, beds, or rock work; sweet scented.

Dwarf Carpet (Carpet of Snow).—Compact dwarf habit, growing about 2 inches high.

Literally forming a carpet. 3d. and 6d. pkt.

Lilac Queen.—Dwarf and compact. 3d. pkt.

Belladonna.—A beautiful pale blue, borne on long spikes. 9d. pkt.
Sutton's Large-Flowered, mixed.—6d. pkt.
- DIANTHUS.**—Hardy Annual.
Heddewigii.—Choice mixed, extra select. 3d.
Heddewigii.—Double mixed, extra select. 3d. packet.
Sutton's Brilliant Single Mixed.—6d. packet.
Sutton's Brilliant Double, Mixed.—6d. pkt.
- DIDISCUS.**
Coerulea.—Blue lace flowers. 6d. pkt.
- DIGITALIS (Foxglove).**—Hardy Perennial.
monstrosa.—Splendid mixed; very large flowers. 3d. pkt.
Sutton's Mixed.—6d. pkt.
- DIMORPHOTHECA (African Daisy).**—Hardy Annual.
aurantiaca.—Glossy orange gold. 3d. pkt.
Hybrids—assorted colours. 3d. packet.
- DOLICHOS.**—Climbing Hardy Perennial.
lignosus.—Small lilac flowers. 6d. pkt.
lignosus alba.—A white variety. 6d. pkt.
- ESCHSCHOLTZIA (Californian Poppy).** Hardy Annual. Very profuse blooming, of extremely rich and beautiful colours.
Finest Mixed—3d. and 6d. pkt.
Double Monarch Art Shades, Mixed. — The blooms which are semi-double range in colour from pink, yellow, orange, and scarlet. 6d.
- FELICIA BERGERIANA.** — Dwarf blue, star-shaped flowers. 6d. pkt.
- FORGET-ME-NOT.**—(See *Myosotis*.)
- FREESIA Hybrids.**—Choice mixed. 6d. pkt.
Bartley Hybrids.—This strain represents a vast improvement in Hybrid Freesias, both as regards brilliance of colour and variety of tint. They flower in all shades of yellow, orange, pink, rose, mauve, and cream. Seeds sown in the autumn will give a few quite good flowers in the Spring, but will be at their best the following season. 1/- packet.
- GAILLARDIA.**—Hardy Perennial.
hybrida grandiflora, Monarch Strain, Mixed.—Large full petalled. The large blooms have a ground color of golden yellow in varying tones with various colored zones. 6d. pkt.
Picta.—A single variety; red and yellow. 3d. and 6d. pkt.
Lorenziana.—Double; yellow and deep crimson. 3d. and 6d. pkt.
Grandiflora, Dazzler.—Large flowers up to 5 in. across, bright golden yellow, with rich maroon red centre, fine for cutting. 6d. pkt.
Sutton's Large-flowered Single, mixed.—6d. pkt.
Sutton's Double, mixed.—6d. pkt.
- GERBERA (Barberton Daisy).**—Hardy Perennial
Jamesoni hybrida.—Very fine mixture. 1/- pkt.

- GEUM**—Hardy Perennial.
 Mrs. Bradshaw—Fine double scarlet. 6d. pkt.
 Lady Stratheden — Pure yellow; fine double flowers. 6d. pkt.
- GILIA coronopifolia** — Biennial, growing to a height of 4ft., with a striking spike of scarlet flowers about 1ft. long. 6d. packet.
- GLADIOLUS, Gandavensis**—Newest Hybrids, choicest mixed. 6d. pkt.
- GLOBE AMARANTHUS**—Half-Hardy Annual.
 One of the best hardy everlastings.
 Purple, White, and Mixed.—6d. pkt.
- GLOXINIA, Erect Varieties**—Extra choice mixed, saved only from a prize collection. 1/6 pkt.
- GODETIA**—Hardy Annual. A fine class of free flowering Annuals, worthy of extensive cultivation. Very effective.
- Kelvedon Glory**—A glowing salmon orange. 6d. packet.
- grandiflora fl. pl.**—Mixed double. 3d. and 6d. packet.
- Sutton's Double Pink**. — 6d. pkt.
- Sutton's Large Flowered**. Mixed.—6d. pkt.
- "Sybil Sherwood."** — The colour is a glorious shade of bright salmon pink, softened by an undefined edging of white. 6d. pkt.
- GYPHOPHILA**—Graceful plants of light, feathery growth.
- elegans grandiflora alba**—White, annual. 3d. and 6d. pkt.
- elegans rosea**—Pink; annual. 3d. and 6d. pkt.
- paniculata compacta**—Perennial; large panicles of flowers. 6d. pkt.
- HEUCHERA**—An extremely hardy Perennial, producing elegant spikes of flowers, particularly adapted for cutting.
- sanguinea**—Beautiful coral red. 6d. pkt.
- Choice Hybrids (New)**—Embraces every shade from white to glowing crimson. 6d. pkt.
- HELICHRYSUM, Sutton's Giant, mixed**—Large everlasting flowers of various colours. 6d. pkt.
- HELIOTROPE, Sutton's Large-flowered, mixed. (H.H.P.)**—Sweetly scented pot and bedding plant, easily raised from seed. 6d. pkt.
- HOLLYHOCK, Sutton's Double, mixed. (H.P.)**.
 A much improved strain with large double flowers, many charming shades. 6d. pkt.
- Dwarf "Art Shades"**—Exceptionally large single flowers of beautiful art shades. The plants are of dwarf habit producing huge flowers on slender stems without any crowding. 6d. pkt.
- Sutton's Single, Mixed**—Free flowering type of richly coloured single flowers. 6d. pkt.
- Extra Choice Double (Chater's)**—Superb strain in separate colors. 6d. pkt.
- HONESTY**—Hardy biennials, splendid for cut blooms. 6d. pkt.
- HUMULUS JAPONICUS VARIEGATUS (Variegated Japanese Hop)**—The leaves are beautifully blotched and variegated. 6d. pkt.
- HUNNEMANNIA**—Hardy Perennial.
fumariaefolia—Bright yellow, resembling a Poppy with crinkled petals. 6d. pkt.
- IPOMOEAE**—Half-Hardy Annual. Beautiful hardy climbers, with Convolvulus-like flowers. Rapid growing, covering a large space quickly.
- Cardinalis**—A beautiful climber, with fern-like lacinated foliage, and fiery cardinal red flowers; borne in clusters, 6d. pkt.
- Heavenly Blue**—Early flowering; sky blue. 6d. pkt.
- Leari**—Rich dark blue, perennial. 6d. pkt.
- IPOMOPSIS**—Half-Hardy Annual.
 Mixed.—Very showy. 6d. pkt.
- JACOBEEA**—Splendid rich-coloured free-flowering plants; very double and beautiful; very effective. Double mixed. 6d. pkt.
- KOCHIA**—Half-Hardy Annual.
trichophylla (Summer Cypress)—Pyramidal habit, small feather-like green foliage, turning a lovely crimson hue in March. 3d. and 6d. pkt.
- LARKSPUR**—Hardy Annual.
La France—Of outstanding merit, this variety, belonging to the stock-flowered branching type, will prove popular on account of the striking colour—a pleasing salmon pink. 6d. pkt.
- Miss California**—A deep salmon rose, quite distinct. It comes into flower ten days later than La France. 6d. pkt.
- Stock Flowered**—Choicest double; mixed. 3d. and 6d. pkt.
- Rosy Scarlet**—Double; beautiful rosy red. 6d. pkt.
- Stock - Flowered, in separate colours**. — Azure Blue, Dark Blue, Bright Rose, Flesh Coloured, White, Lilac, Light Blue.—6d. pkt.
- Sutton's Tall**. — Mixed. 6d. pkt. Rosy scarlet. 6d. pkt.
- LATHYRUS PUBESCENS**—Climbing Hardy Perennial.
Blue Argentine Everlasting Pea—Forms a dense mass, with long spikes of lovely powder blue flowers. 6d. pkt.
- LEPTOSYNE**—Bushy and compact plant, flowers bright golden yellow; useful for cutting.
- maritima**—Yellow. 3d. and 6d. pkt.
- LINARIA**—Hardy Annual. Charming free-flowering, useful for cutting. Flowers resemble a miniature Snapdragon.
- Ruby King**—Rich Ruby Crimson, a glorious variety. 3d. packet.
- variety for rock work or hanging baskets and brackets**. 6d. pkt.
- maroccana Hybrida Excelsior**—Choice mixed; improved. 3d. and 6d. pkt.
- maroccana "Fairy Bouquet"**—A new type; the plants not being more than eight inches high. A large range of colours on dwarf compact plants. 6d. pkt.
- LINUM, grandiflorum rubrum (Scarlet Flax)**. — Brilliant scarlet. 3d. pkt.

- compacta Crystal Palace**—Dark foliage, dark blue flowers. 3d. and 6d. packet.
- hybrida pendula**—Light blue, trailing, suitable for hanging baskets. 6d. pkt.

Sutton's Compact Blue.—H.H.P. Beautiful bright blue compact Lobelia. 6d. pkt.

LUPINS.

Russell Lupins.—See Novelty Pages.

Annual Varieties.—Good colors; dwarf mixed. 3d. and 6d. pkt.

Sutton's Annual, mixed.—Free blooming, 6d. pkt.

Sutton's Perennial, mixed.—6d. pkt.

Pink Pearl.—A bushy growing type, free-flowering. 6d. pkt.

Blue Pearl.—6d. pkt.

polyphyllus, Harkness and Downer's. — New Hybrids, sweet scented. The colours run from the palest mauve to deep violet; from sulphur yellow through varying sunset shades to deep apricot; and from pale flesh to deep rose pink. The second year spikes are magnificent. 6d. pkt.

MARIGOLD.—Half-Hardy Annual.

Guinea Gold.—The most beautiful and decorative marigold we have yet seen, producing fully double long petalled flowers having none of the stiffness and formality of the old type. The colour is a beautiful deep rich gold. 3d.

Sunset Giants.—Bear immense flowers, averaging from 5 inches across. Instead of the usual Marigold odour the flowers have a definitely sweet fragrance. They are loosely formed, very full centred, with broad, heavy petals gracefully overlapping to make a flower of great depth. The mixture ranges from deep orange through golden orange, deep golden, light yellow, lemon, and primrose. The strain comes from 60 to 65 per cent. double. 6d. packet.

African, Lemon.—Selected prize strain. 6d. pkt.

African Orange.—Selected prize strain. 6d. pkt.

African, Mixed.—Selected strain. 3d. pkt.

Sutton's Giant Double African. — Magnificent orange or lemon-coloured flowers; very effective in the garden. 6d. pkt.

Sutton's Tall French.—Immense double flowers. 6d. pkt.

French Tall Double Royal Scot. — Large well formed double flowers of mahogany and gold in symmetrical stripes which radiate from the centre. 6d. per pkt.

Dwarf French Double Monarch. — As a box or bedding plant it is ideal. 3d. packet.

MATHIOLA bicornis.—Evening-scented Stock. Light lilac. 6d. pkt.

MESEMBRYANTHEMUM tricolor. — A pretty dwarf annual well adapted for sunny situations; flowers crimson and white with a dark centre. 6d. pkt.

MIGNONETTE.—Hardy Annual. Well known, deliciously fragrant garden plant.

Red Monarch.—The Deepest Red Mignonette of all. The foliage is strong and of good substance. The flower spikes are broad and of perfect form. Its perfume is exceptionally strong. 6d. packet.

Machet Giant.—3d. and 6d. pkt.

Sutton's Giant.—One of the finest Mignonettes. 6d. pkt.

Sutton's Sweet-Scented. — Indispensable in every garden. 6d. pkt.

Sutton's Cloth of Gold. — Distinct yellow spikes. 6d. pkt.

MIMULUS.—

Queen's Prize.—Flowers like Gloxinias. 6d. pkt.

Sutton's Giant, mixed.—Flowers of fine form. 6d. pkt.

tigrinus.—Fine spotted varieties. Mixed. 3d. and 6d. pkt.

MINA LOBATA.—Climbing Half-Hardy Annual. Bright red flowers, changing to orange and cream. 6d. pkt.

MYOSOTIS (Forget-Me-Not).—Hardy Annual.

Ruth Fischer.—Dwarf, extra large flowered. 6d. pkt.

oblongata perfecta.—Flowers borne on long stalks, very suitable for winter blooming. 6d. pkt.

Royal Blue.—Intense rich dark blue, with long stalks. 3d. and 6d. packet.

Sutton's Royal Blue.—6d. pkt.

NASTURTIUM. — Hardy Annual. Valuable bedding plants which give a wonderful show of bloom throughout the Spring.

Orange Gleam.—Deep orange. Double flowers. 3d. pkt.

Golden Globe.—Vivid golden-yellow flowers, all double, very compact and free flowering. Grows only 10 inches high. 3d. pkt.

Scarlet Gleam.—The flowers are a dazzling scarlet, delightfully sweet scented, mostly double on semi-dwarf plant. 6d. packet.

Mahogany Gem.—Mahogany red; dark foliage. Double flowers. 3d. packet.

Scarlet Globe.—Bright scarlet. Double flowers. 3d. packet.

Dwarf Double Gem Mixture—Colors ranging from salmon, yellow, cerise, cream, maroon, crimson and other striking shades. 3d. and 6d. per packet.

Golden Gleam.—The large golden yellow flowers, which are 2½ to 3 inches across. The plant is of semi-trailing habit. 3d. and 6d. per pkt.

Tall Mixed.—Very special mixture, containing the best-named varieties. 3d. pkt.

Dwarf Mixed, Tom Thumb.—Fine mixture of all colours. 3d. pkt.

Sutton's King of Tom Thumb.—Deep scarlet flowers; rich dark-coloured foliage. 6d. packet.

Sutton's Dwarf Mixed. — Indispensable. 6d. pkt.

Sutton's Tall Fairy Queen.—The most beautiful of the tall varieties; the colour varies from pale pink to primrose. 6d. pkt.

Sutton's Tall Crimson.—Excellent for covering trellises, arbours, etc. 6d. pkt.

Sutton's Tall, mixed.—A combination of the most showy varieties. 6d. pkt.

NEMESIA.—Hardy Annual.

strumosa Suttoni Grandiflora.—Special strain, extra fine quality; large flowers, mixed colours. 3d. and 6d. pkt.

strumosa.—Sutton's Mixed. — Richly coloured flowers. 6d. pkt.

strumosa.—Sutton's Dwarf Compact, mixed.— 6d. pkt.

Dwarf Compacta Blue Gem.—6d. pkt.

Nana Compacta mixed. 3d. packet.

NEMOPHILA.—Hardy Annual.

Mixed.—Various colours. 6d. packet.

Insignis.—Blue. 3d. and 6d. packet.

Sutton's Large-flowered Blue. — Beautiful light-blue flowers; universally grown and appreciated for ribbon borders and general garden decoration. 6d. packet.

NEPETA, Mussini.—Fine edging plants (Catmint). 6d. pkt.

NICOTIANA affinis, Sutton's Selected. (H.H.A.).—Exceedingly free and continuous blooming variety; the large white flowers are especially fragrant in the morning and evening. 6d. pkt.

Sanderae Hybrid, mixed (H.A.)—3 ft. 3d. pkt.

NIEREMBERGIA HIPPOMANICA.—We can cordially recommend this beautiful little Salanaceous plant as an admirable subject for garden borders. Not more than 6 to 8 inches high, it forms a cushion of elegant light green foliage from which emerge corymbs of salver-shaped flowers of a delicate lavender hue 1 to 1½ inch across, adorned with a clear yellow eye. 1/- packet.

NIGELLA Hispanica (Dark Blue).—This is the result of an intense selection, both for form and color, and is to be greatly recommended. 6d. pkt.

Miss Jekyll.—Bright cornflower blue. 3d. and 6d. pkt.

PANSY.—We offer the choicest strains procurable.

HARRIS SCARFE'S "INVINCIBLE" SCOTCH

EXHIBITION PANSY.—No Pansy has yet been introduced to surpass this wonderfully improved strain. See Novelty Pages for particulars.

Sutton's Ullswater.—A new variety plant which has created the widest interest. The colouring is unusual and attractive—a solid blue flower with a blue-black centre. 6d. pkt.

Celestial Queen.—Winter flowering, producing masses of sky blue flowers. The best bedding blue pansy. 3d. and 6d. packet.

GAWLER GROWN SEEDS ————— THE FOUNDATION OF SUPERIORITY

A. BUSING.—Dark red, flowers very large. All fours.

APOLLO.—A vigorous grower producing all 4-sprayed blooms on exceptionally long stems, the colour is a bright salmon.

AMERICAN BEAUTY.—The blooms of this handsome variety are borne on unusually long stems, carrying mostly four flowers of giant size. The colour is a rich crimson rose of striking brightness.

BIG BEN.—The colour is a bright purple, which changes to a pretty bluish shade when picked and placed in water; very long stems.

COLUMBIA IMPROVED.—The ground colour of this distinctive variety is a beautiful salmon rose, and the purity of the gorgeous colour is enhanced by the rich cream ground which emerges in a band round the margin.

DARK RED IMPROVED.—A robust grower, producing long stems and plenty of fours.

DARK SEEDED CREAM IMPROVED.—A splendid cream variety, plenty of fours.

EARLY CHIME.—Light salmon pink on cream ground.

EARLY GIANT ROSE.—A bright rose pink, most attractive. The flowers are very large, and borne on long stems of four-sprayed blooms.

EARLY SUNRAY.—An outstanding variety of glowing soft salmon cerise shade, which is magnificent under artificial light.

EARLY MARINER.—Mid-blue, the best blue yet introduced.

GAWLER FASCINATION.—(Harkness).—The colour of this Champion is a beautiful light pink, on a white ground. It is exquisitely waved, a strong, vigorous grower and very floriferous. The flowers, which are produced on very long stems are nearly all four-sprayed.

GAWLER SHADED PINK IMPROVED.—(Harkness).—Rich shade of pink.

GAWLER WHITE.—(Harkness).—One of the best whites; long stems and plenty of fours; good for garden or exhibition.

GAWLER VIOLET ROSE.—(Harkness).—The Colour is a beautiful blending of soft violet and rose (hence its name) and it is quite distinct from any other variety we know.

GLADYS HARKNESS.—(Harkness).—The color of this wonderful variety is a luminous, bright glowing rose; it is also very highly perfumed. The blooms are the largest ever seen and produced on stout stems, mostly fours, which are exquisitely waved and frilled.

INVINCIBLE LAVENDER.—(Harkness).—The best lavender grown, of giant size, and beautifully frilled. 1/- pkt.

INVINCIBLE MAUVE PINK.—See novelty pages.

INVINCIBLE VIOLET.—See novelty pages.

INVINCIBLE PLUM.—(Harkness).—A distinctive rich glistening plum, large blooms on extra long stems. 9d. pkt.

IMPERIAL PINK.—This is a most beautiful colour, being a fine pink, tinted at the base with orange and cream shadings, quite a new colour.

MID-BLUE IMPROVED.—A very pretty sky-blue; four-spray blooms; splendid garden variety.

MOTHER MACHREE.—Coral and golden rose, beautifully blended.

MOTTE'S CREAM PINK.—Splendid variety; long stems of four-spray blossoms.

MOTTE'S PLUM.—Plum colour, with a fine sheen; vigorous grower.

MURIEL HARKNESS.—(Harkness).—Bright pink with lavender toning.

RAWHITI.—A brilliant vermilion red.

SHIRLEY TEMPLE.—A bright waxy rose pink, well waved.

STRADBROKE.—A very pleasing shade of lavender, producing plenty of fours. This variety has great size with wonderful texture.

ZYRIS CREAM PINK.—Beautiful cream pink; long stems; plenty of fours. Good for garden or exhibition.

ZYRIS PICOTEE.—White ground, with red edge; a real exhibition variety.

ZYRIS CERISE.—A good doer; plenty of fours and long stems; good for garden or exhibition.

SPECIAL MIXTURE.—We offer a very Special Mixture, containing 20 of the Best named varieties, and 4 Selected Seeds of each variety —80 Seeds in all—at 2/6 per packet.

"INVINCIBLE" MIXTURE.—This is the finest general mixture ever offered. It includes all the elegant flowered named varieties mentioned in this Catalogue, and also many of our Seedlings which are not yet in commerce. This mixture is definitely superior in every way to all other strains, having more waved and frilled varieties, brighter and more varied colors. 60 seeds, 1/- 200 seeds, 2/6.

CHOICE MIXED SEED, including only named varieties, 3d. and 6d. per packet.

Vegetable Seed

FOR PRICES PER POUND ASK FOR OUR SPECIAL LIST.

CARROT—Sow in rows 9 in. apart; thin plants out to 4 in. apart.

Altringham.—Fine, long, scarlet, large, good flavour; very productive. 3d. pkt.

Early French Forcing.—This is a delicious little table Carrot, tender and sweet-flavoured, and very early. It is almost globe shaped, and is recommended for the home garden. 3d. pkt.

James' Intermediate.—Not so long as Altringham, but thicker at the top; red; good variety. 3d. pkt.

Champion Scarlet Horn.—Distinct; a variety of prime quality and colour; longer than the old Horn type by about 2 in.; coreless; fine. 3d. pkt.

St. Valery or Long Red Intermediate.—A large pointed variety of the finest quality. Splendid for main crop. 3d. pkt.

Manchester Table.—Red; a nice well-shaped root, good colour and quality. 3d. pkt.

Guerande or Ox-Heart.—A short stump-rooted Carrot producing fairly large roots. 3d. pkt.

Sutton's Early Gem.—Quality first-rate, very tender, almost without a core. 6d. pkt.

Sutton's Early Short Horn.—A popular and very useful Carrot for the early border and general crop. Roots tender and delicate in flavour. 6d. pkt.

Sutton's Favourite.—A stump-rooted form of Sutton's Scarlet Intermediate. Strongly recommended for general use. Excellent in flavour and quality. 6d. pkt.

Sutton's New Red Intermediate.—Skin is clear and bright in color, and the flesh close in texture. Very small core. 6d. pkt.

Sutton's Long Red.—A superior long Carrot. 6d. pkt.

CAULIFLOWER.

Veitch's Autumn Giant.—Large white, beautifully compact heads. 3d. pkt.

Early Green Leaf.—Fine early blight-proof, bright green, shiny leaves. Favourite type for market, where it realises high prices, particularly when blight is prevalent on the other kinds. 6d. packet.

Eclipse Early.—Early type; splendid heads of unsurpassed quality. 3d. pkt.

Early London.—Very early, dwarf, large compact heads. 3d. pkt.

Sutton's Early London.—6d. pkt.

Sutton's Autumn Mammoth.—Heads large, close and excellent. 6d. pkt.

CELERY.—Sow in succession from November to February in boxes, prick out the small plants a few inches apart; when strong enough, plant into trenches. Must be well watered while growing, with rich cultivation.

White Plume.—Self-branching; a crisp, solid, and fine-flavoured variety. 3d. pkt.

Sutton's Ivory White.—Very sweet. 6d. pkt.

Celeriac, or Turnip-rooted Celery.—3d. pkt.

Soup Celery (Seeds).—Used for flavouring soups, etc.; it is also an excellent remedy for rheumatism. 6d. per ounce.

CHOKO.—Any good soil in a warm situation will do, for the Choko vine is a vigorous climber. 9d. each.

CRESS.—Sow thickly in drills or beds, for succession, every 10 days. 3d. pkt.

Finest Curled.—3d. pkt.

CUCUMBER.—Sow in succession from August until January; give plenty of water and heavy mulching; pinch back runners when 2 or 3 ft. in length.

Crystal Apple.—A remarkably fine new strain, similar in shape to the ordinary Apple Shaped, but the skin is a pure white when mature. 3d. pkt.

Paris Cluster.—Very quick fruiter, excellent flavour. Ideal for table. 3d. pkt.

Apple Shaped.—Small round variety. very prolific and fine flavoured. 3d. pkt.

Short Prickly.—3d. pkt.

Long Prickly.—3d. pkt.

Long Green.—Smooth. 3d. pkt.

Early White Spine.—An excellent cucumber for market and an abundant yielder. The flesh is crisp and of fine flavour. 3d. pkt.

Sutton's prolific.—Very hardy; unsurpassed in flavour. 3d. pkt.

EGG PLANT.—Sow in August and September. **Giant Purple**.—3d. pkt.

WEST INDIA GHERKIN — Small for pickling. 3d. pkt.

GHERKIN (Russian).—For pickles 3d. pkt.

KOHL RABI.—Purple, large Goliath. 3d. pkt.

LEEK.—Sow in autumn and spring in prepared beds of rich soil.

Musselburgh.—Good and hardy. 3d. pkt.

LETTUCE.—Sow in succession throughout the year in beds.

Continuity — Brownish, of excellent quality. When cut open the colour is rich, creamy-white. Stands hot and dry weather. 3d. pkt.

Iceberg.—A quick grower, with hard, handsome heads. 3d. pkt.

New York.—Grows large size; solid, tender, and crisp. The best Drumhead Lettuce. 3d. pkt.

Neapolitan. — Large size; very distinct, dark green curled leaves; keeps the head well. 3d. pkt.

Drumhead or Malta.—One of the best for general use, large crisp, and compact. 3d. pkt.

Sutton's A1.—Comes in quickly and does not readily run to seed; sweet and tender. 6d. pkt.

Sutton's All-the-Year-Round.—Stands a long time without running to seed. 6d. pkt.

COS LETTUCE.

Sutton's All Heart.—Large hearts, self-folding, very crisp and sweet. 6d. pkt.

MUSTARD.—Sow thickly in beds or rows.

Finest White.—3d. pkt.

Sutton's Selected White.—6d. pkt.

MELON (Water).—Sandy loam is the most reliable, but in fair seasons they do well in any good garden soil. Sow five or six seeds in prepared hills 5 or 6 ft. apart each way, eventually leaving two of the best plants in each hill.

Black Spanish.—Flesh scarlet, seeds black; sweet and delicious. 3d. pkt.

- Cannonball.**—Round, nearly white, flesh, crimson. 3d. pkt.
- Cole's Early.**—The earliest, beautiful bright red, crisp and luscious. 3d. pkt.
- Cuban Queen.**—Luscious, crisp, and sugary; bright red. 3d. pkt.
- Halbert Honey.**—Oblong, 18 inches long, dark glossy green, beautiful crimson luscious flesh. 3d. pkt.
- Ice Cream.**—Dark green with a thin rind; sweet and delicious flavour. 3d. pkt.
- Kleckley's Sweet.**—Oblong shape, dark green skin; flesh brightest red. 3d. pkt.
- Rattlesnake (Gypsy).**—Oblong, light green, beautifully striped, deep scarlet, solid, and deliciously sweet. 3d. pkt.
- "Sugar Stick."**—Handsome, 20 to 25 inches long by 10 to 14 inches in diameter. Light green mottled skin, bright red flesh, solid; very fine flavour. 3d. pkt.
- Mixed Varieties.**—3d. pkt.
- SWEET MELON OR ROCK MELON.**
- Early Hackensack.**—Green skin, thickly netted, green flesh; delicious flavour. 3d. pkt.
- Rocky Ford.**—One of the very best; prolific; very early, green flesh; delicious flavour. 3d. pkt.
- Emerald Gem.**—Very early and prolific, small, deep emerald green skin, thick flesh, suffused, salmon flesh, rich delicious flavour, 3d. pkt.
- Banana.**—Gets its name from its aroma and shape. 3d. pkt.
- Honey Dew.**—Fruit medium sized, about 6 in. in diameter; slightly oblong; skin smooth, with an occasional net; colour creamy yellow, light emerald green flesh, thick, delicious. 3d. pkt.
- PIE MELON (Preserving).**
- Green Seeded.**—Usual variety fruit oblong, light green. 3d. pkt.
- Citron, Red-Seeded.**—Fruit round and dark green, marbled lighter. 3d. pkt.
- MUSHROOM SPAWN ("Mas" Brand).**—This new brand is a great improvement on the old kinds, being far more prolific and reliable. Up to 30 lbs. of Mushrooms can be grown from a 3/- packet of "Mas" Brand Mushroom Spawn. 3/- packet. See Novelty pages.
- ONION.**—Sow in March, April, May, and June.
- Brown Spanish.**—Long-keeping, special stock. An early and exceedingly productive variety. The best Onion for general purposes. 3d. pkt.
- Odourless Onion.**—A variety distinctive for its mildness of flavour and freedom from 'taint.' The variety is medium in season and produces large bulbs of very excellent flavour. A variety which can be eaten raw without hesitation is sure of a welcome. 6d. pkt.
- Silver Skin (Pickling).**—One of the earliest; best for pickling. 3d. pkt.
- White Globe.**—Globe shaped, about 3 in. in diameter, very fine neck, keeps well; pure white. 3d. packet.
- White Spanish.**—Medium size; very mild. 3d. pkt.
- Early White Queen.**—Very early, pure white, excellent flavour. 3d. pkt.
- Brown Globe Improved.**—An improved and selected type. 3d. pkt.
- Sutton's Long-keeping.**—Unsurpassed by any other Onion for its long-keeping quality. 6d. pkt.
- Sutton's White Spanish.**—An old-established favourite; grows to a good size and keeps extremely well. 6d. pkt.
- Sutton's Brown Spanish.**—6d. pkt.
- SPRING ONION.**—Fine and mild; pull when young. 3d. pkt.
- PARSLEY.**—Sow in Autumn in fine soil, in rows 1 ft. apart.
- Extra Triple Curled.**—3d. pkt.
- PARSNIP.**—Sow in Autumn or Spring.
- Hollow Crown.**—Select, long roots. 3d. pkt.
- Turnip-rooted.**—Distinct and excellent; recommended for shallow soils. 3d. pkt.
- Sutton's Hollow Crown.**—6d. pkt.
- PEAS.**—Sow every few weeks during Autumn, Winter, and Spring, in rows 2 ft. apart for dwarf early sorts, and 3 ft. to 4 ft. for late tall varieties.
- FIRST EARLY VARIETIES.**
- Greenfeast.**—Very early dwarf Pea; abundant cropper; height 15 in. 6d. pkt.
- Richard Seddon.**—An early dwarf Pea, with well-filled pods; of fine colour and flavour; very prolific. 6d. pkt.
- William Hurst.**—An early variety; abundant bearer; height, 1 ft. 6d. pkt.
- Sutton's Earliest Marrow.**—Excellent Marrowfat Pea. Handsome pods and delicious Peas. Height, 3 to 4 ft. 9d. pkt.
- MAIN CROP VARIETIES.**
- Yorkshire Hero.**—Good flavour and abundant bearer; the most popular variety, 2½ ft. high. 6d. pkt.
- Duke of Albany.**—Fine, and abundant bearer—each pod contains about 9 peas; 4 to 5 ft. 6d. pkt.
- Sutton's Productive Marrowfat.**—One of the finest wrinkled Peas in the second-early class. Height 5 to 6 ft. 9d. pkt.
- SKINLESS, SUGAR PEAS, TALL & DWARF.**
- Giant Sugar.**—Very large pods, fleshy and tender. 6d. pkt.
- PUMPKIN.**—Culture as for Melons, but holes 3 ft. or 4 ft. further apart.
- Iron Bark.**—Well-known variety; medium. 3d. pkt.
- Turk's Cap.**—A handsome early variety; ornamental and useful. 3d. pkt.
- Triamble.**—Distinct shape, three-cornered, with few seeds; dry; best quality; keeps well. 3d. pkt.
- Crown.**—Fine quality; dry; keeps well. 3d. pkt.
- RADISH.**—Sow frequently in small beds or drills, then thin out to 2 in. apart.
- Chinese.**—Long solid white. 3d. pkt.
- French Breakfast.**—Oval, scarlet, tipped with white; excellent flavour. 3d. pkt.
- Long Scarlet.**—Well-known popular variety. 3d. packet.

Mixed Turnip.—Red and white; very early. 3d. pkt.

White Icicle.—Very early, long pure white, mild and tender; excellent. 3d. pkt.

Sutton's Mixed.—A mixture of really good Turnip-shaped varieties. 6d. pkt.

Sutton's French Breakfast.—Flesh white. 6d. pkt.

Sutton's Long Scarlet.—Carefully selected strain, tender and sweet. 6d. pkt.

Sutton's Long White.—Roots of excellent shape and quality. 6d. pkt.

RAPE.

Broad-leaved Essex.—Leaves used as Spinach. Sow in drills, 1 ft. apart. 3d. pkt.

RHUBARB.—Sow in Spring. Plant out in rows a few inches apart; afterwards plant 3 to 4 ft. apart in permanent bed.

Topp's Winter.—Very prolific, fine flavour, long stalks. In perfection during Winter, when other varieties are at rest. 3d. pkt.

SPINACH.—Sow in succession during Autumn and Winter in drills 18 in. apart, thin out to 9 in. rows.

Prickly or Winter.—3d. pkt.

New Zealand Spinach.—A valuable Summer vegetable. Sow in September and October. 3d. pkt.

Round or Summer.—Thick, round leaves. 3d. pkt.

SWEET CORN.—Sow in Spring.

Golden Bantam.—Very productive and luscious; a great favourite. 6d. pkt.

Country Gentleman.—The finest for the private table. The quality is delicious; sweetest and most tender. 6d. pkt.

SQUASH.

Hubbard.—Large, olive shape, dark green skin, very rich dry flesh of fine grain and good flavour; an excellent keeper. 3d. pkt.

Early White Scalloped Bush.—A splendid early maturing Bush Squash, often sold under the name of Custard Marrow. The fruit is flat, scalloped-shaped with a skin of a light creamy white and of very delicious flavour. 3d. pkt.

TROMBONE.—Sow in August, September, and October, in the same manner as Melons.

Large Green.—Flesh orange, excellent flavour; keeps well. 3d. pkt.

TOMATO.—For early plants, sow in May

"Morning Glory"—This (New) Tomato will no doubt become a great favourite. The plants are practically disease proof, strong, tall growing, and bear large crops of medium sized fruit, which are perfectly round and smooth. The fruits, which are deep scarlet in colour, set very freely and are of excellent flavour. 6d. pkt.

South Australian Earliest Dwarf Red.—The best and largest fruited of all the Dwarf varieties. 3d. packet.

Australian Large Red.—Heavy cropper, fine large fruits of excellent flavour. 3d. pkt.

Burwood Prize.—Vigorous and hardy, second early; smooth and solid, potato leaved. 3d. pkt.

Earliana.—Very productive, early and large, smooth red fruits; very few seeds. 3d. pkt.

Ponderosa.—One of the largest Tomatoes; handsome, smooth, and very solid. 3d. pkt.

Kondine Red.—A tremendous cropper, producing fine, medium-sized, rich scarlet smooth-skinned fruit of excellent flavour. 3d. pkt.

Excelsior Prize Tomato.—This is one of the most vigorous and hardiest varieties, and will give an enormous crop of smooth oval fruit. They are very solid and splendid carriers. The fruit is of a good size, juicy, and well flavoured. One of the best market types. 3d. pkt.

Chalk's Early Jewel.—A popular smooth-skinned second-early variety, producing large, solid, handsome fruit of the brightest scarlet. The flesh is thick and of fine flavour. A very heavy yielder. 3d. pkt.

Sutton's Early Red.—6d. pkt.

Sutton's Yellow.—Productive, and excellent in flavour. 6d. pkt.

TURNIP

Early Stone.—One of the best for general use; white flesh, and of good flavour. 3d. pkt.

Snowball.—Quick grower, fine flavour; one of the best; early. 3d. pkt.

Early Purple-top Munich.—Very early, handsome snow-white flesh, delicious flavour. 3d. pkt.

Extra Early Milan.—Excels all others in rapidity of growth, very small tops, admirably adapted for forcing. 3d. pkt.

Sutton's Early Snowball.—The earliest and most perfectly formed round white Turnip. Flesh snowy white, solid, and mild in flavour. 6d. pkt.

Sutton's Improved Orange Jelly.—Superior to the ordinary stock; rich colour. 6d. pkt.

Sutton's White Stone.—Comes into use in a short time. 6d. pkt.

Sutton's Early White Milan.—One of the earliest Turnips in cultivation; roots flat, of medium size, quite smooth. 6d. pkt.

SWEDE TURNIPS.

Sutton's Garden Swede.—Short top, root clean and well-shaped. An excellent variety in every way. 3d. and 6d. pkt.

Swede (Laing's Garden).—Good quality; small Swedes for cooking. 3d. pkt.

Skirving's Improved Purple Top.—3d. pkt.

VEGETABLE MARROW

Bush Green.—Excellent quality, prolific, and early; does not require much space, as they do not trail. 3d. pkt.

Bush White.—Very distinct, skin smooth, dark green marbled yellow. 3d. pkt.

Long White Runner.—An abundant and certain bearer. 3d. pkt.

Long Green.—Trailing growth. 3d. pkt.

Sutton's Long Cream.—Fruit of pale cream colour, almost white, very long and distinctly rubbed. 6d. pkt.

Sutton's Long Green.—An ideal type of long Vegetable Marrow. Very prolific. 6d. pkt.

Sutton's Finest Mixed Marrow.—A mixture of excellent varieties. 6d. pkt.

Ornamental Grasses

AGROSTIS nebulosa (cloud grass).—One of the highest, most graceful; beautiful for bouquets. 1½ ft. 6d. pkt.

HORDEUM jubatum (Squirrel Tail Grass).—A hardy annual of a purplish colour. Fine for bouquets. 1½ ft. 6d. pkt.

TRICHOLAENA rosea.—Very pretty (summer); fluffy coppery heads; the loveliest of all the ornamental grasses for cutting. 6d. packet.

ZEa, japonica variegata (Maize).—Leaves superbly striped with broad bands of crimson, yellow, rose, white, and bronze, 5 ft. 3d. and 6d. packet.

Acquatic and Marsh Plants

For Aquariums, Ponds, Muddy Places, Creeks, etc., more especially where fish are kept. Some of these Plants should be used as they have a cool appearance, pleasing to the eye, and also act as a Preservation to the health of the fish.

ACORUS (Calamus), 2 ft. 2/6

ALISMA (Water-Plantain)—plantago, white 1 ft. 2/-

APONOGETON (distachyon)—White, beautifully scented 1/6

AZOLLA (Rubra)—A floating aquatic 1/6

BUTOMUS (umbellatus). — Pink, 1 ft. 2/6

JUNCUS (Zebrina) 1/6

LIMNOCHARIS (Humboldtii) (Water Poppy)
Price 2/-
An interesting and pretty aquatic which in summer covers the surface of the water with broad heart-shaped leaves of a beautiful glistering green, and soft yellow flowers which continue for several months.

NELUMBIUM (Lotus) *speciosum roseum*. —
Pink 5/-
Magnificent aquatics with large leaves 1½ to 2 ft. across, standing up above the surface of the water and beautiful large flowers, 8 to 10 inches across, delightfully fragrant and quite hardy.

NYMPHAEA (Waterlily)—
alba (British Waterlily)—White 3/6
alba plenissima—White 5/-
Caroliniana—White, faintly tinged rose 5/-
Collossea—Delicate flesh pink, large flowers, 5/-
Flava—Yellow 3/6

Fulva—Orange red, tinted golden 5/-

Gladstoniana — A very handsome variety with enormous snow-white flowers, measuring 6 to 8 inches in diameter 5/-

Gloriosa— A superb variety with large glowing red flowers, measuring 7 inches across, deliciously scented 5/-

Gracilis — White with yellow stamens, star-shaped flowers standing well above the water 5/-

Gracilis.—Blue, starry-shaped flowers, stand well out of water 5/-

James Brydon—Large rosy crimson flowers, very double and quite distinct 5/-

Laydekeri (lilacea). — Flowers of medium size, opening a soft blush pink, passing off to bright rosy crimson 3/6

Lucida — Large vermilion red flower, marbled dark red 5/-

Marliacea (albida). —Very large flowers of beautiful ivory white, delightfully fragrant, 3/6

Marliacea (Chromatella). — Beautiful soft primrose suffused rose 3/6

Marliacea Rosea. — Very large flowers, opening a soft rose pink, changing to blush, delicately scented 3/6

Moorei.—A very fine variety, with deep primrose yellow flowers 5/-

Robinsonii. — Large flowers of a rich claret colour, very strongly scented 5/-

Stellata. — A very pretty variety with blue flowers, very strongly scented 5/-

PAPYRUS (Antiquorum)—Egyptian paper grass
Price 3/6

PONTEDERIA (crassipes) — Water hyacinth
Rosy lilac, with a deep golden spot in the centre 1/6

Hardy and Ornamental Trees, Shrubs and Plants

FOR THE OPEN GARDEN.

Abbreviations used:—

- E.T. signifies Evergreen Tree.
D.T. signifies Deciduous Tree.
D.S. signifies Deciduous Shrub.
E.S. signifies Evergreen Shrub.

Those marked * signify those varieties which grow best in cool districts.

The height of Shrubs and Trees given is approximate when fully developed in favourable soils and situations, and varies.

Most Shrubs, however, may be kept to any required size by judicious pruning.

ABELIA—Dwarf, free flowering shrubs, suitable for front of shrubberies.

E.S. *Hendersonii*—White, flushed pale pink; 3 ft. 1 6

E.S. *longituba* (syn. *Schumannii*). — A most attractive variety with soft rose lilac flowers appearing in summer; 4 ft. 2/6

ABUTILON (Chinese Lantern)—Desirable flowering shrubs.

E.S. *Anna Crozy*—Deep pink, shaded lilac, veined white; 5 ft. 1 6

E.S. *Duc de Malakoff*—Orange striped; 8 ft. 1 6

E.S. *Emperor* — Rich dark crimson colour; 4 ft. 1 6

E.S. *Golden Bells*—Rich golden yellow; 4 ft. 1 6

E.S. *Sou de Bon*—Green foliage, margined white; 5 ft. 1 6

E.S. *Sou de Prince Albert* — Beautiful golden, variegated foliage; 5 ft. 1 6

E.S. *Sydney Belle*—Large bright golden yellow; 6 ft. 1 6

E.S. *Vexillarium*—Yellow and red; a beautiful little shrub; 3 ft. 1/6

ACACIA (Wattle).

E.S. *Baileyana* (*Cootamundra Wattle*) — A beautiful variety, with glaucous foliage; flowers pale yellow, produced in great profusion. One of the earliest varieties 1 6

E.T. *dealbata* (*Silver Wattle*)—20 ft. 1 6

E.T. *decurrens* (*Black Wattle*)—20 ft. 1 6

E.T. *discolor* (*Sunshine Wattle*) — 15 ft. 1 6

E.T. *elata* (*Cedar Wattle*)—20 ft. 1 6

E.T. *floribunda* — A very fine variety, resembling *Longiflora*; 15 ft. 1 6

E.S. *linifolia*—Canary yellow, 8 ft. 1 6

E.T. *longifolia*—Yellow; 15 ft. 1 6

E.T. *normalis* (*Queen Wattle*) — Very attractive; 20ft. 1 6

E.S. *podalyriaefolia* (*Queensland Wattle*).—Very fine; 12 ft. 2 0

E.S. *prominens* (*Golden Rain*)—10 ft. 1 6

E.T. *pycnantha* (*Common Golden Wattle*)—20 ft. 1 6

E.T. *saligna* (*Willow Wattle*)—Golden yellow; 15 ft., spring flowering 1 6

***ACER** (Maple)

D.T. *campestre*—English Maple; 30 ft. 3 6

D.T. *negundo*—The green-leaved Maple 2 6

D.T. *negundo folii variegata* — Green, white, and yellow; very handsome. One of the most effective and beautiful of all variegated trees. This variety does well on the plains, and holds its colour well; 20 ft. to 30 ft. 3 6

D.T. *negundo crispum*—Pale yellow and green 5 0

D.T. *platanoides*—Norway Maple 3 6

D.T. *platanoides Schwedlerii* 5 0

D.T. *pseudo-platanus* (*Sycamore*) 3 6

D.T. *pseudo-platanus Leopodi* — Beautiful foliage variety 5 0

D.T. *pseudo-platanus purpurea* — A variety of the *Sycamore* with the purplish red foliage 3 6

D.S. *polymorphum* varieties — These are the beautiful Japanese varieties, grown for their highly colored and beautiful foliage 5 0

D.T. *rubrum* (*Scarlet Maple*) — Foliage turns dark red in Autumn 3 6

D.S. *saccharinum*—Sugar Maple 3 6

***AESCULUS.**

D.T. *hippocastanum* (*Horse Chestnut*) White; 40 ft. 2 6

D.T. *rubicunda*—Scarlet flowers in very fine racemes. A distinct and beautiful tree; 20 ft. 5 0

AGATHOEIA (*Blue Marguerite*)—Very free flowering, neat little shrub, bearing bright blue flowers with yellow disc.

E.S. *coelestis*—Blue; 3 ft. 1 5

AGERATUM—Very free flowering bushy shrub. Always in bloom.

E.S. *mexicanum*—Blue; 2 ft. 1 6

AILANTHUS.

D.T. *glandulosa* (*Tree of Heaven*)—20 ft. 2 0

***ALNUS** (*The Alder*).

D.T. *glutinosus* — An ornamental deciduous tree for cool districts; 50 ft. 2 6

ALOYSIA.

D.S. *citriodora* (*Lemon-scented Verbena*)—Very hardy shrub, with sweetly-scented foliage 6 ft. 2 0

ALYXIA.

E.S. *daphnoides* — A pretty little 3 ft. shrub, with glossy leaves, white flowers, followed by orange berries 2 6

***AMELANCHIER.**

D.S. *Canadensis*—A beautiful shrub, covered with masses of small white flowers in Spring before the leaves burst; 12 ft. From 3 6

AMYGDALUS (Double-flowering Peach)

—The flowers of the different varieties are exceedingly beautiful and rank amongst the handsomest flowering deciduous trees.

D.S. *Persica*—Double crimson; 12 ft. 2 0

D.S. *Persica*—Double pink; 12 ft. 2 0

D.S. *Persica*—Double white; 12 ft. 2 0

D.S. *Persica*—Double bright crimson; 12 ft. 2 0

D.S. *Persica versicolor*—Double pink and white, on same tree; 12 ft. 2 0

D.S. *Pollardi*—Single pink flowers, like almond bloom; very handsome; 12 ft. 2 0

D.S. *Early Winter Red*—Very early flowering varieties, double 2 0

D.S. *Early Winter Pink*—Very early flowering varieties, double 2 0

***ANDROMEDA.**

E.S. *Catesbaei*—Handsome autumn foliage, white flowers; 5 ft. 3 6

E.S. *Japonica*—A charming shrub, producing panicles of snow-white lily-of-the-valley-like flowers; 6 ft. 3 6

ARALIA.

E.S. *Sieboldti*—Glossy green, palmate leaves. A very handsome shrub. 2 0

E.S. *Sieboldti variegata*—Beautiful large palmate leaves, margined silvery white 5 0

ARBUTUS.

E.T. *unedo* (Irish Strawberry) — A very handsome evergreen tree, with Lily-of-the-Valley-like flowers and ornamental red fruit. Suitable for hot or cool districts; 20 ft. 2 6

ARDUINA.

E.S. *bispinosa grandiflora* (Cape Plum) —One of the best hardy shrubs; glossy green foliage; well-shaped bush, and sweet-scented Jasmine-like flowers; 8 ft. 2 0

ARGYRANTHEMUM (Marguerite or Paris Daisy) — See Marguerite.

ARUNDO (Variegated Bamboo).

Donax aurea variegata—Very handsome broad variegated foliage in Summer; 6 ft. 2 0

Donax variegata — Silver variegated foliage in winter; 8 ft. 2 0

ATRIPLEX (Salt Bush).

E.S. *nummularia* — Makes a handsome silvery-leaved shrub; 8 ft. 1 6

***AUCUBA.**

E.S. *Japonica variegata*—Suitable only for cool district; 4 ft. 2 6
And many other varieties from 2/6

***AZALEA.**

Indica—We have a choice collection of both Double and Single-flowered varieties of these desirable plants in their many and varied colours. 2/6.

BAY TREE (See *Laurus Nobilis*).

***BAECKIA.**

E.S. *plicata* — Red and white. Pretty Heath-like plant 2 6

BAMBUSA.

Argentia variegata 2 6

aurea — The Golden Bamboo. Very handsome 3 6

Fortunei aurea—A dwarf variety; the foliage at certain times of the year is bright golden yellow; 1 ft. 2 5

Fortunei nivea vittata — Leaves striped white and green. Very pretty; 1 ft. 2 6

nigra (The Black Bamboo) 3 6

***BANKSIA.**

E.S. *grandis*—Yellow; 20 ft.; 2 6

**Menziesia*.—Introduced from Western Australia; this grows into a large shrub, about 20 ft. high, with long, serrated leaves, green on the upper surface, silvery grey underneath, with large reddish coloured flowers, cone-shaped, six to nine inches in length 2 6

Occidentalis.—A very rare shrub which is secured from Western Australia, growing about 6 ft. high, with long, narrow, undulated leaves, and producing large bright, mauve-coloured flowers; a handsome plant when in bloom; very scarce 2 6

prionotes. — A distinct variety of great beauty, with very large golden yellow flowers, lasting a long time when cut; foliage somewhat pubescent, silvery grey on the under surface; bright green on the upper surface; growing from 15 to 20 ft. high; very attractive 2 6

BARLERIA.

E.S. *cristata*—Light mauve; 2 ft. 1 6

BAUHINIA.

E.S. *alba*—White 2 6

E.S. *Purpurea*—12 ft. 2 6

BENTHAMIA.

E.S. *fragifera*—White; 12 ft. 2 6

A fine, quick-growing shrub, very ornamental when covered with its beautiful scarlet fruit.

BERBERIS (The Barberry).

D.S. *Aristata*—Yellow flowers, good foliage, bark turns red in winter 2 0

E.S. *Asiatica*—Yellow 2 6

E.S. *Bealii*—Very handsome, large-leaved variety 5 0

E.S. *Darwinii*—One of the best; covered in Spring with deep orange flowers. From 2 0

- E.S. Nepaulensis.**—Good foliage, yellow flowers, 4 ft. 3 6
- E.S. polyantha.**—Bright green obovate leaves, yellow flowers, coral - red berries; 4 ft. 2 0
- E.S. stenophylla.** Golden yellow flowers, good foliage; 4 ft. 2 0
- E.S. subcauliata**—Graceful arching branches, with pink berries in Autumn 2 0
- Thunbergii**—Yellow flowers in Spring; foliage and berries are crimson in Autumn 2 0
- D.S. Thunbergii atro-purpurea.**—An attractive new variety. Foliage in spring, rich bronze red, and colour retained until late autumn, when it takes on the brilliant tints like the ordinary *Berberis*; 4 ft. from 2 6
- vulgaris (Common Barberry)**—Yellow flowers in Spring; orange - red berries 2 0
- vulgaris purpurea**—A conspicuous variety, with deep purple foliage, turning crimson in Autumn. We recommend this as one of the most distinct foliage shrubs we have 2 0
- Wilsonae**—Pale yellow blooms; graceful drooping branches with bright coral berries 2 0
- BEAUFORTIA.**
- *E.S. sparsa.**—Orange red; 4 ft. from 2 6
- *BETULA.**
- D.T. alba (The Silver Birch)**—An ornamental and graceful hardy deciduous tree, of 30 ft. Small Poplar-like foliage, which turns golden yellow in Autumn. From 2 0
- D.T. alba folia atro-purpurea (The Purple-leaved Birch).**—A magnificent tree; habit similar to the Silver Birch, but with purple foliage, 20 ft. from 5 0
- *BORONIA.**
- E.S. elatior**—Rose colour, slightly scented; 2 ft. 2 6
- E.S. megastigma**—A beautiful little shrub, with coppery flowers, with a most powerful scent. A great favourite; 2 ft. 2 6
- BOUGAINVILLEA.**
- E.S. glabra Cypheri**—Magenta, very large flowers 2 0
- E.S. glabra Sanderiana**—Magenta, very hardy 2 0
- These varieties of the *Bougainvillea* make magnificent shrubs if planted against a 6ft. or 8 ft. stake, and the long shoots trimmed in.
- BOUVARDIA.**
- Humboldtii**—Pure white, sweetly scented 2 0
- BRACHYCHITON.**
- E.T. acerifolia (Flame Tree—Scarlet);** one of the most effective trees when in flower; 30 ft. 1 6
- E.T. populneum (Currajong)**—10 ft. A splendid tree for planting in hot, dry climates 1 6
- BROWALLIA.**
- E.S. Jamesoni**—A handsome shrub, producing an abundance of orange flowers in drooping panicles; 6 ft. 1 6
- BRUGMANSIA (Trumpet Flower).**
- E.S. Knighti**—A handsome shrub, producing numerous large, trumpet-shaped, pendulous white flowers, strongly scented; 8 ft. 2 0
- E.S. sanguinea**—Red and orange; 6 ft. 2 6
- BRAZILIAN GLORY PEA**—(See *Sesbania*).
- BUDDLEIA.**
- E.S. alternifolia.**—A fine vigorous shrub, of distinct, bushy habit, growing about 6 ft. high, and producing its delicate, sweet-scented, rosy-mauve flowers in Spring, clustered on the upper side of the branches, and not in panicles at the end of the branches 1 6
- E.S. globosa**—Globular orange - colored flowers; 8 ft. 2 0
- E.S. Madagascariensis**—Orange; very rapid grower, and hardy; 15 ft. 1 6
- E.S. officinalis**—A dwarf variety; panicles of pale blue flowers, with orange eye 1 6
- E.S. salvifolia.**—A new variety that promises to become one of our most conspicuous Winter - flowering shrubs. Very rapid grower. Dense heads of pale lilac highly scented. Flowers freely during the dull Winter months; 5 to 6 ft. 1 6
- E.S. variabilis magnifica**—A handsome vigorous shrub, producing large panicles of flowers, of a beautiful rosy purple shade, sweetly scented; 8 ft. 1 6
- E.S. variabilis rosea.**—Vigorous growth, bearing large trusses of deep mauve pink flowers 1 6
- E.S. Veitchiana**—A splendid, hardy shrub, bearing masses of velvet-coloured flowers, sweetly scented. 8 ft. 1 6
- BUXUS (Box).**
- E.S. pyramidalis variegata** from 1 6
- E.S. sempervirens (Box Tree)**—8 ft. 1 6
- E.S. sempervirens argentea variegata**—8 ft., from 1 6
- E.S. suffruticosa (True Dutch Box)** 1 6
- CALCEOLARIA (The Slipper Wort)**—Hardy, shrubby plants, with attractive flowers. Cut back after flowering.
- Yellow** 1 6
- Bronze** 1 6
- CALLISTEMON (Native Bottle Brush).**
- coccineus**—Dazzling scarlet 2 0
- lanceolatum**—Crimson 2 0

- CALODENDRON** (Cape Chestnut) — One of the most attractive and useful evergreen flowering trees from 20 to 30 ft. high. Can be recommended where a distinct specimen is required. Throughout the year its luxuriant foliage is much admired. In Spring has large panicles of flowers.
- capensis*—White, with pink markings. Flowering in panicles from 2 6
- CALYCANTHUS** (Allspice).
- D.S. *Floridus*—Brown, sweet-scented flowers; 8 ft. Hardy, deciduous shrub, flowering in the middle of Winter 2 6
- *CAMELLIA**—A large collection in all colours; from 3 6
- CAMPHORA**—(Camphor Laurel)
- E.T. *Officialis*—A handsome evergreen tree. Will do well in hot districts. Furnishes the camphor of commerce 2 0
- CANTUA.**
- E.S. *dependens*—Rosy carmine; 4 ft. 2 0
- E.S. *dependens alba*—White, edged with rose; 4 ft. 2 6
- Lovely flowering shrubs, *Dependens* being especially handsome, having drooping clusters of Begonia-like flowers.
- CAROB TREE**—(See *Ceratonia*).
- CARYOPTERIS** (Blue Spirea) — A dwarf deciduous shrub of 2 to 3 ft., with silvery green foliage; covered throughout the Summer and Autumn with neat spikes of Spirea-like flowers. Prune hard back in Winter.
- E.S. *Tangutica*—Small variety, with deep blue flowers. 2 ft. 2 0
- E.S. *mastacanthus*—Bright blue 1 6
- *CARPINUS.**
- D.T. *cetulis* (Horn Bean)—A very beautiful, hardy deciduous tree 2 6
- CASSIA** (*Senna* Bush)—Evergreen shrubs, 5 to 6 ft., with attractive branches of flowers that open in Winter. Cut back after flowering.
- E.S. *didymobotrya*—A very handsome large-flowered variety. Yellow and black 2 0
- E.S. *floribunda*—Yellow, very free 2 0
- *CASTANEA.**
- D.T. *vesca*—Spanish Chestnut; 30 ft. 2 6
- CASUARINA** (Native Sheoak).
- E.S. *glauca*—Swamp oak; 30 ft. 1 6
- CATALPA** (Tree Begonia)—A hardy, deciduous tree of 15 to 20 ft., with large foliage and panicles of attractive flowers in summer.
- D.T. *speciosa*—White 2 6
- D.T. *syringaeolia*—Creamy white, spotted lilac and yellow 2 6
- CEANOTHUS**—Hardy evergreen, quick-growing shrubs of 8 to 10 ft., with deep green box-like foliage and attractive spikes in summer. Amongst flowering shrubs they have few equals.
- E.S. *divaricatus*—Bright Blue 2 0
- E.S. *Edwardsii*—Compact bushy growth, with small shiny foliage and bright blue flowers in Spring 2 0
- E.S. *Veitchiana*—Dark blue, of dwarf habit 2 6
- spotted lilac and yellow 2 6
- CELTIS australis** — Commonly known as the Nettle Tree. This tree is very similar in appearance to the Elm. Although it is of a different family it is more suited to our Australian climate. A splendid tree for single specimens or avenues 2 0
- CEDRELA.**
- D.S. *Australis* (Aus. Red Cedar).—Quick growing tree suitable for street planting; 30 ft. from 2 0
- *CERASUS.**
- E.S. *laurocerasus* (Common Laurel)—12 ft. 1 6
- E.S. *lutanica* (Portugal Laurel) — White, 12 ft. 2 0
- D.T. *serotinapendula* — Beautiful ornamental tree, with racemes of white flowers 10 6
- D.T. *Double-flowering Cherry* — Several varieties; 18 ft. The double flowering Cherries give a beautiful effect when flowering in early Spring 3 6
- CERATOSTIGMA—**
- E.S. *Wilmottiae*. A beautiful shrub, bearing clusters of sky-blue flowers. Very pretty; 3 or 4 ft. 2 0
- CERATONIA.**
- E.T. *siliqua* (Carob Tree, or St. John's Bean), 30 ft. from 2 0
- CERCIS**—The Judas Tree, or Red Bud.
- D.T. *siliquastrum*—Rosy purple; 8 ft. 2 6
- CESTRUM**—Hardy evergreen shrub.
- E.S. *aurantiacum*—Deep orange, in large terminal bunches; 6 ft. 1 6
- E.S. *diurnum*. — Straw white, sweetly scented at night; 6 ft. 1 6
- CHAMAELAUCIUM.**
- E.S. *uncinatum* (Geraldton Wax Flower) —A hardy, free-flowering shrub which can be had in various shades of pink. From 2 0
- CHERRIES—**
- D.S. *Double-flowering*. See *Prunus Serulata*.
- CHOISYA.**
- E.S. *ternata*—White; 4 ft. One of the hardiest, most lovely little shrubs, with deep, glossy green foliage and pure white flowers, similar to orange blossom, sweetly scented; always neat in appearance 2 0
- CHORIZEMA** (Flame Pea Bush)—Dwarf evergreen shrubs of 2 to 3 ft., with attractive pea-shaped flowers in early Spring.
- E.S. *cordata*—Flowers orange and yellow; heart-shaped leaves 1 6

E.S. grandiflora—Red and yellow	2 0	E.S. Hookeri—White; 4 ft.	2 0
E.S. illicifolia—Red and yellow, with holly-like foliage	2 0	E.S. horizontalis — Small pinky white flowers, followed by scarlet berries	2 0
CHRISTIA.		E.S. macrophylla—Glossy green foliage, and large coral red berries	2 0
E.S. grandiflora—4 ft. A compact growing shrub with curiously formed yellow and red flowers	2 0	E.S. Microphylla—White; 4 ft.	2 0
CISTUS.		E.S. Pannosa—White; 6 ft.	1 6
E.S. Formosa—Yellow and black	1 6	E.S. Vicari.—Semi-pendulous habit, white, flowers, red berries; 4 ft.	2 6
E.S. ladaniferus — A beautiful white flower, each marked near the base with a dark blood-colored spot; 4 ft.	1 6	CRATAEGUS (The Hawthorn) —Hardy deciduous and evergreen shrubs, growing from 8 to 12 ft. In early Spring they are completely covered with their various colored flowers, which are succeeded by bright berries, which hold till winter.	
E.S. Sunset—Pink, 3 ft.	1 6	E.S. Carrieri — White, large ornamental fruits; 15 ft.	2 6
CITHAREXYLUM.		E.S. crenulata—White flowers, followed by small scarlet berries, which completely cover the plant. Very effective. Makes a fine hedge	1 6
E.S. subseriatum — Quick-growing, with sweetly-scented white flower and handsome foliage; 10 ft.	2 0	D.T. cordata — White; beautiful autumn foliage; 20 ft.	2 6
CITRUS.		D.T. Korolkow—White, large yellow fruits; 10 ft.	2 6
E.S. limonum aureum variegatum (variegated-leaved Lemon)—10 ft.	5 0	D.T. Mexicana—Large yellowish berries; 12 ft.	3 6
E.S. cumquat—Small growing ornamental Orange. Suitable for growing in tubs	5 0	E.S. pyracantha Angustifolia. A striking variety, with long narrow leaves; covered in autumn with orange-scarlet berries. 6 to 8 ft.	2 0
CLERODENDRON (Glory Tree)		E.S. pyracantha Yunnanensis — Horizontal type of evergreen Hawthorn, covered with crimson berries in the autumn; 4 ft.	2 0
E.S. frangrans, fl. pl.—White, 6 ft.	2 0	E.S. pyracantha Rogersiana flava. — A bushy variety of evergreen Hawthorn, covered in autumn with golden yellow berries; 5 ft.	2 0
*CLETHRA (Lily of the Valley Tree).		E.S. pyracantha — Flowers white, followed by yellow berries	1 6
E.T. arborea variegata.—White; 8 ft.	5 0	E.S. pyracantha Lelandi — The most beautiful of all the ever green Hawthorns. Bright orange scarlet berries. The plant berries are quite small, and require to be seen to be appreciated	2 0
E.T. arborea—White; 8 ft.	2 6	D.T. odoratissima—Sweet scented, white; 12 ft.	3 6
CLIANTHUS.		D.T. oxyacantha (Whitehorn or May)	1 0
E.S. puniceus (New Zealand Glory Pea) Bright scarlet; a very showy, fast-growing shrub; 5 ft.	2 0	D.T. oxyacantha—Double White; 12 ft.	2 6
E.S. puniceus alba—White; 5 ft.	2 0	D.T. oxyacantha—Double pink; 12 ft.	2 6
COLLUTEA.		D.T. oxyacantha—Double crimson; 12 ft.	2 6
D.S. aborescens (Bladder Senna). Yellow flowers; 10 ft.	2 6	CYDONIA (Pyrus) —Japanese Flowering Quince.	
COPROSMA.		D.S. Japonica carnea—Flesh colour; 6 ft.	2 6
E.S. Baueriana picturata—Green, blotched yellow	2 6	D.S. japonica Moerloosii. — Rosy-white and carmine, 4 ft.	2 6
E.S. Baueriana variegata — Margined White	2 6	D.S. Japonica multiflora — Vermilion-red; 6 ft.	2 0
E.S. lucida—Shiny green foliage. (See Hedge Plants for quantities)	1 0	D.S. Japonica nivalis—Pure white; 6 ft.	2 0
CORDYLINE (Club Palm).		D.S. Maulii—Copper red; 6 ft.	2 6
E.T. Australis stricta. 10 ft., from	1 6	Handsome deciduous shrubs, blooming freely in Spring.	
*CORNUS (Dogwood).			
D.T. macrophyllus—50 ft.	2 6		
D.S. sanguinea—White, 8 ft.	2 6		
CORREA (Native Fuchsia).			
E.S. speciosa—Scarlet; 2 ft.	2 0		
E.S. splendens—Crimson, tipped green; 4 ft.	2 0		
*CORYLUS.			
D.S. purpurea (Purple - leaved Hazel)—10 ft. A very ornamental shrub for mixed borders; purple foliage. Forms a pleasing contrast to other foliage	3 0		
CORYNOCARPUS.			
E.S. laevigatus (New Zealand Laurel)—20 ft. A fine, hardy, evergreen, shrub, with large, bright, glossy green leaves	2 6		
COTONEASTER — Dwarf evergreen shrubs, with boxlike foliage. Inconspicuous flowers, followed by red berries, which remain attractive, through the winter.			

CYTISUS.	
D.T. Laburnum (Common Laburnum); 2 0	
15 ft.	1 6
DAPHNE.	
E.S. Indica rubra. — Red and white; beautiful shrub, bearing fragrant flowers; 5 ft. From	2 0
E.S. Indica rubra marginata. — Leaves margined with gold.	2 6
DEERINGIA.	
E.S. Amhersti variegata — A beautiful shrub, with leaves variegated	1 3
DEUTZIA.	
D.S. crenata—Single white; 5 ft.	2 0
D.S. gracilis—Single small white flowers; 2 ft.	2 0
D.S. gracilis rosea—Small rosy pink; 2 ft.	2 0
DIERVILLA.	
D.S. lutea—Yellow; 5 ft.	2 6
For others, see Weigelia.	
DIMORPHOTHECA.	
E.S. Ecklonis—White, blue centre; 3 ft. A beautiful little shrub, flowering freely. Similar to the Marguerite Daisy	1 6
DIOSMA.	
E.S. alba—White. A neat-growing little shrub. Erica-like, and sweetly-scented foliage; 4 ft. from	1 6
E.S. pulchrum (The Pink Diosma).—Covered in late winter and spring with small bright mauve-pink flowers. 3 ft.	2 0
DIPLACUS.	
E.S. Engelerstii — Light bronze; pretty free-flowering shrub, with Mimulus shaped flowers; 3 ft.	1 6
E.S. glutinosus puniceus—Red; 3 ft.	1 6
DOMBEYA.	
E.S. Masterii—White; 8 ft.	2 0
E.S. Natalensis—White; 9 ft.	2 0
Very handsome, hardy, free-flowering shrubs, with white flowers. Natalensis, when in flower, is like a sheet of snow.	
DRACAENA.	
E. Australis (Stricta) — Very ornamental, with graceful foliage giving a tropical effect in the landscape; 15 ft. from	1 6
Large specimen plants in pots for decorating verandahs. From	
	3 6
DURANTA.	
E.S. argentea variegata—Very pretty ornamental shrub, 5 ft.	2 0
E.S. alba—White; 6 ft.	1 6
E.S. Ellisi—Lavender; 6 ft.	1 6
E.S. Plumerei—Lavender; 12 ft.	1 6
(See also Hedge Plants.)	
ELOEAGNUS. —Fine hardy shrubs, growing freely in any ordinary soil.	
E.S. Japonica—6 ft.	2 0
E.S. argentea variegata—6 ft.	2 0
ERIOSTEMON (Native Waxflower) —	
Dwarf evergreen shrubs of 3 to 4 ft., covered in early spring with star shaped flowers. Foliage scented. One of the best of hardy shrubs. Cut back while in flower.	
E.S. nerifolius, syn. myoporoides. —	
Palest pink	2 0
ERICA (The Heath).	
Arborea—White. The hardiest	2 0
Autumnalis.—Deep rose. Very hardy; will do well on the plains if given shelter. Very suitable for a shady rockery	2 0
Bowicana.—White; a fine variety	2 0
Cavendishi.—Yellow; 3 ft.	3 6
Cerinthoides coronata.—Orange scarlet	3 6
Charlsleyana.—White, changing with age to a delicate blush; long spikes similar to Bowicana. Fine	2 0
Ciliaris.—Purple	2 0
Cruenta.—Crimson	2 0
Eweriana superba.—Red, tipped yellow	2 0
Hentyana. — A delicate shade of pink, fine long spikes. A great favorite	2 0
Hybrida.—Fine spikes of scarlet	2 0
Jubilee.—Deep rose; large spikes	2 0
Mackinnonianiana.—Purplish rose	1 6
Mammosa.—Rose purple	2 0
Melanthera.—Purple flowers; very profuse bloomer. Grows well on the plains if in sheltered position. Ideal for sheltered rock gardens	2 0
Multiflora.—Dainty pink flowers; 3 ft.	2 0
Stricta—Pink	2 0
Peria.—Deep rose	2 0
Persoluta alba.—White; 1 ft.	2 0
Ventricosa.—Flesh-colored; 2 ft.	3 6
Wilmoreaana.—Pink and white; 2 ft.	2 0
ERYTHRINA (Coral Tree).	
D.S. Camdeni—Scarlet; 6 ft.	3 6
D.T. corallodendron—Deep scarlet; 30 ft.	2 0
D.S. cristagalli — Scarlet. Deciduous shrub, producing large spikes of brilliantly coloured flowers in summer. Should be pruned back hard in Spring; 8 ft.	2 0
D.S. Humei—Brilliant scarlet, very elegant; 6 ft.	3 6
ESCALLONIA. —Fine evergreen shrubs, of 4 to 6 ft., with glossy foliage, and attractive bell-shaped wax-like flowers in terminal racemes. Very hardy. Cut back in winter.	
E.S. C. F. Ball.—Compact bushy habit; bright glossy foliage and rosy crimson flowers. 4 ft.	2 0
E.S. Donard Seedling.—Very decorative variety; of spreading habit; with large sprays of flesh pink flowers. 4 ft.	2 0
E.S. Fretheyii.—Pale pink flowers produced in summer and autumn; 6 ft.	2 0
D.S. Langleyensis—Rich red, upright flowers; growth pendulous	1 6
E.S. macrantha—Coral red, large flowers	1 6
D.S. Montevideensis—White, shaded with pink	1 6
EUGENIA.	
E.S. cyanocarpa.—Bluish fruits; 30 ft.	2 0
E.S. Kingi.—Very ornamental shrub, with large bunches of mauve berries	2 0
E.S. myrtifolia—A fine evergreen shrub, with white flowers and handsome crimson berries; 15 ft.	1 6

E.S. pendula (syn. ventenatii).—Weeping habit and white berries; 30 ft.	2	0	E.S. radicans—2 ft.	2	0
EULALIA — Handsome bamboo-like grasses, with ornamental flower-heads, which, when cut young and dried, can be used for ornamental purposes.			E.S. radicans variegata—2 ft.	2	0
Japonica albo lineata—Foliage striped white; 3 ft.	2	0	EUPATORIUM — Ornamental and especially valuable shrubs, flowering in Winter.		
Zebrina—Foliage barred yellow; 3 ft.	2	0	E.S. atrorubens (syn. hebeclinium). Heads of soft mauve ageratum-like flowers. Heart-shaped leaves veined red; 3 ft.	2	0
EUCALYPTUS (Gum Tree).			E.S. Weinmannianum—White; 6 ft.	1	6
E.T. botryoides—80 ft.	1	0	EUTAXIA.		
E.S. caesia.—A beautiful pink flowering variety of dwarf growth, 10 ft.	2	0	E.S. Diffusa—A very pretty Spring flowering shrub, with orange colored flowers; 4 ft.	2	0
E.T. calophylla.—White. A very beautiful tree; 30 ft.	1	6	EXOCHORDA.		
E.T. calophylla rosea. — A magnificent tree, with handsome rosy-pink flowers; 30 ft.	1	6	D.S. Alberti (Syn. Spirea Grandiflora)—A most beautiful shrub, bearing racemes of large white flowers in early Spring	2	0
E.T. citriodora (Lemon scented Gum)—40 ft.	1	6	EVERGREEN OAK. (See Quercus).		
E.T. corynocalyx nana (Dwarf Sugar Gum). A bushy dwarf-growing variety of the well-known Sugar Gum; 6 ft.	1	6	FABIANA.		
E.T. corynocalyx (Sugar Gum) — 80 ft. One of the most handsome of all the Eucalypti. Nice plants in pots Per 100	60	0	E.S. imbricata—White. A very hardy shrub; flowers resembling white Erica; 6 ft.	2	0
E.T. Cornuta (Yate Gum)—White; 50 ft.	1	0	* FAGUS (Beech).		
E.S. crucis.—Bright yellow flowers, small silvery leaves; 15 ft.	2	0	D.T. sylvatica (Common Beech)—50 ft. From	2	6
E.T. ficifolia—Scarlet flowering gum. One of the most handsome trees in cultivation. Gorgeous when in flower; 15 ft.	1	6	D.T. sylvatica purpurea (Purple Beech) —A grand foliage tree; 50 ft. From	5	0
E.T. globulus (Tasmanian Blue Gum)—This variety is the best for cutting	1	0	FEIJOA.		
E.T. gomphocephala (Tooart Gum) — 100 ft. A very handsome tree, quicker growing in some soils than the Sugar Gum, and is being planted extensively. Per 100, 60/- Each	1	0	E.S. Sellowiana—A most desirable fruit-bearing shrub; very handsome. Leaves are dark green, with silvery reverse. Inside of flowers crimson, silvery underneath. Edible fruit, with a fragrance similar to pineapple. May be used for salads. Should be in every garden, 10 ft.	2	0
E.T. Nutans — Flowers vary, sometimes crimson, sometimes purple; 6 ft.	2	0	FELICIA.		
E.S. Precissiana.—Dwarf shrubby variety with yellow flowers; 6 ft.	2	0	E.S. angustifolia—Lilac; 3 ft.	1	6
E.T. Stricklandi—Yellow, rare, 35 ft.	1	6	E.S. caffrorum—White. Pretty Spring flowering shrubs, suitable for small gardens. Flowers similar to Perennial Asters; 3 ft.	1	6
E.S. supulcralis—Distinct weeping habit with yellow flowers; 15 ft.	2	0	FICUS.		
E.S. Tetraptera—Very handsome, large red flowers, 15 ft.	2	0	E.T. Australis—Small-leaved Ficus, 40 ft.	1	6
E.S. Torquata—Salmon pink; rare. A beautiful flowering gum growing to a moderate size. The flowers are a lovely salmon pink, borne on slender growths, and excellent for cutting, 15 ft.	1	6	E.T. Australis variegata—Very handsome with golden variegated foliage, from	2	6
EUONYMUS —These are some of the best hardy variegated shrubs.			E.T. Macrophylla (Moreton Bay Fig)—Handsome, hardy, shady tree, with glossy green leaves; 70 ft.	1	6
D.S. alatus—Winged stalked	2	6	E.T. Macrophylla aurea	5	0
E.S. Japonica latifolius elegans — Silvery variegation; 6 ft.	2	0	FRAXINUS.		
E.S. Japonica aurea variegata — Yellow and green variegated foliage; 6 ft.	2	0	D.T. velutina. — Large yellowish-green foliage. Recommended for saline soils; 30 ft.	3	6
E.S. Japonica picturatus albus—6 ft.	2	0	D.T. Ornus (Flowering Ash)—	5	0
E.S. ovatus aureus—Golden variegation; 6 ft.	2	0	D.T. excelsior Raywoodi.—A very attractive variety of ornamental Ash, with claret-colored foliage from	2	6
			D.T. sambucifolia (Black Ash)—30 ft. From	3	6
			D.T. sambucifolia variegata—30 ft., from	5	0
			FREMONTIA.		
			E.S. Californica.—Flowers rich deep yellow, turning to orange as they age. Spring flowering. Leaves, like an ivy geranium, give off a delightful perfume in the evening	5	0

FUCHSIA.

E.S. Tree—Bearing masses of small scarlet flowers; makes a nice show 1 6

FUGOSIA (Lagunaria).

E.T. Patersoni — Pink. Very handsome hardy tree of pyramidal habit. Extensively used for planting in streets and parks. Does well near sea coast; 20 ft. 1 6

GARDENIA.

E.S. Thunbergii — White. A beautiful shrub, with handsome foliage and large, highly perfumed single white flowers. Graceful in appearance; 6 ft. 2 0

GARRYA elliptica — Greenish white, tassel-like flowers 2 6

GENISTA.

E.S. Aetnensis — Mount Etna Broom. A strong growing variety, with pendulous branches and yellow flowers 2 0

E.S. Andreana — Crimson and yellow; very handsome; 5 ft. 2 0

E.S. Cornish Cream. — Cream standards, pure yellow keel; very attractive. A good grower, sweetly scented and a really splendid variety 2 6

E.S. C. F. Pearson—Pink shaded, crimson and orange 3 6

E.S. Donard Seedling. — Pink wings, shaded carmine and orange 3 6

E.S. fragrans—Yellow 1 6

E.S. Lilac Time. — Lilac pink, paling to clear pink 2 0

E.S. Lord Lambourne.—Scarlet crimson and pale cream. Very striking 3 6

E.S. monosperma pendula (White Weeping Broom) 2 0

E.S. multiflora alba—White; 8 ft. 1 6

All are handsome flowering shrubs, Chamaelaucium) from 2 0

*GORDONIA—Hardy, camellia-like shrub of 6 to 8 ft., with attractive single flowers, opening during the dull winter months. Requires very little pruning.

anomala, Creamy white, with yellow anthers 3 6

GOLDFUSSIA.

E.S. anisophylla — Ornamental foliage and lavender flowers 1 6

GREVILLEA.

E.S. alpina.—Red, tipped yellow; very pretty; 3 ft. 2 6

E.S. alpina Dallachiana.—Taller growing than alpina; with full red flowers. 4 ft. 2 6

E.S. ericifolia.—Dense spreading shrub, with red and green flowers, 2-3 ft. 2 0

E.S. lavandulacea. — Lavender-like foliage and red flowers; 3 ft. 2 0

E.S. lonigera.—Fine foliage and red flowers; 3 ft. 2 0

E.S. rosmarinifolia—Red; 6 ft. A beautiful evergreen shrub, suitable where a large specimen is required 2 0

E.S. robusta (Silky Oak). Orange. A very ornamental tree; 50 ft. From.... 1 6

GUAVA.

E.S. Purple. Edible fruit; 8 ft. 1 6

D.S. Yellow. Edible fruit; 8 ft. 1 0

GUELDER ROSE (Snowball Tree).

D.S. 8 ft. One of the most handsome deciduous shrubs, bearing numerous bunches of snow-white flowers in large round balls 2 0

GYNERIUM (Pampas Grass).

argenteum plumosa — The largest white Pampas Grass 2 0

roseum — Rose-coloured Pampas Grass 2 6

HABROTHAMNUS.

E.S. elegans—Red; 6 ft. 2 0

E.S. Newellii—Crimson; 6 ft. 2 0

Very handsome shrubs, with drooping panicles of flowers 2 0

HAKEA.

E.S. eucalyptoides—Red; 12 ft. 1 6

E.S. grammatophylla—A rare and beautiful variety of this well-known native shrub, with pink flowers 3 6

HARDENBERGIA (Native Lilac).

E.S. ovata—Purple; 4 ft. 1 6

E.S. ovata alba—White; 4 ft. 1 6

E.S. ovata rosea—Rose coloured; 4 ft. Handsome native shrubs; very hardy 1 6

HELIOTROPIUM.

E.S. Giant Valencia. Largest heliotrope 2ft. 1 6

E.S. Nigrescens—Dark Blue; 2 ft. 1 6

Small sweetly-scented flowering shrubs.

HIBISCUS.

E.S. Apricot—Single flower; apricot shade 1 6

E.S. Aureole—New. Golden apricot, suffused pink, rosy carmine eye. Madeline; very free flowering 1 6

E.S. Braziliensis grandiflora—Golden yellow, with blackish crimson eye; 3 ft. 1 6

E.S. Champion—New. Rich apricot, with deep strawberry red eye; rose with zone at base; very large 1 6

E.S. Conqueror—A beautiful variety, quite hardy; unique in color, apricot or salmon, with crimson eye 1 6

E.S. General Courtgis—Very large, open flowers; the best crimson; 6 ft. 1 6

E.S. Gloria—New Orange, suffused and veined madder-like 1 6

E.S. Harwoodii—Beautiful variety of same growth and habit as Splendens; large, single pink flowers, with dark centres, 6 ft. 1 6

E.S. heterophyllus—Flesh white, crimson centre; 12 ft. 2 0

E.S. Indica—Light carmine, overlaid with salmon, deep crimson throat 1 6

E.S. Island Empress—Double rosy cerise 2 0

E.S. Lambertiana—Double scarlet; 3 ft. 2 6

D.S. moscheutos—In varieties of crimson pink, and white. Very large single flowers. The whole plant dies down to the ground in the winter 2 0

- D.S. mutabilis (Chinese Rose) — Single pink; 8 ft. 2 0
- E.S. Peachblow—Double salmon rose; 4 ft. A magni variety, free flowering, blooms very large. One of the most handsome Summer-flowering shrubs in existence; 4 ft. 1 6
- E.S. Rose Scott—Fine large flower, rosy cerise, veined salmon red, deep crimson throat; each petal marked creamy buff. Very beautiful, 6 ft. 2 0
- E.S. Rosy Morn—New. Old rose, deeper veins, reverse of petals shaded salmon 1 6
- E.S. splendens—Scarlet; 6 ft. 1 6
- E.S. Tango Queen—Large single tango flowers 1 6
- E.S. Thorban's Wonder—A remarkable variety, with pendulous flowers, and reflexed serrated petals. Colour rosy red. Good grower. Does well on Adelaide Plains 1 6
- D.S. Syriacus—In various colours; double white, dark eye, double rose, double rosy white, double red, double blue; single deep red; 6 ft. 2 0
- HYDRANGEA**—(See separate list).
- HOVEA.**
- E.S. elliptica—Dark blue; 3 ft. 2 6
- E.S. trisperma—Blue, 4 ft. 2 3
- These rank among the most beautiful Australian natives, producing their lovely blue pea-shaped flowers in profusion during the Spring.
- HYPERICUM (St. John's Wort).**
- E.S. moserianum—Yellow, 3 ft. 2 0
- E.S. repens—Yellow. Suitable for rock and bank work; 1 ft. 1 6
- IBOZA.**
- E.S. riparia—A beautiful dwarf evergreen shrub, which in Winter is covered with a fluffy mass of delicate lavender-tinted flowers, 3 ft. 1 6
- *ILEX (Holly).**
- E.S. aquifolium—15 ft. From 2 0
- E.S. japonica—Large leaves. Hardest variety for the plains; 10 ft. 2 6
- E.S. Golden Variegated—In variety; 10 ft 3 6
- E.S. Silver variegated—In variety, 10 ft. 3 6
- INDIGOFERA.**
- E.S. decora—Hardy evergreen shrub, pretty pink flowers; 6 ft. 2 6
- IOCHROMA.**
- E.S. coccinea—Scarlet; 8 ft. 2 6
- E.S. grandiflora—Blue; 8 ft. 2 0
- E.S. toneliana — Purple; 8 ft. 2 0
- Hardy, quick-growing shrubs.
- JACARANDA.**
- D.S. mimosaeifolia—30 ft. From 1 6
- A magnificent tree with fern-like foliage; flowers of a beautiful lavender blue, produced in large bunches.
- JASMINUM.**
- E.S. grandiflora—Large white flowers; 6 ft. 2 0
- E.S. gracilis—White; 4 ft. 2 0
- E.S. primulinum — Large pure yellow, sometimes semi-double; flowers in early Spring. Very hardy; 5 ft. 1 6
- JUSTICIA.**
- E.S. adhatoda — White; 8 ft. 2 0
- E.S. carnea—Rose colour; 3 ft. 2 0
- E.S. splendens—Pink; 3 ft. 2 0
- Beautiful flowering shrubs. Splendens requires rather a sheltered position with plenty of water
- KERRIA.**
- D.S. Japonica, fl. pl—Yellow, double; 6ft. 2 0
- KOELREUTERIA.**
- D.S. paniculata — A graceful deciduous tree with pretty foliage Large panicles of yellow flowers; 15 ft. 2 0
- LAGERSTROEMIA (Crape Plant).**
- D.S. Eavesii—Beautiful pale mauve; 6 ft 3 6
- D.S. Indica—Bright pink; 10 ft. 3 6
- Beautiful flowering shrubs, quite hardy. Unique and magnificent in appearance.
- LAGUNARIA.**
- E.T. Patersoni—Pink; 25 ft. 1 0
- A very handsome, hardy flowering tree of pyramidal habit. Does well near the sea coast.
- LABURNUM**—(See Cytisus).
- LANTANA.**
- E.S. Chelsea Gem—Rich crimson and amber; 2 ft. One of the brightest, free-flowering, and most beautiful little shrubs 1 0
- E.S. Diadem—Pale yellow and rose colour. One of the best; 2 ft. 1 0
- E.S. Drap d'Or—Orange yellow; 2 ft. 1 0
- E.S. Golconde—Saffron, changing to orange and pink; 4 ft 1 0
- E.S. Gol Gol—Old gold; 2 ft. 1 0
- E.S. Imperatrice Eugenie — Rose and cream, 4 ft. 1 0
- E.S. La Neige—Large pure white flower. A gem; 2 ft. 1 0
- E.S. Magenta Queen—Red and yellow, changing to magenta; 2 ft. 1 0
- E.S. Pretension—Creamy white and yellow, changing to carmine; 4 ft 1 0
- E.S. Princess Louise—Crimson, orange centre; 3 ft. 1 0
- E.S. Sanguinea—Red and orange; 4 ft. 1 0
- E.S. Sellowiana—Mauve; a beautiful little shrub, always in flower; 2 ft. 1 0
- E.S. Thais—Canary yellow; 2 ft. 1 0
- D.S. Vanusta—A combination of autumn tints. A very beautiful variety, growing about 3 ft. 1 0
- E.S. Triomphe du Commerce — Orange and purple; 2 ft. 1 0
- *LASIANDRA**—Hardy evergreen shrubs of 4 to 6 ft., with large, showy flowers, which open throughout most of the year. Prune after frosts are over.

- E.S. *grandiflora*—Dwarf growing variety, requiring slight shelter. Huge flowers, deepest violet-purple 2 6
- E.S. *macrantha floribunda* — Deep violet 3 6
- LAURUSTINUS**—(See *Viburnum*).
- E.S. *White* 1 6
- ***LAUREL** (English)—E.S.; 12 ft. 1 6
- LAURUS.**
- E.T. *nobilis* (Sweet Bay) — 20 ft. 2 0
A fine evergreen, with sweet-scented leaves. It does well in our climate. The leaves are useful for flavouring.
- LAVANDULA.**
- E.S. *dentata*—Dark purple; 2 ft. 1 6
- E.S. *pica* (English Lavender)—2 ft. 1 6
- E.S. *Vera*—We have an especially fine variety of this true scent Lavender 1 6
- LEMON-SCENTED VERBENA.**
See *Aloysia Citriodora*
- LEONOTIS** (Lion's Ear).
- E.S. *leonorus* — Orange-scarlet flowers, produced in whorls up the stems. Very striking; 6 ft. 1 6
- LEPTOSPERMUM.**
- E.S. *Nicholii*—A very pretty variety of red flowering ti-tree; 6 ft. 2 0
- E.S. *laevigatum* — Silvery grey foliage, white flowers (Victorian Ti-tree) 2 0
- E.S. *Scoparium Grandiflorum*.—One of the most lovely flowering native plants we have seen, rivalling the Geraldton Wax Plant in beauty. A compact shrub 8 to 10 ft. high, and producing freely its dainty sprays of flower of a pure rosy pink colour 2 0
- ***LESCHENAULTIA.**
- E.S. *biloba* — Bright blue. One of the finest blue-flowering shrubs in cultivation 2 6
- LEUCADENDRON.**
- E.T. *Argenteum* (Silver Tree)—15 ft. 3 6
- LIBONIA.**
- E.S. *floribunda* — Orange and yellow. Very pretty, small-growing shrub 1 6
- LIGUSTRUM.**
- E.S. *Japonicum* (Japanese Privet) 1 6
- E.S. *ibota* — Shrubby variety; 10 ft. Spreading branches, attractive white flowers 2 6
- E.S. *ludicum variegata* 3 6
- E.S. *ovalifolium aureum elegantissimum* (New Golden Variegated Privet)—Makes a pretty shrub in the garden, and is now being used extensively for small hedges; 15/- doz. strong plants in pots, each 1 6
(See also Hedge Plants).
- E.S. *ovalifolium*—White 1 0
- E.S. *sinensis*—Handsome shrub, bearing large panicles of white flowers 1 6
- LINUM.**
- E.S. *trigynum* — A lovely winter-flowering shrub, bearing quantities of yellow flowers; 2 ft. 1 6
- LIQUIDAMBAR.**
- D.T. *styraciflua*—40 ft. A beautiful tree; leaves dying off purple, crimson, and yellow in Autumn 2 6
- ***LIRIODENDRON** (Tulip Tree)—Hardy deciduous tree, of 30 to 40 ft, with attractive large foliage, which turns brilliant gold in Autumn. Large tulip-like flowers, sweetly scented.
- Tulipifera*—Flowers yellowish green 3 6
- LONICERA** (Honeysuckle).
- E.S. *caprifolium*—Red and white; 8 ft. 2 0
- D.S. *ciliata*—White; 6 ft. 2 0
- E.S. *tartarica*—Scarlet. Very handsome, 6 ft. 2 0
- E.S. *nitida* — Small box-like foliage, borne on dense twiggy growth. Creamy, fragrant flowers in Summer. This plant will make an ideal hedge; from 3 to 4 ft. 1 6
- LOPHOSTEMON.**
- E.T. *Australis*—50 ft. A very fine ornamental tree, with white, myrtle-like flowers 2 0
- LUCULIA.**
- E.S. *gratissima* — Flowers, rose - pink; sweetly scented. A gorgeous shrub. Requires a cool, protected position sheltered from severe frosts, 4 ft. 3 0
- MACKAYA.**
- E.S. *bella*—Lilac; a pretty little flowering shrub; 4 ft. 1 6
- ***MAGNOLIA.**
- E.T. *grandiflora*—White; 20 ft. From 3 6
- D.S. *Kobus*—Pink and white; 10 ft. 5 0
- D.S. *obovata* — Flowers white inside; purple outside; 6 ft. 5 0
- D.S. *Purpurea*—Purple; 10 ft. 5 0
- D.S. *stellata*. White starry flowers; very sweet; 10 ft. 5 0
- MARGUERITE DAISIES.**
- E.S. *Large white*—Single; 3 ft. 1 0
- E.S. *Large primrose*—Single; 3 ft. 1 0
- E.S. *Pink Enchantress*—A beautiful winter-flowering, pink with brown and yellow centre 1 0
- E.S. *The Queen*—The best double white Marguerite for Winter flowering; 3 ft. 1 0
- MELALEUCA** (Tea Tree),
- E.T. *genistifolia*—40 ft. 2 0
- E.T. *gibbosa*—One of the prettiest of our native shrubs; very graceful habit 2 0
- E.S. *hypericifolia*—Scarlet; 10 ft. Very hardy, graceful, native shrub 2 0
- E.S. *stypelioides*—White; 10 ft. 2 0
- E.S. *thymifolia*.—Purple; 2 ft. 2 0
- MELIA.**
- D.T. *azedarach* (White Cedar) — Lilac, 30 ft. Good shade tree, rapid grower. Useful for street planting. From 1 6
- METROSIDEROS.**
- E.S. *tomentosa* — A lovely scarlet flowering shrub; native of New Zealand, where it is known as the Rata 2 0

MYOPORUM.

- E.S. *insulare* (Native Myrtle)—White 1 6
 A quick-growing, glossy-leaved shrub that does well near the sea beach. Makes a good hedge for seaside places. (See Hedge Plants).
 E.S. *punctatum*—Very handsome semi-transparent foliage 1 6

MYRTUS.

- E.S. *communis grandiflora*, fl. pl. (Eng.-Myrtle)—White; 8 ft. 1 6

NANDINA.

- E.S. *domestica*—White. A beautiful shrub, with very ornamental foliage, bronzy tinted. Suitable for arranging with cut flowers; 5 ft. 2 6

NERIUM (Oleander).

- E.S. *Cousine Marie*—White, semi-double 1 6
 E.S. *Delphine*—Deep rich crimson, single, 5 ft. 1 6
 E.S. *Felix Bourquet*—Pale saffron inside, buds rosy; single, very good 1 6
 E.S. *General Lamoniere*—Very pale salmon pink; semi-double 1 6
 E.S. *Grandiflora plenum* (*Splendens*)—Double pink; 10 ft. 1 6
 E.S. *Henry Wares*—Semi-double, bright rosy pink 1 6
 E.S. *Jean Galen*—Very large deep pink semi-double; fine, bold, free-flowing variety 1 6
 E.S. *lutea grandiflora*—Single, clear yellow. Good. 6 ft. 1 6
 E.S. *Mdlle. Celestine*—Single white; very free 1 6
 E.S. *Mdme. Felix Sabut*—Semi-double, large, clear pink. 8 ft. 1 6
 E.S. *Mdme. Leon Brun*—A double variety, with very deep pink flowers. Good 1 6
 E.S. *Madonna grandiflora*—The best pure white; semi-double 1 6
 E.S. *Mrs. Roeding*—The blooms are semi-double, of a beautiful buff shade, distinctly edged and flushed salmon pink. 5 ft. 1 6
 E.S. *Notaire Cavallier*—Single crimson; very free-flowering 1 6
 E.S. *Souvenir de Cazalis Allut*—Rich dark crimson; single. 6 ft. 1 6
 E.S. *splendens variegata*—Golden variegated. 6 ft. 2 6
 The Oleander should be much more generally grown, as it thrives in any position, and under the most adverse circumstances. It is especially valuable for planting near the sea coast, also in the driest parts of the North.

NIEREMBERGIA.

- E.S. *Azureus*—Deep. blue; 1 ft. 1 6

OCHNA.

- E.S. *multiflora*—Yellow; 3 ft. The flowers are produced in profusion, and are succeeded by ornamental berries 2 6

OLEANDER—(See Nerium).

OSMANTHUS (Japanese Holly).

- E.S. *ilicifolius variegatus*—4 ft. 2 6
 Pretty Holly-like shrubs, very hardy.

***PAEONIA.**

- D.S. *moutan* (Tree Paeony)—In variety; 4 ft. from 5 0

PALMS.—See Page 36.

PAMPAS GRASS (See Gynerium).

PAVONIA.

- E.S. *coccinea*—Scarlet flowers, like a miniature Hibiscus; 6 ft. Large, bright green leaves. A good shrub 2 0

PERESKIA (Climbing Cactus).

- E.S. *godseffiana*—Beautiful variegated foliage 2 6

PENTSTEMON.

See Page 49.

- PEPPER TREE. See *Schinus Molle*. 1 0

PHILADELPHUS (Mock Orange) 1 0

- D.S. *coronarius*. White, 6 ft. 1 6
 D.S. *coronarius primulaeflorus*. Cream; 5 ft. 1 6
 D.S. *Grandiflorus*—Single, white; 6 ft. 1 6
 D.S. *speciosa*—White; 6 ft. 1 6
 These are very beautiful deciduous shrubs, flowering in early spring, and sweetly scented.

***PHILLYREA.**

- E.S. *Vilmoreana*—10 ft. 2 0

PHOTINIA.

- E.S. *glabra rubens*—Brilliant red young foliage and creamy white flowers; 5 ft. 3 6
 E.S. *serrulata*—White; 15 ft. One of the best and most effective large shrubs 2 6

PHORMIUM.

- tenax* (New Zealand Flax) 2 0
tenax variegata 7 6

PIMELEA.

- E.S. *decussata*—Rose; 2 ft. A very pretty small-growing native shrub 1 6

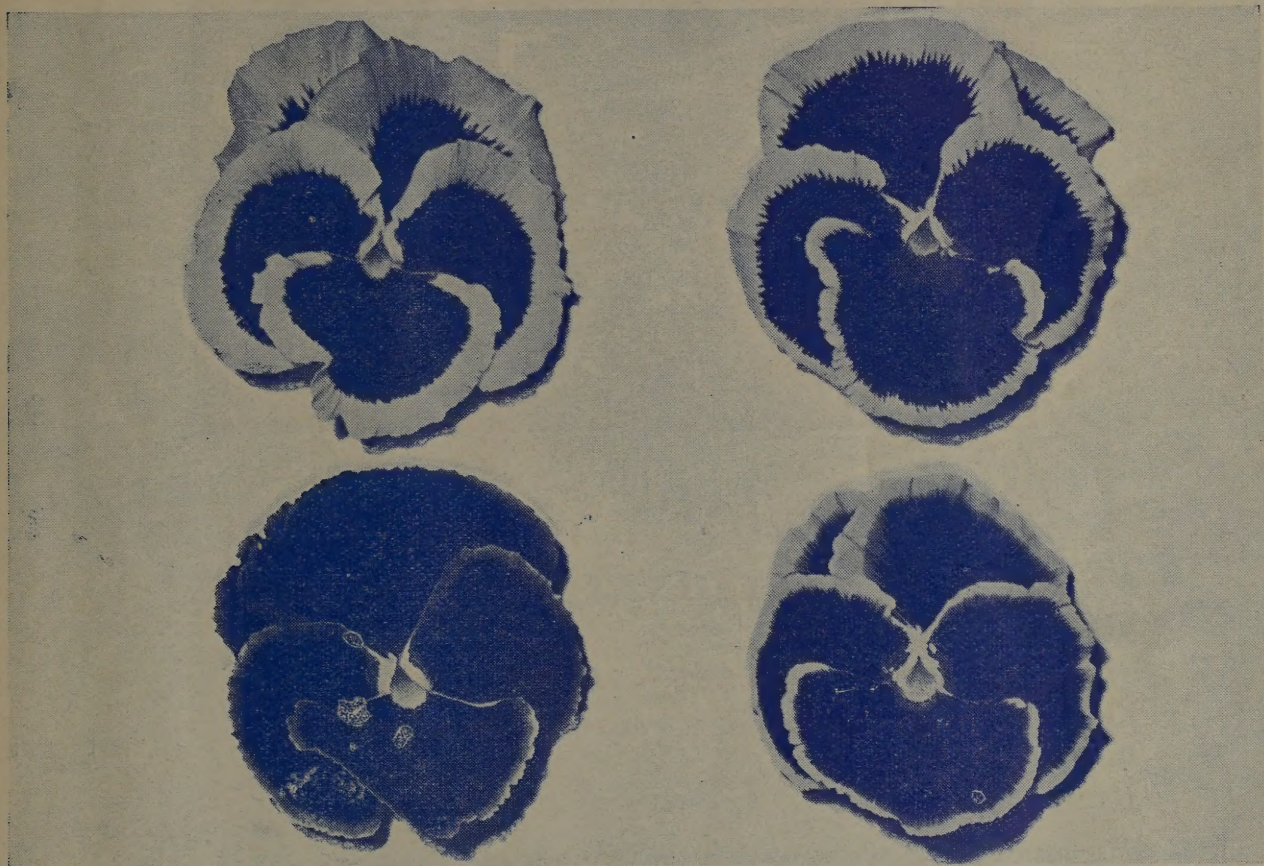

PINUS.

- E.T. *canariensis*—Quick growing and ornamental; 50 ft. 1 6
 E.T. *halepensis* (Aleppo Pine)—100 ft. Hardest and best for general planting 1 0
 E.T. *insignis* (Remarkable Pine)—100 ft. 1 0
 E.T. *maritima* (Pineaster)—50 ft. A beautiful tree that does well near the sea. Special prices for quantities 1 0

Tested Novelties and Specialties for 1939

●

It is with pride that we call your special attention to the number of very worthy tested introductions offered in these pages

THE PHOTOGRAPH ABOVE IS OF OUR

Improved Scotch Exhibition Pansy

This strain was exhibited at all the principal shows last season by one of our customers who was successful in gaining 90 per cent. of the first prize awards.

To the exhibitor we say there is no Pansy that can equal it, being quite distinct and vastly superior to other strains.

Our seed which is imported direct from the overseas grower is both fresh and clean.

Special features of this improved Exhibition Pansy is the high percentage with exhibition markings. The large range of colors, the size and texture of the blooms. **Price, 2/6 per packet.**

"Invincible" Mauve Pink **OUR SENSATIONAL 1939 RELEASE**

AWARDS TO DATE :
4 Championships 2 Grand Championships

This CHAMPION Sweet Pea is truly a monster in size; in fact, we make bold to say that "INVINCIBLE MAUVE PINK" yields bigger flowers than any other Sweet Pea in cultivation.

Admirers of delicately suffused colors have in this latest addition to the ever-popular "Pink" section a flower of wondrous charm.

The tone of Mauve Pink is subtle, soft, opalescent; never aggressive, but always attractive. The waved and frilled outline of the flower produces an entrancing shaded effect.

Sweet Peas to-day must be of excellent merit to justify introduction at all, but we have no qualms about the reception that awaits this novelty; its

build and substance is an acquisition.

Individually the blooms are immense, building up an imposing spray, borne on splendid stems, all four sprayed.

The growth of the haulm is very vigorous and production is remarkably free.

A striking feature is its widely-expanded, up-standing back petals of beautifully rounded outline and large size. Its wing petals are prominent and well poised. All blooms are evenly placed to make perfect sprays.

Whether for exhibition, for decorative work or the garden, "INVINCIBLE MAUVE PINK" is ideal.

PRICE PER PACKET FOR 12 PLUMP SEEDS . . 1/6

CELOSIA PYRAMIDALIS

“Flame of Fire”

A most striking and beautiful novelty, with brilliant and gorgeous coloring, which attracts everyone's attention. We can thoroughly recommend this new strain as a border plant which attains the height of from 15 to 18 inches. The gorgeous heads of bloom last from 3 to 4 months. . . . 9d. packet

SWEET PEA

“Invincible” Violet, 1939 Novelty

That a Pea of such delicacy should possess robust vigour of growth, and a capacity for producing grand sprays of large blooms on long, wire-like stems is a combination of ideal qualities which will not fail to delight both the exhibitor and home decorator.

The stems are exceptionally long, carrying large, broadly-expanded and well-waved flowers, four on a stem.

For the floral artist this Pea will be a treasure; it possesses all the charm and elegance of a decoration flower, combined with size, build and substance demanded by the exhibitor.

There is a richness in the tone and lively shades of color in “INVINCIBLE VIOLET” which lifts it above the ordinary level of Violet Sweet Peas.

There is a brilliance in its toning which seems to hover between shades of violet, blue, and lavender, the violet shade predominating; the result is a flower of individuality and rare beauty.

PRICE PER PACKET FOR 12 PLUMP SEEDS 1/6

New Pansies

Pansy Coronation Gold

This new giant golden Pansy is of special merit; the flowers are large and of a fine texture; the plants are free-blooming but compact; the color a pleasing shade of pure deep yellow, suffused golden-orange and without eye. 1/- packet.

Pansy Giant Orchid Flowered Mixed

This beautiful strain includes all the delicate and pretty color combinations to be found in "Orchid flowered" Pansies such as cream-primrose, salmon-mauve, etc. Its outstanding feature is, however, the giant size and wavy form of the flowers. An attractive and admirable introduction. 1/- packet.

Linaria Maroccana Fairy Rose

A new and quite distinct color of this fine annual for Winter and Spring flowering; clear rosy-pink, tinted delicate lilac. A real gem. 1/- packet.

Calendula Campfire Improved

A reselected intensely double strain of this popular flower. Very large deep orange flowers with exceptionally long stems.

Although there are already many varieties of orange Calendulas, we have no hesitation in recommending this new strain of the popular variety CAMPFIRE. It is intensely double, has very long stems, and the flowers are of a very deep orange color. Calendulas are now perhaps the most popular of all annual cut-flowers except sweet peas, and this variety will, we are sure, be welcomed for that purpose. And as no plant is more serviceable in the annual border it is to be expected that CAMPFIRE IMPROVED will be in very good demand 6d. packet.

New Iceland Poppies

"Gartford" Giants

(Registered)

Reports already to hand from all States and from New Zeland, South Africa, England, California, and Germany bring repeat orders for increased quantities for this outstanding new Poppy.

The mammoth blooms of the Gartford Poppy are carried on strong, wiry stems, 2 to 3 ft. in length. At all the shows last season this wonderful Poppy stood out conspicuously from all the older strains.

FOR 1939 SEASON

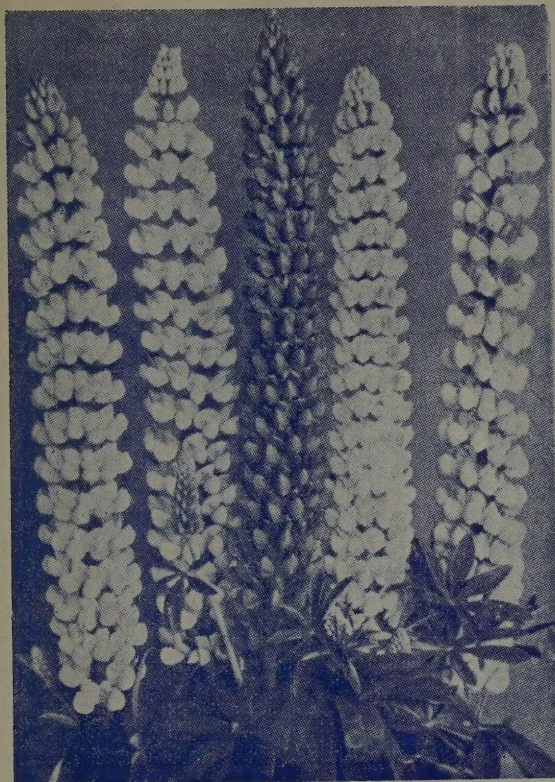

A further re-selection gives a still wider colour range, larger blooms and an increased stamina.

WE OFFER TWO NEW COLOUR BLENDINGS.

"GARTFORD" (Reg'd.) ART TONES—Pinks, Creams, Lime, Apricot, Gold, Old Gold, Bronze, etc., with Edgings and Zonal Shadings. 1/- packet.

"GARTFORD" (Reg'd.) DAFFODIL TONES.—Parchment, Lime, Cream, Lemon, Chrome and Buff, both in Self Colours and the Characteristic Two-Tone Effects. 1/- packet.

"GARTFORD" (Reg'd.) MIXED.—A well-proportioned blending of the above with Tango Shades included. 1/- packet.

RUSSELL LUPINS

Russell Lupins

This new strain of perennial Lupins has, as is now widely known, caused a sensation in horticultural circles. Raised by Mr. G. Russell, of York, and introduced by Messrs. Bakers, Codsall, it is the most outstanding introduction for many years. Awarded the Royal Horticultural Society's Gold Medal, June, 1937. The long, closely furnished spikes flower in a great variety of rich colors—deep yellows, oranges, reds and brilliant bi-colors never seen in Lupins before. The florets are large with flat fan-like back-standards, and unlike all other Lupins, most of the spikes retain their florets throughout the whole period of development. Average height 2 ft. 6 in. to 3 ft. 6 in.

1/6 PER PACKET.

Nasturtium Double Dwarf Indian Chief

In this new variety of Double Nasturtiums, we offer a novelty which we believe will rapidly become as popular as **GOLDEN GLEAM** and surpass in popularity the many other Double varieties which have been introduced recently.

INDIAN CHIEF has dark foliage resembling that of **FIREBALL** in the Single section of its flowers and are equally as bright as that variety. The contrast of foliage and flower is similar to that found in **BISHOP OF LLANDAFF** Dahlia. The blooms are sweetly scented and freely produced. We recommend this variety with every confidence. 9d. per packet.

NEW CABBAGE

SPRING GEM

We are pleased to have the privilege of introducing such a fine cabbage. It is a variety which will grow well, even with a minimum amount of water. The flavour is excellent, the heads of medium white leaves are massive and tender. To obtain best results we recommend having the plants out not later than the middle of May. Very highly recommended. 6d. packet.

SCHIZANTHUS WISETONENSIS

'Monarch Strain Re-Selected'

THIS Re-Selected Strain is a superlative mixture, and a great advance on anything hitherto available. Brightest Rose shades, Apple-Blossom Pinks, Salmons, Rosy-Crimsons, deep Violet-Purples and many indescribable variations make a riot of colour almost unbelievable.

The flowers have immense petals and the majority are beautified by a gold veining so exceptionally heavy that it makes **MONARCH RE-SELECTED** distinct from all other mixtures **2/- Packet.**

Novelty Roses

for 1939

BRAZIER.—Profuse flowering, abundant, dark green, glistening foliage, disease resistant. The bud is very long, colour red with darker shading, the flower is glowing red as in a brazier. This hitherto unsurpassed colour has given rise to its name. Dwarfs only, 2/6 EACH.

H.T. CHAPLIN'S TRIUMPH.—Rich, deep crimson, with a dark velvety sheen. The buds are perfectly formed, long shapely and very strongly scented. Free flowering. Dark green foliage. Dwarfs only, 2/6 EACH.

H.T. ELITE.—A variety which is an advance on President Hoover. Glowing rose with orange shading, richer in colour than President Hoover. Flowers, which are carried singly, are double, very well formed, and have a magnificent fragrance. Splendid variety for the garden or cutting. Dwarfs only, 2/6 EACH.

GIRONA.—A glorious medley or rose pink, yellow and red, somewhat recalling Talisman in colour. The buds are pointed and open to intensely fragrant blooms. The habit is very free, giving a constant succession and the growth is exceptionally vigorous, with plenty of shiny, disease resisting foliage. Dwarfs only, 2/6 EACH.

H.T. MADGE WHIPP.—A big red fragrant rose, a novelty which will make instant appeal. Growing crimson and fiery scarlet enter into the colour make-up. The blooms are large, with robust petals of velvety texture and borne on unusually stout stems. Growth is vigorous and foliage rich olive green, disease resistant. The fragrance is that of the true rose. Dwarfs only, 2/6

H.T. SAM McGREDY.—Colour of the young bloom is honey yellow, changing as the flower expands to deep cream, base of petals being sunflower yellow. Blooms are large and of perfect exhibition form. Light perfume. Vigorous branching growth. Awarded Gold Medal of National Rose Society, England. Half Standards, 4/- EACH. Dwarfs, 2/6 EACH.

H.T. SWEETNESS.—Apricot on a light butter-cup yellow ground, washed and shaded light rosy cerise, with a deep amber base, as it develops, the colour becomes maize yellow washed with pale rose. But is very long and pointed, flower large, full and of perfect spiral form, with deep, wide beautifully reflexed petals. The fragrance, as the name suggests, is truly delightful. Of very strong, bushy growth, carrying its blooms erect on long, graceful stems. Handsome, large, bright, glossy green foliage. Dwarfs only, 2/6 EACH.

THE BISHOP.—Bright crimson red, full, moderately large flower of excellent quality, having the sweet true Old Rose fragrance in a marked degree. The growth, and habit make it an ideal bedding rose, vigorous, erect, bushy and very floriferous. A rose of beauty and utility, which will make a valuable addition to garden varieties. Half Standards, 3/6 EACH. Dwarfs, 2/6 EACH

BUDDED WALNUTS

Two Prolific, Early, and Blight Resistant Varieties.

Wilson's Wonder Walnut

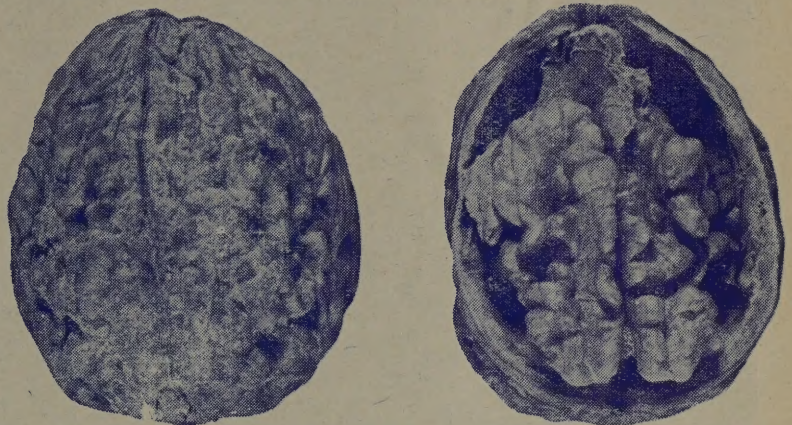

Photo of young budded nursery tree three months from the starting of the bud, showing its remarkable early bearing characteristics. The rule shows the bunch to be five inches across.

"Wilson's Wonder" Walnut

Although seedling Walnut trees sometimes reproduce fairly true to the parent tree in several characteristics, a worked tree is part of its parent, and an exact replica of all its characteristics. We are now in a position to supply BUDDED TREES of the largest Walnut ever introduced in WILSON'S WONDER. The shell of this outstanding variety is easily opened with the fingers and in spite of its size the proportion of kernel to shell is very high.

WILSON'S WONDER is not only the largest Walnut grown, but is also the most prolific bearer, is not subject to heavy attacks of Bacterial Blight, and in the dryer districts under irrigation it is practically immune.

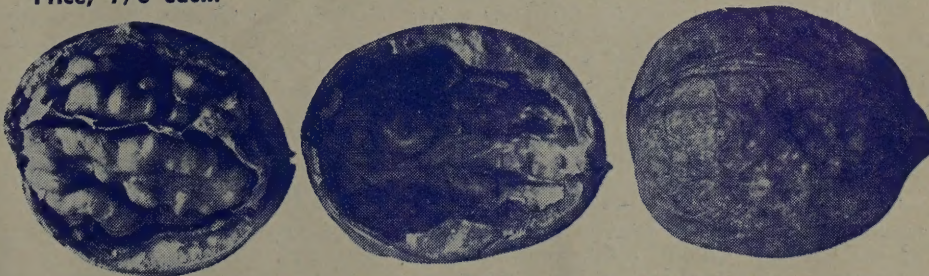

A WILSON'S WONDER Walnut in the suburban garden will undoubtedly prove a source of pride and pleasure for all time, and will certainly repay for any care and attention bestowed on it. **Good Trees, 7/6 each.**

Natural Size of "Wilson's Wonder" Nut.

"Freshford Gem" Walnut

Very fine, thin shelled nut. Kernel exceptionally white and full, and of splendid quality, a strong grower, prolific, and of early bearing habit. Although the parent tree is only twelve years old, it has already carried good crops, all of which have been practically free from Blight. Its full white kernel of exceptionally high sugar content, strong growing, yet heavy bearing habit, will make this variety the most popular Walnut in Australia. **Price, 7/6 each.**

Freshford Gem Nuts; natural size, showing full, white kernel and fine, thin shell.

— HARRIS, SCARFE, LIMITED. —

100% PURE CULTURE
MUSHROOM SPAWN

JUST A HAPPY FAMILY AFFAIR. IN THE BACKYARD EXPOSED TO THE SUN AND THE RAIN. NOW YOU SEE! BY USING "MAS" SPAWN, MUSHROOMS NEED NOT BE GROWN IN THE DARK!

"MAS" PURE CULTURE Spawn differs from any other similar product. The chemical and mineral contents of the material used for breeding this Spawn are only known to R. MAS. The process we adopt enables the Spawn to live and grow with greater freedom, thus producing a healthy growth of fungus, which when planted in the mushroom beds, has the capacity to crop quicker and more abundantly. It has taken Mr. Mas years of observation to ascertain to a reasonable degree of accuracy, as to at what age the Spawn is at the prime of its life—a very vital point necessary to increase security and production. Such can only be achieved when the subject is practically understood.

No other brands of spawns available in the Southern Hemisphere can rightfully claim to have accomplished what "MAS PURE CULTURE SPAWN" has done.

It is universally accepted by the leading growers as the Spawn of the Highest Quality, Dependability and Productiveness of the Choicest Quality Mushrooms.

Cultural instructions is included with every carton.

PRICE 3/- per Carton which is sufficient to plant 10 Square Feet
HARRIS SCARFE'S are the S.A. Agents for "MAS" Mushroom Spawn.

PITTOSPORUM.

E.S. eugenoides—10 ft.	1	6

PLUMBAGO.

E.S. capensis—Blue; 4 ft.	1	6
E.S. capensis alba—White; 4 ft.	1	6
E.S. larpentae—Dark blue; 1 ft.	1	6

Hardy, free-flowering shrubs. worthy of a place in every garden. Capensis is also used where a flowering hedge is required.

PODALYRIA.

E.S. calyptrata, var. grandiflora — The flowers are a lovely shade of pink, brighter towards the centre; 6 ft.	2	0
E.S. sericea—Pink flowers, silvery foliage; 4 ft.	2	0

POINCIANA (Bird of Paradise Shrub).

D.S. Gilliesii—Crimson and yellow; 4 ft. An exceedingly pretty shrub, with Acacia-like leaves	2	0
--	---	---

POINSETTIA.

D.S. pulcherrima—Scarlet bracts; 6 ft. A magnificent shrub, requiring a warm position. Should be pruned back hard in early Spring	1	6
--	---	---

POLYGALA.

E.S. grandis — Purple; 6 ft. A beautiful shrub, with pea-shaped flowers. Very hardy, flowering throughout the Winter	2	6
---	---	---

POPULUS (Poplars).

D.T. alba—Silver Poplar; 50 ft.	2	0
D.T. Dilitata—Upright Poplar—50 ft.	2	0
D.T. eucalyptus—60 ft.	3	0
D.T. macrophylla (Ontario Poplar)—40 ft.	2	6
D.T. monolifera (Spreading Poplar)—50 ft.	2	0
D.T. tremula pendula — A magnificent weeping tree, Standards from	10	0

PROSTANTHERA.

E.S. ovalifolia — A handsome variety, covered with rich purple flowers in Spring; 8 ft.	2	6
E.S. rotundifolia—Violet; 5 ft. A distinct and pretty shrub	2	0

PROTEA (Cape Honeysuckle).

E.S. miellifera—Pink and yellow; 8 ft. A handsome flowering shrub	2	6
E.S. cynaroides—Silvery pink	7	6
E.S. Susannae.—Red flowers in great profusion. 6 ft.	7	6

PRUNUS.

D.T. Blireiana, fl. pl.—Flowers, double, bright rose; light bronze green foliage	2	0
D.T. Moseri—Double, pale pink flowers, with light bronze foliage	2	0
D.T. mume, fl. pl.—White; 6 ft.; green foliage	2	0
D.T. mume, fl. pl.—Red; 6 ft.	2	0
D.T. mume, fl. pl.—Pink; 6 ft.	2	0
D.T. Pissardii—Very ornamental. Foliage deep coppery crimson, with highly coloured fruit	2	0
D.S. sinensis alba, fl. pl.—Double White 3 ft.	2	0
D.S. sinensis rosea, fl. pl.—Double rose; 3 ft.	2	0
These are beautiful small-growing shrubs, that produce quantities of double flowers in Spring.		
D.T. Mrs. Lyle—Large single pink	2	0
D.T. Vesuvius—An improved variety of Pissardii, but with large leaves	2	0

PRUNUS SERRULTA (Double Flowering Cherries).

D.T. Double Rose Pink—10 ft.	3	6
D.T. Double Red—10 ft.	3	6
D.T. Double White—10 ft.	3	6
D.T. J. H. Veitch—Large deep pink flowers with dark wood; 10 ft	3	6
D.T. New Red—Buds brilliant red, flowers opening to deep rose; 10 ft	3	6

PSIDIUM (Guava).

D.S. aromaticum (Yellow Guava)—10 ft.	1	6
E.S. cattleyanum (Purple Guava)—3 feet	1	6
Both varieties are edible, but P. Cattleyanum is the better.		

PUNICA.

D.T. granatum (Pomegranate) — 12 ft.	1	6
D.S. granatum, fl. pl.—Double scarlet Pomegranate; 8 ft.	2	6
D.S. granatum nanum, fl. pl. — Double scarlet, dwarf; 2 ft.	2	6

PUSSY WILLOW.

D.T. salix rubra—20 ft. From	1	6
-----------------------------------	---	---

PYRUS-MALUS (Flowering Crab Apple).

D.T. Aldenhamensis—Large semi-double wine-red flowers, purple fruit, and coppery foliage; 12 ft.	2	6
D.T. Eleyii—Foliage, bright reddish purple. Flowers rich veinous red, borne in clusters. Very good; 12 ft	2	6
D.T. Elise Rathke (The Weeping Apple) —Large foliage, single pink flowers; 10 ft.	2	6
D.S. floribunda (Japanese Flowering Crab)—Pink, profuse bloomer; 15 ft.	2	6
D.T. floribunda purpurea—Purple flowers	2	6
D.T. Scheideckerii—Semi-double flowering Apple; very beautiful	2	6
D.T. spectabilis rosea, fl. pl.—Double rose	2	6

PYRUS.

D.T. ausuparia (Mountain Ash).—Red berries, 30 ft.	2	6
D.T. aucuparia Sambucifolia. — Orange berries; 20 ft.	3	6
D.S. japonica—(See Cydonia).		

QUERCUS (The Oak).

D.T. coccinea (Scarlet Oak) — 50 ft.	
From	2 6
E.T. ilex (Evergreen Oak)—50 ft. From	2 6
E.T. lusitanicus—Evergreen; 40 ft. From	2 6
D.T. robur (The English Oak)—50 ft.	
From	2 6
D.T. rubra—Champion or red oak; 40	
ft. From	3 6
E.T. suber (Cork Oak)—20 ft. From	2 6

RAPHIOLEPIS (Indian Hawthorn).

E.S. ovata.—White; 4 ft.	1 6
-------------------------------	-----

RHAGODIA (Salt Bush).

E.S. hastata—Silvery foliage; 2 ft. Use- ful also as a hedge plant	1 6
--	-----

RHAMNUS.

(See also Hedge Plants).

E.S. alaternus aurea variegata—Foliage variegated green and yellow; 8 ft.	1 6
---	-----

RHODODENDRON.

E.S. hybridum—Named varieties from....	5 0
E.S. ponticum—Lilac. From	3 6

RHUS—Valuable deciduous shrub, with attractive foliage, which assumes brilliant tints in Autumn. Succedanea is the finest for Autumn tints, and has the advantage of being non-suckering.

D.S. cotinus ("Wig Tree"). — Glauous round leaves, turning crimson and yellow in Autumn; 6 ft.	2 6
D.S. cotinus atropurpurea—Crimson; 6 feet	2 6
D.T. Succedanea (Japanese Wax Tree) Foliage turning bright scarlet in Autumn. 10 ft. From	2 0
D.T. typhina laciniata—Handsome plant. Young shoots deep red with long leaves and finely cut pendant leaf- lets, looking somewhat like ferns. Very pretty red foliage in Au- tumn; flowers greenish yellow, fol- lowed by dark purple fruit. 20 ft.	5 0

RIBES (Flowering Currants)—Beautiful deciduous free-flowering shrubs, with attractive pendulous trusses of flowers in earliest Spring. They thrive in almost any soil or situa-
tion.

D.S. speciosum (Fuchsia-flowered Goose- berry)—Very pretty shrub, with deep red flowers; 4 ft.	2 6
D.S. sanguineum (Red Flowering Cur- rant)—5 ft.	2 0

ROBINIA.

D.S. hispida rosea. — Rose color; 6 ft.	2 6
D.T. Kelseyi.—Rose pink; 10 ft.	2 6
D.T. pseudo acacia — A very handsome tree, with long racemes of droop- ing white flowers; 40 ft.	2 6
D.T. pseudo acacia Decaisneana — Flesh- coloured flowers; 40 ft.	2 6

RUSSELIA.

E.S. juncea—Scarlet; 4 ft. A beautiful little shrub with rush-like foliage. Very free-flowering and good for cutting. One of the best small shrubs	1 6
E.S. Lemoinei elegantissima — This exquisite little gem will be wel- comed by everyone interested in gardening. For many years our gardens have been enlivened dur- ing Summer months by the grace- ful habit and pendulous spikes of scarlet tubular flowers of R. Jun- cea. This new variety is the result of a cross between R. Juncea and R. Sarmentsa, having elegant hang- ing stems with scarlet flowers, and makes a beautiful plant either for the shrubbery or hanging bas- ket	1 6

SALIX (The Willow).

D.T. Babylonica—Narrow-leaved Weep- ing Willow; 50 ft. From	1 6
D.T. rubra (The Pussy Willow, or Ossier)—The catkin-like flowers are produced in great profusion be- fore the leaves. If cut and dried they last for a long time; 12 ft.	1 6
D.T. tricolor — Leaves variegated green, gold, red; 20 ft.	3 6
D.T. vitellina (The Golden Willow) — Rich golden yellow wood; 15 ft.	2 0

SALVIA.

E.S. Africana—Violet; 3 ft.	1 6
D.S. azureum — A beautiful clear sky blue; 3 ft.	1 6
E.S. Bethelii—Bright rosy pink, tipped with white; 3 ft.	2 0
E.S. coccinea—Red; 3 ft.	1 6
E.S. Grahani—Purple; 2 ft.	1 6
E.S. involucrata—Rosy red; 4 ft.	1 6
E.S. rutilans—Magenta; 4 ft.	1 6
A beautiful class of free-flowering small shrubs.	

SAMBUCUS (Elderberry).

D.S. nigra—12 ft.	1 6
D.S. nigra argentea variegata — Varie- gated Elderberry; a fine shrub; 10 ft.	2 0

SCHINUS (Pepper Tree).

E.T. molle—20 ft. A distinct and beau- tiful tree. Will thrive in the hot- test and driest districts. Grows quickly and is at home in any soil	1 0
---	-----

SESBANIA.

D.S. tripetii (Brazilian Glory Pea) — Graceful racemes of orange, scar- let, or tango-coloured flowers; freely produced. Acacia-like fo- liage; 8 ft.	2 0
--	-----

SOLANUM.

E.S. azureum—Bright blue; a fine, free- flowering, hardy shrub; 4 ft.	2 0
E.S. capsicastrum — Orange-red berries in Winter; 3 ft.	1 6

SOPHORA.

D.T. Japonica.—White, 20 ft.	2 0
-----------------------------------	-----

***SORBUS.**

D.T. Aucuparia (Mountain Ash) — Rowan Tree. Handsome bunches of scarlet berries and pretty foliage; 30 ft. From 2 6

SNOWBALL TREE.

D.T. See Viburnum opulus—8 ft. 1 6

SPARMANNIA.

E.S. Africaine, fl. pl.—Double white; 8 ft. A very handsome, rapid-growing, winter-flowering shrub 2 0

SPARTIUM.

E.S. junceum (Spanish Broom) — Yellow; 10 ft. 1 6

E.S. multiflorum album — White; 28 ft. 1 6

SPHAERALCEA.

E.S. umbellata—Crimson; 6 ft. A fine winter-flowering shrub with large leaves 2 0

SPIREA—Very hardy and beautiful Spring-flowering shrubs.

D.S. Aitchisonii—White flowers in very large clusters. Very graceful shrub, with ferny foliage; 5 ft. 2 0

D.S. Anthony Waterer—Rich crimson; 3 ft. 1 6

D.S. corymbosa — Single white (May); 5 ft. 1 6

D.S. grandiflora (Exochordia) — Large single flower. Very beautiful; 8 ft. 1 6

D.S. Reevesiana, fl. pl.—The well-known double white, 3 ft. 1 6

STATICE (Sea Lavender)—Everlasting Flowers.

D.S. Caspia—Long feathery spikes of pale mauve flowers 1 6

E.S. Dicksonii—Pink, fine for cutting; 2 ft. 2 0

E.S. macrophylla—Blue and white; 2 ft. 2 0

E.S. perezii multiflora.—Blue, 2 ft. 2 0

E.S. spathulata—Pale mauve; fine compact growing border plant. Useful for edging beds 1 6

STENOCARPUS.

Hardy evergreen small trees of 15 ft., with bright green foliage, and attractive flowers in Spring. Cunninghami is the famous Queensland Fire-wheel tree. Grows very well in hot, dry, districts.

E.T. Cunninghami, syn. sinuatus—Bright scarlet flowers, formed as the spokes of a wheel. From 2 6

STERCULIA.

E.T. acerifolia (Flame Tree)—Scarlet; 40 ft. 6

E.T. heterophylla (Kurrajong)—40 ft. 1 6

E.T. hybrida—Flowers rosy pink; 40 ft. 3 6

E.T. lurida—Deep crimson; a wonderfully handsome flowering tree; 30 ft. 3 6

Heterophylla is one of the best ornamental trees.

STILLINGIA.

D.T. sebifera (Tallow Berry) — A handsome, quick-growing small tree, especially valuable for its Autumn foliage, which is richly coloured. Colours well on the plains 2 0

STRELITZIA.

E.S. Reginae—Orange and blue; 3 ft. From 3/6 to 10 6

SUGAR GUM—(See Eucalyptus).

Special quotations for quantities.

SUTERA.

E.S. grandiflora. Very pretty dwarf winter-flowering shrub, with clear lavender blue flowers, 3 ft. 2 6

SWAINSONA.

E.S. alba—White; 3 ft. 1 6

E.S. carmineus—Carmine; 3 ft. 1 6

E.S. lavender—3 ft. 1 6

E.S. Pink—3 ft. 1 6

Very hardy shrubs, free-flowering, with pea-shaped flowers; in bloom all the Summer.

SYMPHORICARPUS (Snowberry).

D.S. racemosus—White berries; 4 ft. 1 6

D.S. vulgaris—pink; 4 ft. 1 6

SYRINGA (Lilac).

D.S. Persica—Persian Lilac. Blue; 5 ft. 2 0

D.S. Persica alba—White; 5 ft. 2 0

D.S. vulgaris—English Lilac; 5 ft. 1 6

D.S. vulgaris alba—White; 5 ft. 1 6

D.S. vulgaris Abel Carriere — Double Cobalt, blue to white 2 6

D.S. vulgaris Chas. Joly — Almost purple 2 6

D.S. vulgaris Conderset — Double. Pale blue 2 6

D.S. vulgaris Delphine—Single. Very dark 2 6

D.S. vulgaris Mdme. F. Morel—Single Very large; pale blue 2 6

D.S. vulgaris Mdme. Lemoine — Very large; double white 2 6

D.S. Vulgaris Sou de L'Spaeth—Semi-double, red-purple, almost crimson 2 6

TAMARIX.

D.S. gallica — Pink (Flowering Cypress) 8 ft. From 1 6

D.S. Japonica—Pink flowers before foliage; 8 ft. From 1 6

Very hardy shrubs, especially suitable for planting in dry places and near the sea.

D.S. odessana rubra — Bright pink flowers in Summer. Very pretty 2 0

TECOMA.

E.S. capensis—Orange-scarlet; 8 ft. 1 6

D.T. grandiflora—Orange; 6 ft. 2 6

D.S. Madame Galen—Dark red; 6 ft. 2 6

D.S. Manglesi — Chestnut red, large flowers, in immense clusters; 6 ft. 2 6

E.S. Mackeni—Delicate rose pink, with darker veins. Very handsome; quick-growing; 6 ft. 2 0

E.S. Smithi—Orange; 10 ft. 2 0

E.S. velutina—Golden yellow; 8 ft. 2 0

TEMPLETONIA (Coral Bush).

E.S. retusa—Terra-cotta crimson. A handsome Winter-flowering shrub; 4 ft. 2 0

TELOPEA (The Waratah).

E.T. speciosissima — Scarlet Crimson 3 6

THRYPTOMENE.

- E.S. *Mitcheli*—Small-growing Erica-like plant. Very pretty 2 6
 E.S. *Australis*—3 ft., white 2 6

TOXICOPHLAEA.

- E.S. *spectabilis*—White; 5 ft. A pretty, white-flowering shrub; sweetly scented. Very hardy 2 0

TRISTANIA (Lophostemon).

- E.T. *conferta*—White; 30 ft. 2 0
 A very quick-growing evergreen tree, broad foliage. Useful for shelter.

ULMUS (The Elm).

- D.T. *campestris* (English Elm)—80 ft. 2 6
 D.T. *Montana pendula* (Weeping Elm)
 —Standards from 10 6
 D.T. *purpurea* 3 6
 D.T. *suberosa* (Cork Bark Elm)—From 2 6

VERONICA.

- E.S. *Andersoni*—Blue; 3 ft. 1 6
 E.S. *Andersoni variegata*—Blue; 2 ft. 1 6
 E.S. *Colensoi glauca*—White; 1 ft. 1 6
 E.S. *cupressoides*—Very distinct; 3 ft. 1 6
 E.S. *Hulkeana*—Lavender blue; 3 ft. 1 6
 E.S. *La Siduisant*—Red; 2 ft. 1 6
 E.S. *Lobelioides*—Blue; 2 ft. 1 6
 E.S. *speciosa imperialis*—Crimson; 3 ft. 1 6
 E.S. *variabilis*—Rose; 3 ft. 1 6
 E.S. *versicolor*—Variegated pink, green, and white foliage; 3 ft. 1 6
 E.S. *Vulcan*—Deep crimson; 4 ft. 1 6

VIBURNUM.

- E.S. *Carlesi*.—Beautifully rosy-white Bouvardia-like flowers; very lightly perfumed. 6 ft. 3 6
 D.S. *opulus*—Guelder Rose or Snow-ball Tree. 8 ft. 2 0
 E.S. *suspensum*—White, sweetly scented; 6 ft. 1 6
 E.S. *tinus* (*Laurustinus*)—White; 6 ft. 1 6
 (See also Hedge Plants).
 E.S. *tinus lucidum*—Pure white, shining green foliage; 6 ft. 1 6
 Splendid hardy shrubs.

VICTORIA TEA TREE (*Leptospermum laevigatum*).

- E.S. A very hardy evergreen shrub, especially suitable for the seaside. Also makes an excellent hedge.
 White 2 0

VIRGILIA.

- E.S. *capensis*.—A hardy, quick-growing shrub with rosy lilac flowers and graceful foliage; 15 ft. 2 0

VITEX.

- E.S. *Agnus Castus* (The Chaste Tree)—Lavender; 6 ft. 2 0
 E.S. *trifolia variegata*—Very hardy, with pretty variegated foliage 2 0

WIGANDIA—

- E.S. *caracasana*.—Lilac; 8 ft. Very large-leaved, tropical looking plant, with handsome flowers 2 0

WEIGELA (Diervilla).

- D.S. *Candida*—White; 4 ft. 2 6
 D.S. *Coquette*—Rosy Pink; 4 ft. 2 0
 D.S. *purpurata*—Deep red; 4 ft. 2 0
 D.S. *rosea*—Rose; 4 ft. 2 0

YELLOW BROOM.

- See *Spartium junceum* 1 6

XANTHOCERAS.

- D.S. *sorbifolia*—12 ft. A very handsome white flowering shrub 2 6

PALMS

- Cocos plumosa*—Very elegant, tall growing palm. From 3 6
Chamaerops Excelsa—One of the hardest fan palms, with dark green foliage; 15 ft. From 2 6
Chamaerops humilis—Fan-shaped leaves, dwarf habit, compact. Makes a nice specimen on a lawn; 6 ft. From 5 0
Corypha Australis—A very graceful palm; Hardy. From 3 6
Diplothemium maritimum—Similar to Date Palm, but more graceful; rapid grower. From 2 6
Phoenix canariensis—Very graceful dark green feathery foliage. From 2 6
Phoenix Roebelini—One of the most beautiful Palms in cultivation for table and indoor decoration. From 3 6
Washingtonia robusta (Cotton Palm).
 From 2 6

Hardy Climbing and Trailing Plants

E.—Evergreen. D.—Deciduous.

AKEBIA.

E. Quinata—Purplish brown flowers ... 2 6

AMPELOPSIS.

D. Engelmanni—Foliage similar to Hederacea. Very brilliant in Autumn; self-clinging ... 2 0

D. Hederacea (Virginian Creeper)—Brilliant foliage in Autumn ... 2 0

D. Henryana—The leaves are beautifully variegated with silver and rose, quite distinct from any existing variety. Its leaves turn colour in the Autumn, as in other varieties ... 2 0

D. Veitchi (Small-leaved Virginia Creeper)—A beautiful climbing plant, and a general favorite. Unequalled where a self-clinging climber is required. A fine effect is illustrated on the south side of the Exhibition Building, North Terrace ... 1 5
D. Veitchi purpurea ... 2 0

ANTIGONON (Mexican Mountain Rose).

D. Leptopus—Pink; a very beautiful climber, worthy of more general cultivation ... 2 6

ARISTOLOCHIA.

D. elegans—Large flowers, blackish-purple, with yellow veins; peculiar shape. Very handsome and attractive ... 2 0

ASPARAGUS.

E. plumosa — The best climbing variety for verandah or covering stumps; foliage indispensable for decoration ... 1 6

E. Sprengeri—A handsome drooping variety with dark green leaves, white flowers, succeeded by scarlet berries in Winter. A handsome pot or basket plant, which also does well on rockeries ... 1 6

BIGNONIA.

E. Australis—Whitish; a rapid-growing climber, with good foliage ... 2 0

E. capreolata—Orange and red ... 2 0

E. Chirere—A magnificent climber, with orange-red flowers and handsome foliage. The best evergreen Bignonia ... 2 6

E. gracilis—Yellow evergreen: a beautiful climber, with small foliage and large golden-yellow flowers ... 2 0

D. grandiflora—Orange-bronze ... 2 6

D. hybrida grandiflora—Red (Guilfoylei) ... 2 0

E. jasminoides alba — Pure White ... 2 6

E. jasminoides. — White, with purple throat; evergreen ... 2 0

E. Lindleyana—Lilac; a beautiful evergreen climber ... 2 0

E. Mackeni—A splendid climber; large trusses of pale pink flowers, with deeper veinings ... 2 0

D. Madame Galen—Similar to Grandiflora in habit, but with wine-red flowers ... 2 3

D. Manglesi—Chestnut-red and orange bronze. One of the best deciduous climbers ... 2 6

E. Monsieur Petit—Cream and purple flowers, sometimes called Pink Tecoma Australis ... 2 0

E. rosea — Long trusses of pale mauve pink flowers ... 2 0

E. venusta — Orange; a grand Winter-flowering climber. Does well in warm districts ... 2 0

BOUGAINVILLEA.

E. Braziliensis—Terra-cotta ... 3 6

E. glabra Sanderiana ... 2 0
Rich shining violet-red bract, with which even the smallest plants are covered. Flowers all through Spring, Summer and Autumn. The best variety for covering old trees or training as a shrub.

E. Lateritia—Terra-cotta ... 3 6

E. magnifica traili — Bright purple; one of the handsomest Summer-flowering ... 2 0

E. Mrs. Butt — One of the most beautiful varieties. The plant is of free climbing habit, and produces in the greatest profusion its beautiful crimson flowers ... 3 6

E. Rosa Catalina—New. Rosy terra-cotta red, almost pink; very beautiful. Award of Merit, R.H.S., England ... 3 6

E. splendens (syn. speriosa)—Deep magenta. A grand climbing plant; very free flowering if planted against a wall or fence facing north ... 2 0

E. Thomasi—New beautiful deep pink. By far the best pink Bougainvillea ... 3 6

CANAVALLIA.

E. Bonariensis—Purple rose. A pretty evergreen climber with shining green leaves and drooping racemes of flowers ... 2 6

CAPE IVY (Senecio)—Bright yellow ... 1 6

CLEMATIS.

E. flammula—Small white feathery flowers; sweetly scented	2 0
D. Hybrids—Large flowered, in variety	5 0
D. Montana Buchani—White flowers very early in Spring. Greatly admired	2 0
D. Montana rubra—Rosy pink flowers, otherwise same as Montana	3 6
E. tangutica. — Very handsome, with bright yellow flowers, and later in summer large heads of feathery fruits	2 0

COBOEA.

E. scandens—Purple bell-shaped flowers. A rapid-growing climber	2 0
---	-----

DOLICHOS.

E. lignosis—Rose	2 0
E. lignosus alba—White	2 0

These are rapid growers, and especially useful for covering unsightly fences.

FICUS.

E. minima—Neat and pretty	2 0
E. stipulata.—Adheres to the wall like Ivy. Very hardy	2 0

FUCHSIA.

E. procumbens—A good plant for hanging baskets in sheltered situations. Has pretty yellowish flowers, reflexed blue, and large magenta crimson berries	1 6
--	-----

GOLDEN GLORY CREEPER.

(See Thunbergia Gibsonia).

HARDENBERGIA (Native Lilac).

E. ovata—Blue	1 6
E. ovata alba—White	1 6
E. ovata rosea—Rose	1 6

HEDERA (The Ivy).

E. dentata variegata—The finest variegated Ivy. Very large leaves	2 6
E. Helix (The English Ivy)	2 0
E. Helix aborea	2 0
E. Helix Algeriensis variegata	2 6
E. Helix Maderensis variegata — Very fine	2 6

HOYA.

E. carnosa (Wax Plant)—Pale flesh. A pretty climber. Suitable for growing under verandahs	2 6
---	-----

IPOMOEA (Perennial Convolvulus).

E. Learii—Blue. Very rapid grower	2 0
-----------------------------------	-----

IVY—(See Hedera).

JASMINUM

E. Stephenense.—A hardy vigorous variety; attractive foliage and clusters of fragrant soft pink flowers in Spring	2 6
E. gracilis—White	2 0
E. grandiflora—The largest white	2 0
E. primulinum — Large bright yellow flowers, sometimes semi-double. A splendid variety	2 0

Sweet-scented climbing plants.

KENNEDYA.

E. Comptoniana—Violet	2 0
E. nigricans — Black and yellow. Very quick-growing and hardy	2 0
E. pentaphylla—Violet	2 0
E. rubicunda—Red; fast growing	2 0

Fine, quick-growing, effective climbers.

LAPAGERIA.

E. rosea	From 5/- to 10 0
----------	------------------

One of the most beautiful climbers in cultivation, but only suitable for cool districts.

LATHYRUS (Everlasting Pea).

E. latifolius (Pink Beauty) — White; beautifully tinted	1 6
E. pubescens—A climber of great merit. Free-flowering, bearing ten to fifteen blooms on each spike. Colour, blue, shaded lavender. Especially beautiful in Spring	2 0

LONICERA (Honeysuckle).

E. aurea reticulata — White and yellow. Handsome variegated foliage	2 0
E. brachypoda—White and pink	2 0
E. Caprifolium (Woodbine)—Pink	2 0
E. chinensis—Red and white	2 0
E. confusa—Pale yellow; fine	2 0
E. gigantea—Cream and yellow	2 0
E. tartarica—Rosy scarlet	2 0

The Honeysuckles are very suitable for verandah posts or covering fences.

LOTUS.

E. peliorhyncus — Scarlet pea-shaped flowers, similar to Sturt Pea, with fine glaucous foliage. Suitable for rockeries	1 6
--	-----

MANDEVILLA.

D. suaveolens—White; sweetly scented. One of the best hardy white flowering climbers. Easily cultivated 1 6

PASSIFLORA (Passion Flower).

E. edulis—Edible Passion Fruit. Should be generally grown. Easily cultivated. Very suitable for covering fences, and profitable. 1/-
E. edulis mammoth (Mammoth Passion Fruit) 1 6

PERESKIA (Climbing Cactus).

E. Godseffiana—Beautifully variegated foliage, yellow marked fiery red on upper surface, rosy crimson underneath 2 6

PHASEOLUS (Snail Flower).

D. caracalla — Lilac and white. A beautiful creeper, with curiously curled and twisted flowers. Very sweetly scented 2 0

RHYNOSPERMUM.

E. jasminoides alba. — White, sweetly scented 2 0
E. jasminoides alba variegata—White. A good, quick climber; Clusters of small Jasmine-like flowers, and very sweetly scented 2 0

SOLANUM.

E. jasminoides—White 2 0
D. Seaforthianum—Blue 2 6
D. Wendlandi—Large trusses of pale blue flowers. One of the most

beautiful climbers in cultivation. Requires a warm position 2 6

STEPHANOTIS.

E. floribunda — Pure white; sweetly scented. Wax-like flowers borne in bunches. Requires a warm, well-drained position 2 6

STIGMAPHYLLUM.

E. ciliatum (Golden Vine) — Yellow; good foliage. A handsome climber 2 6

TACSONIA.

E. mollissima — Magenta. Sometimes grown for its fruit, which resembles Passion Fruit, but yellow in colour 1 6

E. Taylorii (Banana Passion Fruit)—Pale pink flowers, with an edible banana-shaped fruit, similar to *Mollissima*, but more free in bearing 1 6

TECOMA (See Bignonia).

THUNBERGIA.

E. coccinea—Red 2 0
E. Gibsoni (Golden Glory Creeper) 2 9
E. laurifolia—Blue 2 6

VITIS.

Alicante Bouchet (Crimson Glory Vine) —Scarlet crimson. Autumn foliage 1 6

WISTARIA.

D. multijuga rosea 3 6
D. sinensis—Lavender 2 0
D. sinensis alba—Double White 2 6

PERENNIAL ASTERS

(MICHAELMAS DAISIES)

The varieties offered below are a big advance in these plants as the flowers are very much larger, and in addition are carried right down to the bottom of the spike and not just at the top as in the older varieties.
Price 1/- each. 10/- dozen.

BLUE GOWN. — Beautiful large blue flowers often two inches across.

BLUE EYES.—Large blue flowers with very small centres

BLUE JACKET.—Bright blue; very good.

CHARLES WILSON.—A new shade of bright cerise pink.

EMPRESS OF COLWALL.—Light blue, splendid spike.

JOSEPHINE WELLS. — Bright pinkish-red, long spike.

MAMMOTH.—Very large deep blue.

MOTHER OF PEARL.—Name aptly describes the unusual shadings of white and pink.

MOUNT EVEREST.—Beautiful large white.

Plants available from August to September

MRS. GEORGE MUNROE. —Enormous white flowers.

O. WELLS.—This blue flowered variety is very floriferous and distinctive.

QUEEN MARY.—Exceptionally large delicate blue.

SILVER SPRAY.—Beautiful silvery white.

STRAWBERRIES AND CREAM. — Unusual combination of reddish pink to white.

SPIRE.—Quite distinct reddish purple flowers, on long stems.

SUNSET GLOW.—Very large, reddish pink.

TABLOW'S SPIRE.—White, distinct red flowers on long stems.

DWARF PERENNIAL ASTERS

This new type of Dwarf Michaelmas Daisies only grow a few inches high, and when in bloom are literally covered with flowers and ideal for Rockery and Herbaceous beds.

BLUE BABY.—Beautiful pale blue flowers. Height, 10 inches.

LADY HENRY MADDOCKS.—Beautiful shade of pale pink. Height, 12 inches.

NANCY.—Flesh pink flowers. Height, 12 inches.

REMEMBRANCE. — Beautiful pinkish-blue. Height, 14 inches.

SNOWSPRITE.—Not quite as dwarf as other varieties, being 15 inches. Pure white, semi-double.

VICTOR. — Clear pale lavender-blue. Distinct.

CONIFERAE

This noble order of plants stands unrivalled by any other. The endurance of heat renders the majority of them peculiarly adapted to our climate. Some of the Pines, Cedars, and Abies form magnificent avenues and for single specimens on lawns they are all that can be desired.

ABIES (The Spruce Firs).

- Douglasii (Douglas' Silver Fir)—100ft. from 2 6
 Kosteriana glauca (Koster's Blue Spruce)
 —The most glaucous of all the Abies; rare from 7 6
 Nordmanniana—Very handsome; 8 ft. from 2 6
 Pinsapo. — One of the grandest trees in this section; 50 ft. from 2 6

ARAUCARIA.

- Bidwilli (The Bunya-Bunya) 3 6
 excelsa (Norfolk Island Pine) — Very hardy and ornamental tree. Also suitable for planting at seaside from 1 6

BIOTA (Chinese Arbor Vitae).

- aurea (Golden Arbor Vitae)—3 ft. from 2 6

CEDRUS.

- Atlantica (Silver Cedar)—10 ft. from 3 6
 Atlantica glauca (True)—A truly magnificent variety; rare from 5 0
 Deodara (Indian Cedar)—80 ft. from 2 6
 Deodara aurea—A golden-tipped variety forming a magnificent spectacle when planted as a single specimen from 5 0

CEPHALOTAXUS.

- Fortunei—40 ft. from 2 6

CRYPTOMERIA.

- elegans—Red-brown foliage in Winter; 40 ft. from 2 6
 elegans gracilis — Red-brown foliage in Winter; 40 ft. from 2 6
 Japonica (Japanese Cedar)—60 ft. from 2 6

CHAMAECYPARIS.

- sphaeroides variegata—12 ft. from 2 6

CUPRESSUS.

- Arizonica; 40 ft. from 2 0
 Nootkatensis (syn. Thujopsis); 30 ft. from 2 6
 Brunniana aurea (The Golden Macrocarpa)—20 ft. from 3 6
 Lambertiana (Macrocarpa)—30 ft. from 1 0
 Lambertiana horizontalis (from cuttings)
 A beautiful break-wind tree; also the best Pine for forming hedges (see Hedge Plants) from 2 0
 Lambertiana horizontalis aurea (The Golden Pine—Fine golden foliage from 3 6
 Lawsoniana—40 ft. from 2 6
 Lawsoniana aurea—10 ft. from 3 6
 Lawsoniana aurea variegata—10 ft. from 3 6
 Lawsoniana Bowlerii pendula—10 ft. from 3 6
 Lawsoniana elegantissima—10 ft. from 3 6
 Lawsoniana erecta viridis—20 ft. from 3 6

- Lawsoniana filifera—10 ft. from 3 6
 sempervirens from 2 6
 sempervirens stricta (Upright Cypress) 30 ft. from 2 6
 Torulosa—A handsome shelter tree; also a valuable hedge plant; 70 ft. from 2 6

DACRYDIUM.

- Franklinii (Huon Pine)—Only suitable for cooler districts; 40 ft. from 2 6

JUNIPERUS (Juniper).

- communis aurea—15 ft. from 2 6
 erecta—15 ft. from 2 6
 Japonica aureus—10 ft. from 2 6
 partium aureum—10 ft. from 2 6
 Sabina—5 ft. from 2 6
 sinensis aurea variegata—6 ft. from 2 6
 Virginiana—Very ornamental silvery foliage. All very hardy, and form fine specimens from 2 6

LARIX (The Larch).

- Europea—30 ft. from 2 6

LIBOCEDRUS.

- decurrens—Fine evergreen trees; 80 ft. from 2 6

PICEA (Silver Fir).

- alba (White Spruce)—4 ft. from 2 6
 excelsa (Norway Spruce)—70 ft. from 2 6
 Engelmannii—70 ft. from 2 6
 Menziesii (Syn. Sitchensis)—70 ft. from 2 6
 Orientalis—30 ft. from 2 6
 pungens (Blue Spruce)—80 ft. from 2 6
 pungens glauca—80 ft. from 2 6
 Noble and majestic trees when they attain age, but only suitable for cooler districts.

PINUS (The True Pine).

- Canariensis—40 ft. from 1 0
 halepensis (Aleppo Pine)—The hardiest of all; 40 ft. from 1 0
 insignis (Remarkable Pine)—60 ft. from 1 0
 longifolia—10 ft. from 1 0
 maritima—50 ft. from 1 0
 Pinea — (Stone Pine)—40 ft. from 1 0
 Special quotations for quantities.

PODOCARPUS.

- spinulosus—20 ft. from 2 6
 Totara—50 ft. from 2 6

RETINOSPORA.

- Ericoides (Heath-like Cypress)—10 ft. from 2 6
 plumosa (Plum-like Cypress) — 10 ft. from 2 6
 Squarrosa Sewelli from 3 6
 Compact, close-growing shrubs, with handsome foliage. Squarrosa is proving quite hardy on Adelaide Plains.

SALISBURIA (Ginko).

Adiantifolia (Maidenhair Tree)—70 ft.
from 2 0

SEQUOIA.

sempervirens—Large-growing tree; very
ornamental from 2 6

TAXODIUM.

distichum (Deciduous Cypress) — 20 ft.
from 2 6

TAXUS.

baccata (English Yew)—10 ft. from 2 0
baccata aurea (Golden Yew)—10 ft. from 2 6

THUJA.

gigantea—50 ft. from 2 6
Lobbi—50 ft. from 2 6
Lobbi variegata—50 ft. from 2 6
Handsome trees, with fine foliage;
beautifully coloured during Winter.

THUJOPSIS (Japan Arbor Vitae).

borealis lutea—30 ft. from 2 6
dolobrata—40 ft. from 2 6
dolobrata variegata from 2 0
laetevirens—20 ft. from 2 6

WELLINGTONIA (Sequoia).

gigantea (Mammoth Tree of California)
400 ft. from 2 6

Succulents

Suitable for Rock Gardens and Dry Positions.

AGAVE.

Americana Variegata—Very handsome
variegated plant, with long dark-
green leaves, broadly margined
with rich yellow from 1 6

ALOE.

Cooperi.—Probably the prettiest of the
Dwarf Aloes. Leaves dark green,
speckled white; very compact 3 6
flava—Yellow flower 1 6
fulgens—Free flowering, small growing
Aloe, with scarlet flowers 1 6
humilis—Dwarf growing, prickly 1 6
Milleri—Light golden green, slightly
prickly, medium tall; handsome
red flowers 1 6
Schimperii — Small growing, prickly.
Inner leaves light green, heavily
spotted white, outer leaves bronze.
Handsome branching spikes of
orange scarlet flowers 2 0

CACTI—Many suitable varieties from 1 6

CEREUS.

serpentinus—Spiny cactus-like plant 2 6
flagelliformis 2 6

COTYLEDON.

arboreus—Silvery grey foliage, edged
with reddish brown 1 6
canariensis — Bold light green leaves,
distinctly edged with crimson 1 6

Gibbiflora—Extra good; pinky metallic
shade over grey-green. Pink co-
lour much more pronounced in
Winter. Very handsome 2 6
orbiculata—Silvery grey, flushed pink at
edges and speckled green 1 6
Paraguayensis.—Pearl grey foliage with
a metallic sheen on the leaves; very
good 1 6

CRASSULA.

alba 1 6
coccinea—Red 1 6
lactea—White 1 6
Lycopodioides—Dwarf growing, peculiar
shaped plant 1 6
multicava—Pink 1 6
perfoliata—Very large trusses of tiny
salmon red flowers; striking 3 6
rubicunda—Reddish 1 6
Salmonia 1 6
Schmidtii—Rose pink 1 6

DYCKIA (Remotiora) — Growth like a
pineapple. Long spike of bright
orange flowers 2 6

ECHEVERIA.

agavoides — Compact growing; very
thick green leaves, forming a round
plant that is very unique 2 0
metallica—Colour varies with the season,
sometimes deep coppery pink and
sometimes a light coppery shade.
Very handsome 3 6
retusa—Dwarf growing, with handsome
pink flowers 1 6
secunda—Common cabbage plant 1 0
Special quotations for quantities.
speciosa humilis — Glaucus foliage,
Small growing, with short pointed
petals; flowers salmon pink 1 6

EUPHORBIA

Caput Medusae 2 0

HAWORTHIA.

margaritifera—Good and rare 2 6
rugosa—Small growing; dark green 1 6

KALANCHOE.

Flammea.—Large bracts of brilliant
orange flowers 3 6
Globifera var. *coccinea*. — Large bracts,
brilliant scarlet flowers. One of
the most showy rock plants 2 6
grandiflora—Handsome foliage, glaucous
green overlaid with pinkish mauve;
very striking. Flowers creamy
yellow 1 6
marmorata—Flower white, leaves large,
light green, heavily blotched
brown. Very handsome 2 6
Somaliensis — Large light-green leaves,
with reddish blotches. Flowers
white 2 6
Several other varieties can be sup-
plied in limited quantities

KLEINA.

Acaulis articulata.—Long pointed leaves.	
Very deep green	2 0
glauca — Fleshy pointed leaves, almost blue. Very effective	1 6
articulata—Candle plant	1 6

MESEMBRYANTHEMUMS.

Cordifolium variegatum.—Variegated foliage; mauve-pink flowers	1 6
Large flowered.—In the following colours: Cerise, orange, silvery pink, flesh pink, yellow, rose pink and scarlet	1 0
Small flowered.—Buff, apricot, orange, scarlet, cerise, light cerise, and pale pink.	
Suitable for dry areas, banks, etc. In pots	1 0

SEDUM.

album—White	1 6
amplexicaule—Golden yellow flower	1 6
Anglicum—Very dwarf-growing variety, with silvery-grey foliage, turning pink in winter	1 6
Anglicum Rubrum.—A red-leaved form of the above	1 6
Ellacarbium.—Yellow	1 6
glandulosum — Glaucus hairy leaves; very pretty and unusual	1 6
Sieboldi—Pinkish purple	1 6
Sieboldi Medio Variegatum — Leaves with a central creamy blotch	2 6
stoloniferum. — Low growing, dark green leaves; flowers pink and white	1 6
selskyanum — Yellow flowers	1 6
spectabilis — Brilliant; a very handsome variety. Enormous heads of crimson purple flowers. Highly recommended	1 6
lydium — Very dwarf-growing variety, with deep green leaves; exceptionally good for crazy paving	1 6

CHRYSANTHEMUMS.

Our collection of these gorgeous Autumn flowers comprises all the best and latest in Japanese Singles and Decoratives, and new varieties are being added continually. A special list is published in September. Price for all varieties except novelties, 8d. each; 6/6 dozen. Send for special list, posted free.

CARNATIONS AND GLADIOLI.

We have a large collection of choice named varieties to which we are constantly adding new varieties of superior merit. Send for separate Catalogues.

SEMPERVIVUM.

arachnoideum (Cobweb Houseleek)—A mass of small woolly rosettes, leaves being joined together by webs. Purple flowers	2 0
arboreum — Handsome light green foliage, with large trusses of showy yellow flowers	1 6
arboreum Grandiflorum — Very large glaucous foliage	1 6
capensis — A bold growing variety. During the hot weather the leaves are distinctly flushed salmon bronze	1 6
cumeatum — Similar to capensis, but foliage slightly bluer	1 6
decora—Very pretty small growing variety, leaves turn red in Winter	1 6
Haworthii—Small growing, with glaucous foliage, each leaf margined pink	1 6
rubrum—The whole of the plant is a deep maroon red	1 6
tectorum (House Leak) — Green foliage, distinctly edged reddish brown. Flat growing	1 6

Numerous other plants suitable for Rock Gardens, including small Conifers, Dwarf Shrubs, etc. List and prices free on application.

DAHLIAS

Our collection includes all the popular, latest, and modern types of Australian, American and Continental varieties. Ask for our Dahlia Catalogue. Available in July each year.

IVY-LEAVED PELARGONIUMS.

Invaluable for Covering Fences. Price, 1/- each; 10/- dozen.

REGAL & SHOW PELARGONIUMS.

Chiefly used for Pot Culture and Greenhouse Decoration. They also do well as outside garden plants, in soils that are not too rich. Prices—Regal, 1/6; Show or Zonal, 1/- each.

Herbaceous, Evergreen and Rock Garden Plants

Herbaceous Plants are showy, beautiful, and most easily cultivated. They are indispensable in every garden.

Varieties marked * are very suitable for rock gardens.

ACANTHUS.

Molies—Very large and ornamental foliage 1 6

AGAPANTHUS (African Lily).

umbellatus—Blue 1 0

umbellatus alba—White 1 0

Hardy, handsome flowering plants, with large umbels of flowers.

AGERATUM.

Mexicana 1 0

AGROSTEMMA (Rose Campian)—Hardy herbaceous perennial.

Purple 1 0

White 1 0

*AJUGA.

metallica — A very pretty trailing plant with bronze-metallic foliage and blue flowers 1 6

repens—Similar to Metallica, except foliage is light green 1 6

*ALPINE STRAWBERRY—Very pretty; suitable for rockeries 1 6

ANCHUSA.

Italica — Dropmore. — Dark green foliage. Plants smothered with the very purest gentian blue flowers; 4 ft. 1 0

ANEMONES.

Japonica—Rose 1 6

Japonica (Whirlwind) — Semi-double pure white. Very fine 1 6

ANIGOZANTHUS (Kangaroo Paw).

Manglesi—Green and red 2 6

pulcherrima—Yellow and white 3 5

*ARABIS (Rock Cress).

alpinus—Double pure white flowers, like small stocks. Splendid for borders 1 6

*ANTHEMIS.

Kelwayi—Yellow 1 6

montana—Pretty small white flowers, like a Chrysanthemum 1 6

*ARENARIA.

balearica—A mossy creeping plant with small white flowers. Excellent for covering damp rocks, etc. 1 6

densa — A dense low-growing trailing plant with white star-shaped flowers 1 6

Biebersteinii—White; silvery foliage 1 6

ARCTOTIS.

grandiflora—Orange 1 6

scrapigera—Hybrid. Beautiful red and tango shades of flowers, like a Gerbera 1 6

*ARMERIA (Thrift).

mauritanica (Minute Thrift) — A dwarf moss-like plant forming tufts of light green foliage, with pale pink flowers on short stems 1 6

splendens—Deep pink 1 6

ASTERS, Perennial (Michaelmas Daisy)—See separate list.

*ASTER ALPINUS.

Goliath—Pretty blue flowers; yellow centre 1 6

*AUBRIETIA.

Large Flowered Hybrids.—Beautiful dwarf-growing plants; flowers various shades of pink and blue 1 6

BEGONIAS.

Bedding—Various colours. Can be supplied in quantity in Spring. Prices on application.

BILBERGIA Nutans (Parrot Flower).—

Red, yellow, and blue 2 0

BOLTONIA.

glastifolia — A most elegant plant, growing 4 ft. high, with long sprays of white daisy-like flowers 1 0

*CAMPANULA.

carpatica—Blue, also white 1 6

Very useful for rock gardens.

glomerata—Various shades of violet 1 6

garganica—Purplish flowers. Fine for rock work 1 6

isophylla alba—Pure white. Fine for baskets 1 6

isophylla Mayii—Light blue. Very beautiful 1 6

persicifolia alba—White 1 6

persicifolia Telham Beauty—Very large flowers of china blue, silvery shading. New 1 6

persicifolia Ladham's Giant—Fine large flowers; colours from blue to white 1 6

persicifolia—Double blue 1 6

pusilla — Excellent variety; large heads of deep coloured flowers 1 6

pyramidalis—Blue 1 6

rotundifolia—Scotch Bluebell 1 6

CANNA.

in varieties. See separate list page 48.

*CAT-MINT (See Nepeta.)

*CAT-THYME—(See Teucrium marum.)

*CERASTIUM—(Jerusalem Star) 1 6

***CENTAUREA.**

candidissima—Silvery white foliage, lilac blue flower. Splendid for edging 1 6

CHRYSANTHEMUM (Maximum) — See Shasta Daisy.

***CONVOLVULUS.**

mauritanicus — Blue. A splendid trailing plant 1 0

***CREeping MINT.** See *Mentha requienni* 1 6

***CREeping THYME**—A prostrate form of sweet-scented Thyme. Bright purple flowers 1 6

***CRUCIANELLA.**

stylosa — A very pretty rockery plant, with light green foliage and purple flowers 1 6

***DACTYLIS**— *Glomerata Variegata*—One of the most useful and graceful of variegated grasses 1 6

DELPHINIUM—(Perennial Larkspur).

Various shades. We have an exceptionally fine strain; all carefully selected plants. Seedlings, 6d. per doz. Large flowering crowns, per doz. 3/6 to 5 0

***DIANTHUS.**

Alpinus Hybrids (Rock Pinks) — Splendid plants for rock gardens. Forming dense cushions of foliage, from which arise masses of single and semi-double sweetly perfumed flowers. Several varieties, ranging from white to rosy carmine 1 6

ECHINOPS. (Globe Thistle).

Ritro.—Large ornamental spiny leaves, with globular deep blue flowers. Fine for cutting. 3 ft. 1 6

***ERIGERON.**

Coulteri — White daisy-like flower, with finely cut petals; perennial 1 6

speciosus (Blue Shasta Daisy) — Large handsome flowers, violet with yellow disc 1 6

Prostrata Species—White, flushed pink, and clear 1 6

***ERPETION.**

reniforme (Australian Violet) — Violet and white 1 6

***ERINUS.**

alpinus — Bright purple; a charming dwarf-growing rock plant 1 6

ERYNGIUM (Sea Holly).

Amethystinum.—Deep blue flowers 1 6

Giganteum.—Loose branching heads of silver white; 3 ft. 1 6

Planum.—Stout branching stems, with small globular steel-blue flowers, 4 ft. 1 6

***ERYSIMUM**—*Linifolium* — Bright clear mauve 1 6

***EUONYMUS.**

radicans 2 0

radicans variegata—Prostrate growth 2 0

***ERICA.**

autumnalis — Deep rose, very floriferous 2 0

carnea—Pretty dwarf Erica, with light red flowers 2 0

melanthera—One of the most beautiful varieties of Erica; lavender pink flowers, produced freely, and will do well on the plains in sheltered areas 2 0

FESTUCA.

glaucula—A pretty grass with glaucous-grey foliage 1 6

FRAGARIA (Indian Strawberry).

indica—Yellow. For rockeries or hanging baskets 1 6

***FRANCOA.**

glabrata—Pure white 1 6

ramosa—White 1 6

sonchifolia—Purple 1 6

***FUCHSIA.**

procumbens—A good plant in sheltered positions. Has pretty yellowish flowers, relieved blue, and large magenta crimson berries 1 6

***GAZANIA.**

splendens—Orange 1 6

splendens Variegata—Leaves white and green. Flowers orange 1 6

Cream, with orange centre 1 6

White, with black centre 1 6

Very showy plants for rockwork or borders. Special quotations for quantity.

***GERANIUM**—*Frazeri*—Very pretty original species from the Himalayas. Rosy purple flowers 1 6

GERBERA (Barborton Daisy).

Jamesonii—Scarlet 1 6

Jamesonii hybrids—Various colours; very handsome Marguerite-like flowers 1/- to 1 6

GLADIOLUS.

A large collection of choicest named varieties, including best exhibition and newest sorts. Ask for special list.

GYPHOPHILA.

paniculata—Forms a symmetrical bush about 2 ft. high, covered with miniature white flowers. Useful for cutting 1 0

Bristol Fairy.—A magnificent double white Gypsophila. Useful for cutting 2 0

HELLEBORUS (Christmas Rose.)

Berthe 2 0

Colchicus Picturatus 2 0

Nigra 2 0

Mantan Blanc	2	0		
Profusion	2	0		
Victoria Lepage	2	0		
These plants do well in shady positions.				
*HELIANTHEMUM (Sun Rose).				
Fireball—Bright red	15/-	doz	1	6
aurea—Yellow	15/-	doz	1	6
These plants make a magnificent show in a sunny position on rockeries.				
Orange—Large single flowers, good foliage; very handsome	1	6		
HELIOTROPE.				
Various shades. Each	1	6		
HEMEROCALLIS (Day Lily).				
Aurantiaca major—Rich deep orange yellow; very vigorous; bearing many flowers in succession. First-class certificate R.H.S.	1	6		
Fulva fl. pl.—Bronzy orange	1	6		
*HEUCHERA.				
sanguinea—Scarlet	0	6		
*HYPERICUM.				
Reptans—Yellow	1	6		
A very pretty creeping variety of Hypericum, suitable for rockeries.				
IRISINE.				
Herbstii—Red foliage	1	0		
Lindeni—Dark red foliage	1	0		
aurea reticulata—Green, veined yellow	1	0		
For quantities in Spring, price on application. Indispensable foliage plants for borders and bedding.				
KNIPHOFIA (Red Hot Poker or Torch Lily).				
Lemon Beauty—Very pretty; 3 ft.	1	6		
Bellbird—Yellow, tipped red; 3 ft.	1	0		
Bronze Wing—Bronzy red; 3 ft.	1	0		
Firetail—Sealing-wax red; 3 ft.	1	0		
F. Crommelin—Brilliant tango; 3 ft.	1	0		
Goldfinch—Tango, shading to orange yellow; 3 ft.	1	0		
Little Treasure—Miniature, yellow; 1 ft.	1	0		
Orange Glory—Deep orange; early; 3 ft.	1	0		
Royalist—Tall yellow, tipped red; 5 ft.	1	6		
Songbird—Canary yellow; 3 ft.	1	0		
LINUM.				
trigynum—Yellow; should be in every garden	1	6		
*LITHOSPERMUM.				
prostratum—Deep blue; very beautiful. Fine for rockeries	1	6		
*LOTUS.				
peliorhyncus — A rockery plant with glaucous foliage and Sturt Pea-like flowers	1	6		
*LYCHNIS.				
alpinus—A dwarf-growing variety with pink flowers. Very pretty	1	6		
chalconica—Orange scarlet	1	6		
*LYSIMACHIA.				
nummularia (Creeping Jenny) — Evergreen; yellow flowers	1	6		
MATRICARIA.				
alba plenissima—Double white; fine for cutting	0	6		
*MENTHA.				
requienii (Creeping Mint) — A minute creeping plant, forming a close green carpet from which arise small mauve flowers	1	6		
metallica (Eau de Cologne Plant) — Handsome sweet-scented foliage and lavender flowers	1	6		
NEPETA.				
Produces in Spring and Autumn a cloud-like mass of lavender blue flowers, without a break on this dwarf bushy plant. Thrives well in dry situations				
1	6			
*OPHIPOGON.				
jaburan—Violet	1	6		
jaburan variegata—Violet, with beautiful variegated foliage	1	6		
Japonica argentea variegata—White	1	6		
These also make pretty Pot Plants.				
*OXALIS.				
Bowiei—Rosy red; very large, long-stemmed flowers	1	6		
rosea—Clear glistening pink, with fern-like foliage	1	6		
Yellow—Glaucus foliage	1	6		
*OMPHALODES—Verna—Dwarf-growing, pretty blue flowers				
1	6			
PELARGONIUM.				
Little Dandy—Green and white variegated foliage. Useful for borders, 5/- doz.				
1	0			
*PHALANGIUM.				
albo-lineatum — A pretty pot plant	1	6		
elegantissimum — A pretty pot plant	1	6		
*PHLOX.				
subulata alba — A dwarf trailing plant, with a mossy type of growth, covered in Spring with white flowers	1	6		
decussata (Perennial Phlox)—In variety 9d. each. 7/6 dozen.				
PHYSOSTEGIA.				
alba—White	0	9		
virginiana. Resembles a miniature Foxglove. Hardy and free-flowering	0	9		
*PLUMBAGO.				
larpentae. —Blue. A very pretty flowering plant, with deep blue flowers	1	6		
*POLYGONUM.				
repens	1	6		
Pretty little foliage plants for rockeries.				
*POTENTILLA.				
nepalensis—Rosy purple	1	6		
Single Yellow	1	6		
Double Yellow	1	6		
*PRUNELLA.				
vulgaris elongata — A very flat growing rockery plant, producing purple flowers throughout the Summer ..	1	6		

REHMANNIA.

angulata hybrida — A beautiful plant ;
quite hardy, with Gloxina-like
flowers borne on long spikes Various shades of pink 1 6

RICHARDIA.

Elliotiana (The Golden Lily) in Pots 2 0

RUDBECKIA.

Golden Glow—Double yellow 1 0

*ROSEMARINUS (Rosemary)—Prostratus—A creeping form of Rosemary 1 6

SALVIA.

patens—Large dark blue. Does best in the hills 1 6

*SANTOLINA—Incana — Pretty dwarf-growing plant with silvery foliage 1 6
Chamaecyparissus—Low bushes of Cypress-like foliage with yellow flowers 1 6

***SAXIFRAGA.**

peltata—Large leaves, pink flowers; very handsome 1 6

sarmentosa (Mother of Thousands) — Pretty for baskets 1 6

sarmentosa variegatum — A very pretty trailing plant; leaves variegated with cream or white, stems flesh coloured 1 6

umbrosa — (London Pride)—Tiny flesh-pink flowers in sprays on thin stiff stems. Useful for cutting. Makes a good rockery or border plant 1 6

*SHAMROCK—True Irish variety 1 6

SHASTA DAISY.

Mrs. Arthur Chapman—White 0 9

***SILENE.**

Schaftae—A dwarf trailing plant, bearing quantities of bright rose-pink flowers 1 6

SOLIDAGO.

canadensis (Golden Rod) 1 0

erecta—Upright foliage; yellow 1 0

STATICE.

Caspia — Long feathery spikes of pale mauve flowers. Excellent for cutting 1 6

sinuata—Various shades of pink, and blue 1 6

*spathulata—Pale mauve 1 6

*STACHYS—Lanata—Silvery woolly foliage plant 1 6

*TEUCRIUM—Marum (Cat-Thyme) — Purple; very pretty for rockeries 1 6

*THRIFT—(See Armeria).

SPIRAEA (Astilbe Hybrids).

The Spiraea, or Astilbe Hybrids, are exceptionally handsome perennials, thriving best in fairly moist, shady positions. These are quite distinct from the shrub Piraeas, and die right down in Autumn.

Amethyst—Amethyst 2 6

Filipendula—Double white 2 0

Granate—Red 2 6

Pink Pearl—Pale Pink 2 6

THALICTRUM.

dipterocarpum (Lavender Shower)—Very beautiful for cutting 1 6

THYMUS (Thyme).

We have several varieties which are very suitable for rockeries 1 6

***TRADESCANTIA.**

Pretty semi - dwarf herbaceous plants, growing 18 inches to 2 ft. high. Very suitable for rock gardens—

virginica Blue 1 6

virginica Pink 1 6

virginica White 1 6

***THYMUS (Thyme).**

Creeping Thyme 1 6

Golden—Variegated 1 6

Silver—Variegated 1 6

TRITOMA (Red-hot Poker Plant).

Mixed Colours. See Kniphofia 1 0

VERBENA .

erinoides—A pretty little trailing plant, bearing quantities of Lavender flowers throughout the Summer 1 0

***VERONICA.**

spicata—Purple; 1 ft. A dwarf trailing plant 1 6

Colensoi.—Very dwarf-growing, with silver-grey foliage 1 6

Cupressoides. — Dwarf -growing, with cypress-like foliage 1 6

Filamentosa variegata from 5 0

Gloriosa from 2 6

Hedge Plants

CAROB (St. John's Bread)—Forms a magnificent evergreen hedge; very hardy and quick-growing. Plant 6ft. apart. 18/- to 20/- doz.

CEANOTHUS divaricatus — Hardy evergreen, quick-growing shrubs of 8 to 10 ft., with deep green box-like foliage and attractive spikes in summer. Amongst flowering shrubs they have few equals. 20/- per dozen.

COPROSMA lucida. — Beautiful glossy foliage; makes one of the handsomest hedges; quick-growing and hardy. In pots, 9/- doz. Out of ground, 3/6 doz.; 25/- per 100. Plant 2 ft. apart.

CUPRESSUS Lambertiana Horizontalis. — (True variety from cuttings). The most ornamental of all hedges; not suitable for small gardens, but unapproached where a tall, dense screen is required. Plant 5 to 6 ft. apart. From 30/- dozen.

CUPRESSUS macrocarpa — Forms a quick-growing breakwind. From 11/6 dozen.

CUPRESSUS torulosa — This makes a splendid ornamental hedge; suitable for small gardens. Once established it requires little trimming and is very hardy. Plant 3 ft. apart. 30/- to 35/- dozen.

DURANTA Ellisi — Makes a beautiful evergreen hedge for warm district; fast-growing, compact, and hardy. The best of the Durantas for a hedge. 12/- doz. Plant 3 ft. apart.

EUGENIA myrtifolia — Fine glossy green leaves, bears clipping well. 15/- doz.

ESCALLONIA macrantha — Beautiful plant, with dark glossy foliage. Plant 2 ft. apart. 15/- doz, in pots.

KAFFIR APPLE—A hardy, quick-growing hedge; almost impenetrable when once established and bears clipping to any extent, and will grow in any situation. Plant 18 in. apart. 3/6 dozen. 25/- per 100.

LANTANA—These showy plants are ideal for low hedges and borders. They can be clipped into shape, and will bear quantities of flowers all through the Summer. Plant 2 ft. apart. 11/6 dozen.

LAURUSTINUS—In pots; makes a very pretty small dividing hedge. 1/6 each. 15/- doz.

LIGUSTRUM ovalifolium — Leaves a beautiful dark green; the best Privet for hedges. 25/- per 100.

LIGUSTRUM elegantissimum aureum variegatum (Golden Variegated Privet)—2 ft. apart. A splendid Privet, with fine golden variegated foliage. The leaves keep the colour all the year. One of the most effective hedges. 1/6 each. 15/- per doz.

MYOPORUM insulare (Native Myrtle)—1/6 each. 15/- per dozen.

PITTOSPORUM undulatum. — This makes a good break-wind and beautiful hedge when regularly clipped, and can be kept at any height. Plant 2 ft. to 4 ft. apart. 15/- dozen

PLUMBAGO capensis — Makes a good flowering hedge; very pretty for dividing off parts of the garden; bears quantities of blue flowers all through the warm weather. 1/6 each. 15/- dozen.

PRIVET (True Evergreen)—Plant 1 ft. apart. 25/- per 100.

PRIVET (Ross' Golden City)—25/- per 100.

ROSEMARY—From Cuttings, 25/- per 100.

TAGASASTE (Tree Lucerne)—A quick-growing shelter hedge. 3/6 dozen. 25/- per 100.

TECOMA capensis — When kept well trimmed this makes a very good hedge. The foliage is bright glossy green and the scarlet flowers are very bright in Winter. 1/6 each. 15/- per dozen.

LAWN GRASS.

BUFFALO GRASS—Roots, 10/- per sack. Sack extra.

COUCH GRASS—Roots. 7/6 per sack. Sack extra.
Couch Grass chaffed ready for planting, 12/6 per sack.

LIPPIA ROOTS—9/6 per sugar bag.

SPECIAL EVERGREEN LAWN SEED

This Special Mixture is composed of Summer and Winter Grasses which makes an evergreen Lawn of very fine appearance. Price on application.

POTTING SOILS

	Sugar Bag.	Large Sacks.
Fern Potting Soil	2/9	7/6
Palm Potting Soil	2/6	6/6
Block Peat	3/3	9/6

Sacks Extra.

Cannas

Price 1/- each; 10/- dozen. Our Selection, 8/- dozen.

- AUSTRIA**—Canary yellow, green foliage.
COMTE DE BOUCHARD—Bright yellow flowers, heavily speckled crimson; green foliage.
DIRECTOR WALLMARK—Pale lemon, almost white; green foliage.
EMPEROR MENELICK—Very deep crimson.
F. BERG—Rich golden yellow, with tango shadings; bronze foliage.
FRED BENARY—Clear deep tango yellow edge and yellow-spotted centre; green foliage.
HENRY CARBER—Deep rose salmon; good foliage.
HERMAN ALDINGER—The deepest crimson Canna.
HUNGARIA—Pure rose pink; green foliage.
J. B. Van der SCHOOT—Yellow, evenly speckled scarlet; green foliage.
KING HUMBERT—Orange scarlet; deep bronze foliage.
KRAUSS—Deep crimson, scarlet flowers; bronze foliage.
LA FRANCE—Apricot yellow, salmon buff centre; bronze foliage.
LADY TREVOR LAWRENCE—Deep orange, shaded crimson; dark bronzy foliage.
MADAME A. CONRAD—Salmon pink and buff, light bronze foliage. Extra good.
MADAME J. AYMARD—Clear apricot yellow, salmon flush on back; bronze foliage.
MRS. SIEBERT—Clear golden yellow; centre scarlet, rayed towards the tips.
PANACHE—Dark red; green foliage.
PARTENOPE—Vivid orange yellow; beautiful green foliage.
QUEEN CHARLOTTE—Orange scarlet, with yellow band round each petal; green foliage.
RHUN VAN STUTTGART—Clear orange flame.
SENATOR VIGER—Orange scarlet, with deeper shadings.
SULPHUREA—Pure sulphur yellow; light green foliage.
THE FAVOURITE—Deep yellow, spotted and blotched scarlet.
WINZER'S COLOSSAL—The largest flowering Canna of all, often 8 in. across; clear bright scarlet; green foliage.
WYOMING—Old Gold and Vermilion, dark foliage.

Hydrangeas

***D.S. MADAME MOULLIERE**—Enormous panicles of pure white flowers. The best Hydrangea. From 1 6

D.S. OTAKSA—This is the hardy pink variety that will grow anywhere. From 1 6
 Hydrangeas are beautiful flowering shrubs that should be more extensively planted. Their beauty is greatly enhanced when given a slightly sheltered position.

NEWER VARIETIES.

The following Hydrangeas are the newest productions, and were introduced a few years ago. They have proved a great advance in every way over the older varieties, both as to colour and freedom of flowering. Hydrangeas do not flower blue naturally, except in soils containing a more than usual amount of acid and iron. The blue colour can be obtained in soils deficient of these by watering with a blueing mixture.

BLUE GOLIATH—A tall grower with strong wood and large flower heads of a peculiar shade of lilac blue. Very effective and distinct when treated with blueing powder 2/6.

PINK, ROSE, AND RED VARIETIES.

BARDS—Deep pink. A vigorous dwarf variety of compact habit. Good, strong, solid flower 2/6

DEUTSCHLAND—The best Hydrangea yet raised, with enormous very deep pink flowers, very strong grower, does well outside 2/6

DOMOTOI—An excellent variety, producing large heads of double deep pink flowers. Flowers turn blue if treated 2/-

ELMAR—A very fine variety of dwarf, bushy habit. Colour quite a distinct shade of carmine. Very large truss. Flowers finely fimbriated. 2/6

***F. MATHES**—A good strong grower with large compact salmon rose flowers 2/6

- GERTRUDE GLAHN**—Superb deep rose, dwarf and sturdy plant. When grown for blue, produces a nice lilac 2/6
- HELGE**—Dark rose; splendid colour. Large trusses on very strong stems 2/6
- LA MARNE**—Lilac-pink. Enormous trusses with large fringed petals. Strong grower, with thick wood. Late variety 2 6
- LANCELOT**—Large flowers of a clear rosy pink, petal fimbriated. Flowers turn blue if treated 2 6
- L. J. ENTZ**—A very pretty new variety with deep salmon pink flowers 3/6
- NIEDERSACHSEN**—A fine novelty, good truss. A beautiful rose pink 2/-
- PARSIVAL**—This variety is most remarkable for the shape of the flower, which is much like a Primula. The truss is large and solid, and carried on a stout stem. The foliage is dark green, flowers deep red; very free flowering 2/6
- PEER GYNT**—A very strong variety, with heavy wood and fine, broad foliage. The flowers and flower heads are very large and substantial. Colour, a beautiful deep, rosy red. Very late flowering 2/6
- *PINK GOLIATH**—A beautiful shade of pink. Very effective 2/-
- RHINEGOLD**—Strong grower, with good bushy habit. Large trusses of pale apple-blossom pink flowers 2/6
- VULCAN**—Rich carmine red; very compact and free-flowering 3/-

PERENNIAL PHLOX

Mixed Colors, 6/- per doz. Separate Colors, 9d. each; 7/6 per dozen.

- A. FORBES**—Pink.
- A. MERCER**—Violet blue with white eye.
- BARON VON DEESON**—Orange scarlet.
- CRIMSON KING**—Crimson.
- DR. KONIGSHOFER**—Deep pink.
- ETNA**—Coral red with maroon eye.
- EVANGELINE**—Pink with white centre.
- EVELYN**—Salmon-rose.
- EVENMENT**—Pink.
- FERDINAND CORTEZ**—Pink.
- FRAU ANT BUCHNER**—White.
- GALLIPOLI**—Mauve and white.
- G. BRODERSON**—Pink.
- G. EDWARDS**—Salmon pink.
- GRUPPENHONIGEN**—Satin-pink with dark eye, tall.
- HOMELAND**—Pale mauve.
- LUMINEUSE**—Pink.
- MARIE S. JACOBS**—Pale lilac with white eye.
- MRS. ETHEL PRITCHARD**—Large, clear rosy mauve.
- MRS. H. J. JONES**—Mauve tinted pink, crimson eye.

- MRS. MILLY VAN HOBOKEN**—Clear soft pink.
- MRS. NOORDERWIER**—Rosy-salmon with white eye.
- PEARL**—Pale pink.
- PINK PERFECTION**—Pink.
- RHEINLANDER**—Salmon pink with cherry red eye.
- RIJNSTROOM**—Fine pink.
- SALADIN**—Orange scarlet, blood red eye.
- TORPILLIER**—Purplish pink.
- WILLIAM VEITCH**—White with flesh pink centre.

PENSTEMONS

These hardy plants should be in every garden, being constantly in bloom, and requiring scarcely any attention. They are exceptionally good, both for exhibition and garden. Some of them are especially fine for massing. Rosette gives the most beautiful mass of pure salmon pink imaginable.

Price, 9d. each; 7/6 per dozen.

- AURORA**—Clear bright scarlet; throat veined slightly darker.
- CARMEN**—Vivid scarlet, darker on lip, white striped crimson; makes a vivid mass of colour.
- CUNARD**—Deep rose, throat blotched and marked scarlet.
- CYNTHIA**—Light rose, pure white throat.
- DOREEN**—Pure white, edged pale blue; distinct and good.
- ETHEL**—White throat, edged clear magenta, large and good.
- ETNA**—Rich crimson scarlet, white throat, veined deep red.
- JEAN**—Pure white throat, with broad margin rosy lilac.
- KATHLEEN**—Rosy maroon; throat blotched chocolate and white.
- MALCOLM**—Magenta crimson; throat deep chocolate, with small amount of white.
- NERISSA**—Good truss of violet purple bells; white throat, marked brown.
- NORA**—White throat, clearly pencilled chocolate, maroon; outer colour rosy carmine.
- OLIVIA**—Rosy red; white throat, with crimson blotch on lip.
- ROSETTE**—Pure salmon rose; clear white throat. One of the most beautiful plants ever sent out for massing and decorative purposes.
- SYLVIA**—Pure white throat, broad margin in rosy salmon pink.
- ZENOBIA**—Deep maroon, shaded violet, blotched chocolate.

IRIS GERMANICA

We have a wonderful collection of the world's best, and easily the largest and most up to date in Australia, upwards of 1,000 varieties being available. Send for our special Iris catalogue. Posted Free.

Acclimatized Flowering Bulbs and Tubers

Always plant Bulbs in well-prepared soil. Sand round the Bulb when planting is very beneficial.

AGAPANTHUS (African Lily).

By reference to this list customers will be able to order and plant varieties to give fruit over a lengthy period.

PEACHES.

1/9 each. 18/- dozen.

BRIGG'S RED MAY—Fruit large when well grown; skin whitish green in the shade, deep red in the sun; flesh tender, juicy, and rich; one of the very best early varieties. Very early.

EARLY CRAWFORD—Very large, oblong; skin rich golden-yellow with deep red cheek; flesh yellow, very rich and sugary; excellent for market or canning, also one of the best for drying. Middle January.

ELBERTA—Fruit very large, skin a fine yellow, highly coloured with rich red; flesh firm, very fine grained, with an abundance of rich juice; undoubtedly one of the best and most profitable in cultivation for market purposes. End January.

FINLAYSON'S SEEDLING—Fruit large, almost round, well coloured, and of first quality. Ripens with "Sea Eagle," and is one of the best late Peaches. End of February.

HALE'S EARLY—Fruit large; round; skin greenish white.

HIGH'S EARLY CANADA—A very early Peach of greatest excellence, ripening same time as Briggs' Red May, but a better bearer.

J. H. HALE (The Million Dollar Peach) —Reputed to be the largest Peach grown. Colour, rich golden yellow, overlaid bright crimson. Good bearer, fine flavour. Ripens a few days ahead of Elberta.

LADY PALMERSTON — Similar to Comet; better colour. Late.

LOUIS GROGNET—Fruit large, beautiful; flesh white, fine, sugary; freestone. Ripens after Hale's Early.

MOUNTAIN ROSE—Medium size, hardy Peach of good quality.

PEREGRINE—A distinct mid-season variety of good constitution and productiveness, fruit large and handsome, with brilliant crimson skin. Fresh, rich, highly flavoured, and parting readily from the stone.

PRIZETAKER — A good medium late white-fleshed Peach. Outside of fruit highly colored, hanging well on the tree. Highly recommended.

ROYAL GEORGE—A well-known variety; one of the best medium Peaches.

SALWAY — Flesh deep yellow, similar to an Apricot. Late.

SEA EAGLE IMPROVED—An improved Sea Eagle; white flesh, very large, rich and juicy. Late.

SNEED—Very early, fruit medium size, oval in shape.

TRIUMPH—Large, almost covered with deep red, the earliest yellow flesh; strong healthy grower and good cropper.

WIGGINS—An early freestone of large size, and most highly coloured; ripens just after Briggs' Red May. Tree very prolific; flesh very rich and juicy.

WRIGHT'S EARLY—One of the best early Peaches; highly recommended.

PEARS.

1/9 each. 18/- dozen.

CLAPP'S FAVOURITE—An American Pear of highest quality; ripens just before Williams' Bon. Chretien. Early.

DUCHESS—(See Williams' Bon. Chretien).

GLOU MORCEAU—Large, skin yellow; flesh buttery, melting, and very juicy. Of the best dessert quality.

JOSEPHINE DES MALINES — A most delicious Pear; also one of the longest keeping varieties. Late.

PASSANS DU PORTUGAL (known as Lemon Bergamot)—Medium to large, skin yellow with red check flesh sugary and juicy. Early.

PACKHAM'S TRIUMPH—Beautiful shape; large, and of the most perfect flavour; good grower. Early and prolific bearer; ripe in April.

WILLIAMS' BON CHRETIEN (Duchess) — Large, buttery, and melting; one of the finest summer Pears grown. Early.

PLUMS.

1/9 each. 18/- dozen.

ANGELINA BURDETT—Juicy, rich, and highly flavoured; purple. Early.

CHERRY PLUM—Bright red; good cooking; medium size. Very early.

CLYMAN—Dark purple; firm and of delicious flavour. Very early.

COE'S GOLDEN DROP—A splendid variety; large; yellow. Medium.

DAMSON (English).—True, small round fruit.

DIAMOND—Very large, dark purple; splendid for preserving and a heavy cropper. Medium.

EARLY ORLEANS—A fine early cooking plum

EGG PLUM—Large, oval fruit; good cooking or preserving; constant and heavy bearer. Late.

GRAND DUKE — Very large, purple, richly flavoured, very prolific. One of the best late Plums.

GREENGAGE—A well - known delicious Plum. Medium.

JEFFERSON—Large, golden yellow, juicy and highly flavoured. One of the best. Medium.

KIRK'S—Large, black; a very fine variety. Medium.

PRESIDENT—Very large oval; deep purple Plum. Sweet and rich. An abundant bearer. One of the best late Plums.

PRINCE ENGELBERT—A fine, large, purple Plum; good for dessert or cooking. Medium.

PRUNE D'ARGEN (French Prune) — The standard variety for drying; sweet, rich, and sugary; very productive.

PRUNE SPLENDOUR—Good grower, very productive; a first-class drying market and table variety; perfect freestone. Ripens two weeks earlier than the French Prune.

PRUNE ROBE DE SERGEANT—Resembles D'Argen, but larger, and ripens two weeks earlier.

PRUNE TRAGEDY—Fruit large, dark purple, very rich and sweet. Early.

JAPANESE PLUMS.

1/9 each. 18/- dozen.

BURBANK—Large, early globular in shape; colour clear cherry red; very sweet, with a peculiar and agreeable flavour; good bearer.

CLIMAX—Large, heart-shaped; highly coloured; juicy, and fine perfume.

SANTA ROSA—Very large, purplish crimson, of first quality for dessert. This is by far the best blood Plum ever introduced. Strong grower, good habit, and regular bearer.

SATSUMA (or Blood Plum) — Large, dark red, with violet bloom; flesh the colour of beet; rich, spicy flavour.

WICKSON—One of the best; carmine, with white bloom, fine texture, firm, sugary, and delicious.

WRIGHT'S EARLY—Fruit similar to Burbank; the very best early Japanese Plum.

QUINCES.

1/9 each. 18/- dozen.

CHAMPION — Fruit very large, smooth, and handsome; very productive. Early.

MISSOURI MAMMOTH—Fruit grows to an enormous size; mild, pleasant flavour; unsurpassed for cooking. Good, free bearer.

PINEAPPLE—Medium size; clear golden yellow; makes superior jelly, and is said to cook as tender in five minutes as the best cooking Apple; exquisite and delicious flavour.

SMYRNA—Fruit very large, of lovely lemon yellow colour. When cooked, very tender, having a delicious flavour.

ORANGE TREES.

From 4/- each.

COMPUDA—Large, oval fruit, of first-class quality; a regular and consistent bearer.

GOLDEN NUGGET NAVEL — Large, deep golden, very solid, and thin-skinned, rather oblong; deliciously sweet.

JOPPA—Tree of strong growth and very productive fruit of best quality.

PARRAMATTA—A well known variety. Very large and prolific.

RUBY BLOOD — Medium size, nearly round; skin thin but tough; pulp melting and rich; blood colouring very high; vigorous grower.

ST. MICHAEL—Large, thin skinned; fine flavour. A great favourite.

THOMPSON'S IMPROVED NAVEL—Medium size; rind very smooth and thin; pulp juicy, sweet, and firm; said to be an improvement on Washington Navel.

VALENCIA LATE—Medium size, round; skin smooth and thin; does not ripen till late in Spring, and is especially valuable on that account.

VALENCIA LATE IMPROVED (NEW).—

This very fine variety is also known as LORD HOWE and is a vast improvement on the old variety "Valencia Late." The fruit is very fine, having a thin skin and very few pips. The flavour is of excellent quality. The skin does not revert to the green stage like the old variety nor become puffy through hanging on the tree, being marketable as late as March in good condition. The value of this new orange is greatly increased by the fact of its ripening period. Price, 4/- each.

WASHINGTON NAVEL—Fruit large to very large; seedless; pulp melting, juicy, and well flavoured; strong, healthy grower and good bearer. Requires good soil and must not be allowed to get dry at the roots during November and December.

MANDARIN ORANGE.

From 4/- each.

BEAUTY OF GLEN RETREAT—Fruit large; very high colour, heavy and solid; delicious flavour. Ripens late.

DANCY'S—Medium size, flat, almost scarlet; excellent quality, prolific bearer.

EMPEROR—Fruit large, of good flavour; one of the best market types.

JAPANESE SEEDLESS—Very early; fruits large and nicely flavoured; tree small-growing.

NOBILIS—The best Mandarin for home garden; fruits large, solid, and of the finest flavour; skin thin.

PARKER'S SPECIAL — Large; very early; vigorous grower.

LIME.

5/- each.

WEST INDIAN—Small fruits; very productive.

LEMONS.

From 4/- each.

LISBON—Fruit large, very juicy, thin skinned; very productive and the best. From 3/6 each.

LISBON SEEDLESS—A seedless variety of the ordinary Lemon. Good. 4/-.

CITRON.

5/- each.

BENGAL—Fruit very large, round; useful for preserving.

POMOLON OR GRAPE FRUIT

4/- each.

MARSH'S SEEDLESS—Fruit medium size, pulp juicy and of superior flavour.

IMPERIAL—Medium size; peel clear, thin, and fine grained; juicy, and no bitter flavour.

POORMAN.

POORMAN ORANGE (for Marmalade) — 4/- each.

CUMQUAT.

5/- each.

Useful for preserving; small fruits; Oval and Round varieties.

GRAPE VINES

Extra Strong. Plants of Table Sorts

9d. each; 7/6 per dozen.

Price per 100 and per 1,000 on application.

BLACK HAMBURG—One of the best, juicy and rich; thin skin.

BLACK MAMMOTH—Large, black, roundish oval.

CRYSTAL—White, fine, large, transparent; one of the best. Early.

DORADILLA—White, large bunches; good for packing; hangs well.

FRONTIGNAC, Black—Early; rather, small, with vinous flavour.

GRAND TURK—Large, black; fine, handsome bunches.

GREENACHE—A wine grape.

GROS COLMAN—Very large black berries. Late.

LADY'S FINGER—A well - known favourite; handsome bunches.

MALAGA, Black—Bunch large, berries oval; black.

MALAGA, Red—Bunch large; berries large, oval; skin red or reddish purple when ripe.

MUSCAT GORDO BLANCO (Muscatel)—Large, oval; berries greenish yellow; flesh firm, sweet, fine Muscat flavour; the best Muscat.

MUSCAT HAMBURG—Large bunches of black berries, large and oval, juicy, rich; a delicious Grape with fine Muscat flavour.

MADRESFIELD COURT BLACK MUSCAT—Berries very large, oval; Muscat flavour; rich; juicy. Late.

RED MUSCAT (Wood's)—Sport from Gordo Blanco, but berries are a beautiful red colour; first-class.

RED PRINCE—Large bunches, fine handsome berries, very large, fleshy; fine flavour.

SHEPHERD'S EARLY—White; very early.

SHIRAZ—A wine grape.

SULTANA—One of the best for drying; seedless.

SWEETWATER—Very early, good, and juicy; white and sweet.

WALTHAM CROSS—Very large, oval, pale amber; sweet, firm, and solid. First-class.

WORTLEY HALL—Large, black, late. Good for preserving.

ZANTE CURRANT—The best Currant-Grape; black, juicy, sweet, compact bunches.

LOQUATS.

2/6 to 3/6 each.

CHATSWORTH VICTORY—Fruit very large; thick flesh and superior flavour.

ENORMITY—Fruit very large, but flavour not so good as other varieties. 3/6 to 5/- each.

HERD'S MAMMOTH—Fruit large, early, and of excellent flavour.

BLACKBERRIES.

ENGLISH—Useful both for fruit and hedges. 1/-.

CURRANTS.

1/- each; 9/- dozen.

BLACK NAPLES—Berries large, fine flavour; a good bearer.

BLACK CHAMPION—Fruit very large, borne in great profusion.

FAY'S PROLIFIC—Large, prolific, and early. Red.

LA VERSAILLAISE—The best red for market purposes; large bunches and berries; very free bearer.

WHITE IMPERIAL—Fruits large, transparent, and of the richest flavour; bunches very large.

GOOSEBERRIES.

1/- EACH. 9/- DOZEN.

BILLY DEAN—Red
CROWN BOB—Red.
ROARING LION—Red.
GREEN OAK—Green.
PLOUGHBOY—Red.
YELLOW LION—Yellow.

RASPBERRIES.

LLOYD GEORGE—A new very heavy cropping Raspberry of exceptional merit. 9d. each; 6/- dozen.

Other Varieties—6d. each; 4/- dozen.

ASPARAGUS.—Obtainable May to September. Conovers' Colossal. Strong plants. 12/6 per 100. 2/6 dozen.

BANANA—3/6 each.

CAPE GOOSEBERRY—6d. each; 4/- dozen. Seedlings in Spring, 1/- per dozen.

CHESTNUT (Spanish)—2/6 each.

GUAVA, Purple—1/6 each.

GUAVA, Yellow—1/6 each.

HERBS.—Sage, Thyme, Marjoram, 3d. per packet. Plants 6d. per clump.

LOGANBERRY—Fruit the shape of a Blackberry and the colour of a dark red Raspberry; flavour a combination of both; borne in great profusion in early December. Hardy and does well on the plains. Can be trained on fences. 1/- each.

MULBERRY (Black English)—3/6 each.

PASSION FRUIT (*Passiflora edulis*)—The best. 1/- each.

PASSION FRUIT (Mammoth)—1/6 each.

PASSION FRUIT (Banana)—1/6 each.

PERSIMMON—In variety. From 2/6 each.

PINEAPPLE—3/6 each.

POMEGRANATE—2/- each.

RHUBARB ROOTS.

Giant Victoria.—Large stalks, good color, fine flavor. 9d. each; 7/6 per dozen.

Mold's Crimson. — A splendid variety; good stalks, fine color. Does not run to seed. Good in winter months as well as summer. 1/- each; 9/- dozen.

Topp's Winter.—A valuable variety that furnishes a large quantity of stalks during the winter, when the summer varieties are at rest. 9d. each; 7/6 dozen.

WALNUT—From 2/6 to 7/6 each.

STRAWBERRY PLANTS.—Plant from May to September.

Melba.—The best variety for the plains; fruit large, brilliant red, and best flavor, bearing throughout the summer. 9d. per dozen; 5/- per 100.

Gandy.—A large highly coloured berry of good quality; robust grower, and one of the first to ripen. 9d. dozen; 5/- per 100.

Etterburg.—A splendid variety, large, highly coloured and beautiful flavoured variety. 9d. dozen; 5/- per 100.

FLOWER SEEDLINGS AT 2/6 PER 100.

We specialise in raising Flower Seedlings, and grow plants from Seed of the Best Quality. Our Seedlings are hardy, being grown in the open.

Flower Seedlings can be forwarded by post anywhere at 6d. per bundle; 2/6 per 100. Except where otherwise Priced. Postage extra.

OTHER FLOWER SEEDLINGS AT 3/6 PER 100.

Cineraria, Dahlias, Delphinium, Polyanthus, Salvia, Verbena, Zinnias. Postage extra.

VEGETABLES.

SEEDS.

We stock all the leading varieties and can supply most lines at 3d. per packet. Market gardeners and large gardeners supplied at reasonable rates.

Prices per lb. and bushel on application.

PLANTS.

Cabbage
Cauliflower
Lettuce

Red Beet
Silver Beet

9d. for 50; 1/6 for 100; 12/- for 1,000.

ONION PLANTS—Brown Spanish, Brown Globe, White, Spanish, 6d. per 100; 4/- per 1,000; 10,000 lots, 3/3 per 1,000.

TOMATOES.

Plants can be had from June to December at 6d. per dozen; 3/6 per 100; 25/- per 1,000.

ROSES

Hints on Planting Roses

FOR THE BEGINNER.

The most suitable time to plant Roses is from the end of May until August, but they may be planted until the end of September with good results. If planted earlier, shorten growth slightly and strip off leaves, as, if cut back too hard the young growth will start. They can then be shortened back further at the end of June. No manure at all when planting is preferable to too much, but a handful of bonedust worked well into the bottom of the hole does good. A mulch of stable manure on the surface is always beneficial. Most of the Roses lost during the first season are due either to too much manure or sodden ground. Of course, they should be given a good watering in when planted, but in an ordinary season do not require any more until starting growth in Spring.

Dwarf-budded Roses should have the point of union of bud and stock put about one inch above the surface of the soil. They may be planted at any distance from two feet apart for very moderate growing varieties, to three or four feet for stronger growers.

Half-Standards and Standards should be planted from six to nine inches from base of stem to surface of soil, and not nearer than two feet six inches part.

Soil preparation should be carried out some time before planting. Between the first digging and the planting the soil should be frequently turned over to sweeten by the action of the air and sunlight. The more the soil is turned over the better. Frequent turning, at intervals of a week or ten days, is very necessary. With each turning the top soil should be left as rough as possible.

In planting, take care that the manure does not come into direct contact with the roots. Make the planting firm; tread the soil around the plants before filling in the top spit. Give a thorough watering, and when the soil is workable keep it loose on the surface by shallow cultivation with a fork or hoe.

DWARF ROSES.

We would point out the superiority of the Dwarf worked on Bush Roses. Stronger plants, finer blooms, and greater satisfaction will follow their planting, particularly when they are grown in beds or borders for a massed effect.

ROSES

GENERAL LIST OF SELECTED VARIETIES

This up-to-date list contains the names of varieties that are well worth growing. Varieties that have proved unsatisfactory have been discarded. The best of the newer Roses have been added.

Our Roses, grown under perfect conditions, will be found wonderfully vigorous and clean, and customers can rely upon satisfactory results following their planting.

For the convenience of customers we have made a separate list of the Climbing and Polyantha Roses, so that they can be seen at a glance, instead of having to hunt through and pick them out.

ABBREVIATIONS.

T.—Tea Scented and Noisette.

H.T.—Hybrid Tea, Pernetiana, etc., continuous blooming.

H.P.—Hybrid Perpetual, Spring blooming.

C.—China (Monthly Roses).

S.—Scented Roses.

G.—For Garden purposes.

E.—For exhibition.

Vig.—For vigorous growers.

M.—For moderate growers.

Prices (except where otherwise marked):—

Standards and Half-Standards, 2/6 each; 27/6 dozen.

Climbing Roses, 1/3 each; 12/- dozen.

Dwarf Budded and Bush Roses, 1/3 each; 12/- dozen.

N.B.—Nothing less than ½ dozen supplied at dozen rates.

H.T. AMERICA—Beautiful shade of pink; large flowers, fine form. Gold Medal, New York. G.E. Vig.

H.T. AMY JOHNSON.—Large, sweetly-scented blooms of a lovely shade of pink, produced continuously into the winter; semi-double. Bush or pillar rose.

PER ANGELE PERNET.—A vigorous grower; good foliage; colour, a wonderful reddish apricot; outside petals, golden yellow.

H.T. AUTUMN.—Flowers of medium size and double, of burnt orange colour streaked with red. Foliage abundant and growth medium.

H.T. BARCELONA—Deep carmine crimson, with black velvety shadings. Old rose perfume. Vig.

H.T. BELLE SIEBRECHT — Deep rosy pink; flowers large and beautifully formed. One of the best Roses for either show or garden. G.E.M.

H.T. BETTER TIMES. — Large, double, fragrant, cerise flowers produced on long stems; free bloomer. Dwarfs only.

H.T. BETTY U. PRITCHARD — Colour: The inner face of petals is delicate salmon pink to carmine, while the outer petals are glowing carmine with coppery sheen and a suffusion of orange;; a glorious combination of colours. Gold Medal. N.R.S., G. Vig

H.T. CALEDONIA—Pure white; splendid form. Exhibition flower. G.E. Vig.

H.T. CANARY.—Clear golden yellow buds, opening to canary yellow, paling to white flowers. E. Vig.

H.T. CARINE—Colour variable, orange carmine to buff and creamy charm; splendid for bedding. G.E. Vig.

H.T. CATHERINE KODES. Long pointed buds opening to Exhibition flowers of rich scarlet shaded crimson. T.E. Vig.

PER CATALONIA.—Large full flowers of cardinal red lighted with yellow at base of petals. S.G. Vig.

H.T. CHATEAU DE CLOS VOUGEOT — Velvety scarlet, shaded with fiery red, changing to dark velvety crimson as the flowers expand. G.M.

H.T. CHARLES P. KILHAM — Brilliant orange orient red, suffused with glowing scarlet; free flowering; foliage not liable to mildew. Tea perfume. Gold Medal. N.R.S.

H.T. CLARICE GOODACRE — Ivory white, shaded chrome; flowers carried erect on good, stiff stems. A fine show and decorative variety. G.E. Vig.

H.T. COLONEL OSWALD FITZGERALD. — Velvety crimson, beautifully finished blooms, produced on erect stems. Highly recommended as one of the best crimson garden Roses. G. Vig.

H.T. COLUMBIA.—A delightful shade of rose pink, which deepens as the flower ages. Strong grower, free flowering, good foliage, blooms fragrant.

H.T. COMTESSE VANDAL—Coppery salmon, semi-double blooms. G. Vig.

Per—CONDESA DE SASTAGO.—Golden yellow bud which opens to a well-shaped bloom with coppery red inside and golden yellow reverse. Very erect and vigorous growth.

H.T. CRIMSON GLORY—Large, well formed, fragrant blooms, crimson, shaded deeper. A vigorous grower; one of the best reds.

H.T. C. V. HAWORTH — Intense black, scarlet and rich crimson; blooms of good size, perfectly formed and freely produced; growth vigorous; deliciously perfumed. One of the best garden Roses. G. Vig.

H.T. CYNTHIA FORDE—Brilliant rose pink, exceptionally fresh and clean in colour. One of the most beautiful pink Roses for any purpose. G.E. Vig.

H.T. CUBA—Long orange-scarlet buds, inside of petals rich velvety crimson shaded carmine. Sweetly scented, free flowering.

H.T. DAILY MAIL SCENTED. Rich deep velvet crimson with a scarlet sheen, holds its colour well, and is richly scented. Quite distinct and first-class in every way.

H.T. DAME EDITH HELEN—Colour pure glowing pink. The bloom is carried on a rigid, erect stem; large and full, and opens well in all weather. It possesses the true old scent. The foliage is bright bronze in the young stage, changing with age to natural green, and is both mildew and black spot resistant. Awarded many Gold Medals. G.E. Vig.

H.T. DESMOND JOHNSON — A magnificent garden, bedding, and exhibition Rose, being absolutely distinct from any other variety in cultivation. Colour, brilliant scarlet, very heavily flushed orange and scarlet, with a deep orange base. E.G. Vig.

H.T. DUCHESS OF YORK—Strong, vigorous, free-branching growth, with handsome light green foliage. Flowers large. Colour, in the young stage, deep golden yellow, with tangerine centre, deepening as the flower ages to orange tangerine. It is very long lasting when cut.

H.T. DAVID McKEE.—Bright, crimson carmine, very large, full blooms, suitable for garden or exhibition. Fragrant. Vig.

H.T. EDITH CLARK—A brilliant red Rose of bushy habit and compact growth. Every shoot is crowned with flowers of imbricated form and dazzling colour that is practically fadeless.

H.T. E. G. HILL (E. G. Hill & Co.) — The flower is dazzling scarlet, shading to a deeper pure red as it develops. It produces long stems naturally, and the foliage develops freely and is of fine colour. The bud is unsurpassed in beauty except by the open flower, which is a wonder.

H.T. EDITH NELLIE PERKINS — Inside of petals salmon orange, reverse orange red. Very vigorous. S.G. Vig.

H.T. EDITOR McFARLAND.—Erect vigorous growth, foliage dark green and disease proof. But very long, on long and rigid peduncle. Flower very large and beautiful form. Color bright rose shaded salmon and capucine red.

H.T. E. J. LUDDING. — Bud coral red; flowers beautiful satin pink with coral red and salmon shades; full, and slightly fragrant. Vigorous growth.

H.T. ELLI KNAB.—Large, full, perfectly shaped blooms. Pale pink on face of petals, with carmine reverse. Suitable for garden or exhibition. Vigorous and free flowering. Dwarfs only.

H.T. EMMA WRIGHT—Pure orange without shading. Very free flowering. G. Vig.

H.T. ETHEL SOMERSET—Shrimp pink, edge of petals coral pink. Well formed exhibition flowers. G.E. Vig.

H.T. ETOILE DE HOLLAND—Bright dark red. One of the best red roses. G.E. Vig.

H.T. FLORENCE J. IZZARD—Colour, deep pure buttercup yellow, blooms long and pointed, of fine substance, perfect form, and delightfully scented; foliage mildew - proof. Awarded the Gold Medal of the N.R.S. (Raised by Messrs. S. McGredy & Sons).

H.T. FONTANELLE—This is a large yellow Rose with immense petals and beautifully formed flowers, which are produced freely and continuously on stiff, erect stems. It possesses great lasting properties, and is a good grower with a robust constitution.

H.T. FELICITY—In colour it is a beautiful shade of mellow pink, shading to cerise at edges, with a soft, creamy suffusion at the base of petals. A fine long bud developing into a splendid, large, full cup-shaped, sweetly scented flower.

T. FEU PERNET-DUCHER.—Creamy buds heavily marked with carmine, opening to flowers of rich yellow, lightly flushed pink. An excellent Rose of good vigorous habit. Recommended.

H.P. FRAU KARL DRUSCHKI (Snow Queen) —Snow white, strong grower, first-class for exhibition or garden. G.E. Vig.

H.T. FRED WALKER.—Coral-red buds opening to glowing pink flowers, which fade to old-rose flushed gold. Blooms long and pointed on stiff, dark red stems. E.G. Vig.

H.T. FEDERICO CASAS—Long pointed red bud, opening to red and yellow flower. S.G. Vig.

H.T. GAIETY—Has no rival in fancy class, and a bud beyond description. The expanding bud is brilliant shaded with orange vermillion. As the flower develops the petals are ruffled, each Rose showing a different tone, from very old rose pink and orchid to creamy fawn at centre. It is a good grower, with the handsomest foliage in the Rose family.

H.T. GENERAL McARTHUR—Scarlet crimson, vivid in colour; one of the best garden roses; fragrant. G. Vig.

H.T. GEORGE DICKSON—Flowers of largest size, velvety black crimson; back of petals heavily veined with deep crimson maroon; fragrant. A fine variety. G.E. Vig.

H.T. GOLDEN EMBLEM—Deep rich yellow; buds tipped with red; good shape, full and large; vigorous grower with mildew - proof foliage and free bloomer. One of the best Yellow Roses to date. G.E. Vig.

H.T. GOLDEN OPHELIA—Flowers fair size, very compact, opening to nicely formed flowers; golden yellow in centre, paling to outer petals; vigorous and free blooming. G. Vig.

H.T. GORGEOUS—Deep orange yellow, heavily veined with reddish copper. Large flowers of fine form, very striking and effective colouring. G.E. Vig.

H.T. GOLDEN DAWN—A vigorous growing seedling raised from Elegante Ethel Somerset. The buds are rich sunflower yellow, heavily flushed with deep old rose. When open the petals are of sunflower yellow, which tones to lemon as the flower ages. Growth vigorous, branching habit and highly tea scented.

- H.T. GOLDEN GLEAM**—Clear, bright yellow, without shading. Bud and half-opening flowers are flushed and streaked with scarlet on the same lines as "Golden Emblem." Particularly dainty and refined, good petals. Free flowering, grand habit, free and upright. Fine dark green foliage, free from mildew. Certificate of Merit, N.R.S.
- H.T. HADLEY**—One of the best dark red roses in cultivation; free branching habit; flowers full, well formed; always in bloom and very fragrant. G.E. Vig.
- H.T. HAWLMARK CRIMSON**—Intense crimson veined maroon, becoming scarlet as the semi-double blooms develop; vigorous branching habit of growth; a delightful decorative variety. By far the best Crimson Semi-double Rose. G. Vig.
- H.T. HEINRICH WENDLAND**—Colour deep golden yellow on the reverse and a vivid capupine nasturtium red on the inner face of the petal. Pointed buds, opening to perfect large blooms. Vigorous growth and good foliage.
- H.T. HOOSIER BEAUTY**—Glowing crimson, with darker veining and shading. This variety cannot be too highly recommended. Exceedingly free flowering, a vigorous grower, sweetly scented, and holds its colour well in hottest weather. G.E. Vig.
- H.T. IRISH FIREFLAME**—Buds deep mandary orange splashed crimson; large single flowers of gorgeous colouring. G. Vig.
- H.T. ISOBEL**—Single carmine red, flushed orange, scarlet and copper. A very fine variety, free flowering. G. Vig.
- H.T. IMPERIAL POTENTATE** (Clarke Bros.)—Splendidly shaped buds forming to large flowers; rose pink with suffusion at the base of petals; sweetly scented. Was awarded Silver Medal of the American Rose Society, and Gold Medal of the Portland Chamber of
- JOANNA HILL** (Jos. H. Hill Co.)—The best yellow rose of its type yet introduced. It is a seedling of Amelia Gude and Madame Butterfly. The blooms are large, clear yellow, deepening at the centre, and hold their colour perfectly. Stout stems and very floriferous. A superb variety.
- H.T. JOHN C. M. MENSING** (Eveleens & Sons)—A distinct sport from "Ophelia," being a deep bright rose; habit and other characteristics as the parent; a most valuable novelty. Awarded two first-class certificates.
- H.T. JOSEPH HILL**—Coppery yellow, shaded salmon pink, beautiful colour and fine foliage; fragrant. G.E. Vig.
- H.T. JULIEN POTIN**—Rich golden yellow, growing deeper as flower opens. S.G.E. Vig.
- H.T. JUNE BOYD**—An entirely new color in Roses, being salmon-carmine, with yellow base, outside of petals flushed amber and yellow. As the flower ages the colour softens to a beautiful bright peach blossom. The growth is strong and free, and the flowers, which are large and full, are carried on stiff stems. Foliage mildew-proof.
- H.T. KATHERINE PECHTOLD**—Shapely flowers of coppery orange, flushed with gold
- H.T. K. A. VICTORIA** (Lambert & Reiter, 1891)—One of the most beautiful of all roses; a vigorous grower and very free flowering, produces its flowers on long stems; the colour is pure white with a tinge of yellow in the centre; the flowers are large with petals beautifully reflexed; should be in the most limited collection.
- H.T. K. OF K.**—Semi-single, intense scarlet, with large velvety petals, free flowering, strong grower; fine for cutting. G. Vig.
- H.T. LORD CASTLEREAGH**—Rich deep crimson. Is probably the darkest rose in cultivation, and yet, on account of sheen on the petals and radiance of the bright golden stamens, the effect is decidedly bright. Semi-double blooms, with a pronounced sweet fragrance. The foliage is deep copper color in the young stage, changing to bronze green with age. Its strong growth is thoroughly hardy and of ideal bedding habit.
- H.T. LADY ALICE STANLEY**—Silvery pink, reverse of petals rose, very fragrant; a beautiful garden Rose. G.E. Vig.
- H.T. LADY BATTERSEA**—Cherry crimson, shaded orange, beautiful long buds, opening to large, well-shaped semi-double flowers. One of the best garden and decorative roses; moderately vigorous. G. Vig.
- H.T. LADY HELEN MAGLONA**—One of the sweetest scented Roses in cultivation. The bud and young flowers are bright crimson red with blackish markings; lightens with age to a scarlet red, and is retained till the unique colouring and highly attractive; large, petals fall. Very large, full flowers, forming a perfectly shaped bloom of highest exhibition standard.
- H.T. LADY HILLINGDON**—Bright golden yellow, shaded fawn; one of the best yellow Roses for garden and decorative purposes. G. Vig.
- H.T. LADY MARY ELIZABETH**—The colour of this Rose is startling, the bud being brilliant carmine pink without shading, and the tone changes only very slightly to a little paler in the fully developed flower. Flowers are carried on long, stiff, straight stems gracefully clothed with long-pointed and serrated deep sage-green foliage. It is very vigorous and hardy, with free-branching upright growth.
- LADY MARGARET STEWART**—In the young stage the flower is deep sunflower yellow, heavily veined and splashed with orange scarlet. The reverse of the petals being deeply marked with carmine, as the bloom develops these shades intermingle, forming in the fully developing flower a beautiful cadmium orange effect. Certificate of Merit, N.R.S.; Award of Merit, Southport; Award of Merit, Royal Show (England).
- H.T. LAURENTE CARLE**—Deep carmine, flowers very large and of good form. One of the best garden Roses. G. Vig.

- H.T. LEADING LADY.** — Flesh pink, flushed soft rose. Very large, full fragrant flowers with beautifully reflexed petals. Strong, bushy growth.
- H.T. LORD CHARLEMONT** — Colour clear crimson, deepening to carmine crimson; bloom quite distinct, long and pointed, good for all purposes. G.E. Vig.
- H.T. LORRAINE LEE**—Apricot pink, shaded salmon; a free flowering decorative variety. G. Vig.
- H.T. LOS ANGELES** — Colour a flame pink toned with coral; very free flowering; long pointed buds; a magnificent garden and decorative variety. G. Vig.
- H.T. LYON ROSE**—Coral red or salmon rose, suffused yellow; a most distinct and charming combination of colour; flowers large and perfectly formed; fragrant. No collection of Roses should be without this variety. G.E. Vig.
- H.T. MABEL MORSE** — Clear bright golden yellow without shading; large, full, well-formed flowers; growth free from mildew; a very attractive variety. Gold Medal, N.R.S. G.E. Vig.
- H.T. MADAME ABEL CHATENAY**—Carmine rose, shaded deep salmon; moderate sized flowers; one of the very best Roses for cutting, garden, and decorative purposes; indispensable in any collection. G. Vig.
- H.T. MADAME E. HERRIOT** — Vivid terracotta, passing to clear strawberry rose color; semi-double; glossy green foliage. "Daily Mail" Rose. Beautiful in bud, distinct, and good. Indispensable for garden and decorative purposes. G. Vig.
- H.T. MADAME SEGOND WEBER** — Salmon pink; large, firm petals; very full large flowers; regular in shape and carried on stiff stems; possesses highest merit and splendid habit of growth. G.E. Vig.
- H.T. MALAR ROS** — Very strong upright growth. Large pointed but opening to a deep crimson flower; very full with unusually strong rose perfume.
- MAMAN COCHET.** — Light pink, shaded with carmine and rose, mingled with salmon yellow; large and full; superb. G.E. Vig.
- H.T. MARION CRAN**—Deep buttercup yellow, flushed cerise and rosy scarlet. Inside of petals scarlet flushed orange. G. Vig.
- H.T. MARY HART.**—A red sport from Talisman. The bud is maroon red, opening to well-formed fragrant blooms of velvety red. Thick, glossy foliage, and vigorous growth.
- H.T. MCGREDY'S IVORY**—Creamy yellow fading to a clear white as the bloom opens. Growth and foliage good. Damask perfume.
- H.T. MCGREDY'S SCARLET**—Brilliant rich velvety scarlet, with orange at base of petals. G.E. Vig.
- H.T. MARGARET MCGREDY**—The true colour of this Rose is "Geranium Lake," or more popularly described as orange scarlet. Flowers are large, of full exhibition size, and have a faint fragrance. Colour lasts, and does not fade even when the flowers are wide open. Foliage is very large, bright green, leathery and mildew-proof. An ideal garden and exhibition Rose. G.E. Vig.
- H.T.—MCGREDY'S PEACH**—Large semi-double blooms of peach pink; strong bushy habit of growth.
- Per.—MCGREDY'S TRIUMPH.**—Geranium red flushed with orange deepening to rich orange at base. The flowers are very large, full, and of perfect form. Extremely vigorous habit of growth.
- H.T. MCGREDY'S YELLOW.**—Large bright buttercup yellow, sweetly-scented flowers. G.M.
- T. MOLLY SHARMAN CRAWFORD**—Eau-de-nil white, becoming dazzling white as flowers expand; valuable alike for exhibition or garden. G.E. Vig.
- H.T. MEVROW G. A. VAN ROSSEM.** — A seedling from Sou de Claudius Pernet and Gorgeous, and has all the good qualities of both. The sweetly perfumed flowers are heavily flamed and shaded dark orange and apricot on a dark golden yellow ground; the reverse of petals is often dark bronze and nearly brown when the blooms are in the first stage of development. Growth is vigorous, with dark green foliage. Two Gold Medals.
- H.T. MADAME BUTTERFLY**—A sport of Ophelia. A harmony of bright pink apricot and gold. G. Vig.
- H.T. MADAME JULES BOUCHE.** — Porcelain white; flowers large, full, and perfectly formed; of vigorous growth and free flowering habit. G.E. Vig.
- H.T.—MISS AUSTRALIA**—A light pink seedling from "Dame Edith Helen." Growth and shape almost identical with the parent. Colour light pink and nicely scented.
- H.T. MATADOR.**—A choice red rose similar to "Etoile de Hollande," but the blooms have more petals. Awarded Gold Medal Royal Hort. Society of the Netherlands.
- H.T. Mme. COCHET-COCHET.** — Coppery pink, flushed orange. Large, full bloom of perfect form, sweetly scented. Growth is vigorous. A beautiful rose suitable for garden or exhibition.
- H.T. MRS. A. R. BARRACLOUGH**—Soft carmine pink with yellow base; a very attractive colour. Blooms are of good shape, forming a splendid exhibition flower. Growth fairly good, but foliage not attractive. E.
- H.T. MRS. BRYCE ALLAN**—Coppery carmine rose, erect stems; good; very fragrant. G.E. Vig.
- H.T. MRS. DAVID MCKEE**—Creamy white; flowers large, of good form; very free flowering; one of the best for exhibition and garden. G.E. Vig.
- H.T. MRS. GEORGE SHAWYER**—Rose pink, large flowers.
- H.T. MRS. HAROLD BROCKELBANK** — Creamy white, centre buff; base of petals soft golden yellow, outer petals frequently tinted salmon rose. The blooms, which are very freely produced, are large, full, and of perfect formation, and sweetly perfumed.
- H.T. MRS. HENRY MORSE**—Colour bright rose; petals of great size and substance; a superb show and bedding variety. G.E. Vig.

H.T. MRS. HENRY WINNET—Beautiful double red rose, not quite so dark as Hadley. Strong grower and free flowering; mildew-proof. G.E. Vig.

T. MRS. HERBERT STEVENS—White, with fawn shadings. In the Spring grows to a very large flower; in the Autumn perfectly shaped buds. A good, strong grower, hangs a little, but without doubt the finest Rose of its class.

H.T. MRS. DUNLOP BEST—Reddish apricot, with coppery yellow base; good buds, opening to fairly large, sweetly scented flowers. Vigorous, free blooming, and mildew-proof. G. Vig.

H.T. MRS. WAKEFIELD CHRISTIE MILLER—Blush pink; outside of petals deep rose. G. Vig.

H.T. MRS. SAM MCGREDY—Inside of petals coppery apricot, outside Lincoln red, changing to old gold and salmon when fully opened. Growth medium and branching.

H.T. MRS. W. E. LEMON—Reddish carmine, large, long-pointed blooms. Very fragrant; vigorous grower.

H.T. OLIVER MEE — Buds very long and pointed, the colour in the young stage being deep salmon with a heavy flush of fawn, changing with age to deep salmon pink. Sweetly scented. Growth very distinct, free, and branching.

H.T. OPHELIA — Salmon flesh shaded rose; perfect shape and excellent habit. G.E. Vig.

H.T. QUEENSLAND BEAUTY — Various shades of rose pink with light tea perfume. G. Vig.

H.T. PHYLLIS GOLD—Golden yellow blooms, large, fragrant, and well formed. A vigorous, upright grower.

H.T. PORTADOWN (S. McGredy & Son)—A rich deep crimson rose with a velvety sheen. Blooms are full and beautifully formed. Very free flowering. Certificate of Merit, N.R.S.

H.T. PORTADOWN BEDDER — Outside of petals orange yellow, changing to golden yellow with pinkish edge. S.G. Vig.

H.T. PORTADOWN IVORY — Bud creamy, yellow, fading to clear white as flower opens. S.G. Vig.

H.T. PRESIDENT HERBERT HOOVER — Large, fairly full blooms, outer petals claret red, inner petals deep salmon flesh.

H.T. PRINCESS ROYAL — Glowing, light rose in bud, opening to large, fairly full bloom of Hydrangea pink, deeper in centre, with true old rose fragrance. Robust, bushy habit. A good garden rose.

H.T. QUEEN ASTRID—Persian yellow, shaded reddish apricot and bronze. Large, full, fragrant flowers on long straight stems. Awarded four gold medals in Europe. A richly coloured rose.

H.T. REV. F. PAGE ROBERTS—Blooms large, full, and well formed of a beautiful rich "Marechal Neil" colour, with buff markings on the reverse of petals; both for garden and exhibition purposes it has proved a great acquisition. Gold medal, N.R.S., G.E. Vig.

H.T. RED RADIANCE — A red "sport" from the popular variety Radiance. Free flowering. Fine for bedding.

H.T. ROSE BERKLEY (S. McGredy & Son)—Deep rosy salmon pink, suffused orange running to an orange base. Flowers large, full, and well formed, with high pointed centre; of exhibition size and quality. A fine garden, bedding, and exhibition Rose. Certificate of Merit.

H.T. ROSELANDIA—A fine new yellow Rose, a sport from "Golden Ophelia." A vast improvement on the parent, being much larger in flower and deeper in colour; in addition it has a high pointed centre, and every flower comes perfect in form and is carried on a rigid stem.

H.T. ROSE MARIE—Long buds of good shape, opening to full flowers of an even shade of rose pink; particularly free flowering and mildew-proof foliage; specially fine for cutting and garden decoration; delightfully fragrant. G.E. Vig.

H.T. ROMANCE—Bud long and pointed; flower golden yellow shading to lemon. Very large, double and fragrant; vigorous growth and thick foliage.

H.T. ROUGE MALLERIN — A brilliant red. Large full flowers of excellent form, having a sweet damask fragrance. Growth is vigorous and upright and of free flowering habit.

H.T. SENSATION—Shade rich crimson, velvet red. The bud is long and pointed, and the double open flower of great size and exceedingly beautiful; a vigorous grower and very sweetly scented.

H.T. SHINING SUN—Yellow, shaded old gold. Blooms of good shape and freely produced. Growth is vigorous, making it an excellent variety for cutting.

H.T. SIR HENRY SEAGRAVE—Primrose rose-yellow with crome base, large well-shaped bud, full flower, vigorous, and hardy growth. Free and perpetual blooming, sweet scent. Dwarfs only.

H.T. SHOT SILK—Bright cherry cerise shot with salmon orange, flushed rose and deeply veined buttercup yellow, which deepens at the base; beautiful glossy green foliage, immune from mildew; a free and continuous bloomer. Gold Medal, N.R.S.

H.T. SOUTHPORT — A brilliant scarlet fading to bright scarlet. Vigorous and upright growth, and free-flowering.

H.T. SOU DE CLAUDIUS PERNET—Colour sunflower yellow, deeper in centre; very free and continuous bloomer; flowers very large, full, and carried erect; fine show and bedding variety. G.E. Vig.

H.T. SOU DE GEORGES PERNET — Large flowers of beautiful orient red, the ends of petals cochineal carmine, and all the flowers shaded with yellow. G.E. Vig.

H.T. SOUVENIR DE MARIE DE ZAYAS — Vivid carmine, veined deeper; vigorous grower and free flowering; a good Rose in every way, either for garden or exhibition, practically mildew-proof and exceptionally clean, fragrant. G.E. Vig.

H.T. SOUVENIR. — Sport to Talisman. Deep golden yellow buds opening to golden yellow blooms which hold their colour, Glossy foliage and upright growth.

H.T. SOU DE VERCHUREN—A magnificent Rose with very large, full, well-shaped flowers, colours cadmium yellow, passing to orange yellow; blooms freely and continuously produced, and carried on stiff stems. Awarded two Gold Medals and First Class Certificates on the Continent. G.E. Vig.

H.T. SUNBURST—Orange yellow, with deeper centre, sometimes varying to cream; fine, long pointed buds, carried on stiff stems; a magnificent variety for cutting and garden decoration. G.E. Vig.

H.T. SUNNY SOUTH—A Rose of Australian origin; colour, pink flushed carmine. A strong growing, semi-double decorative Rose. G. Vig.

H.T. SUNSTAR — Deep orange and yellow, edged, veined and splashed crimson and vermillion. The growth is vigorous, erect, and branching, flowering profusely throughout the year. G. Vig.

H.T. THE QUEEN ALEXANDRA—Vermilion shaded old gold; a beautiful variety. G.M.

H.T. TALISMAN—A very fine and attractive variety that is quite distinct. Scarlet pink copper and gold are all to be found in its glorious shadings. Splendid, very vigorous habit of growth. Free flowering. Fine flowers and buds. Large leathery foliage.

H.T. TEXAS CENTENNIAL. — A sport from President H. Hoover. The colour is blood red toning to cerise red in the centre. One of the best and very highly recommended. SGE. Vig.

H.T. VICTORY — Glowing scarlet; blooms long and pointed, and of good form; growth free. A good bedding Rose. Gold Medal, N.R.S. G. Vig.

H.T.—VIKTORIA ADELHEID.—Large full bloom of deep golden yellow, reverse capucine red on deep golden yellow. A beautiful variety

H.T. VILLE DE PARIS — Yellow, shaded orange. G. Vig.

H.T. W. E. CHAPLIN—Carmine crimson. G.E. Vig.

WARRAWEE — Extra long-pointed buds of clear, rosy-salmon, inner face of silvery pink. Flowers fairly full, fragrant. Suitable exhibition or garden. Vigorous.

T. WHITE MAMAN COCHET — Creamy white, outer petals edged and shaded rose. Should not be hard pruned. G.E. Vig.

H.T. WILHELM KORDES—Capucine red on a golden yellow ground, gradually toning to golden yellow striped with red. Fairly full, of good form, carried on stiff stem. Fruit scent.

P. WILLIAM ORR. — Deep velvety crimson. S.G.E. Vig. Very highly recommended.

CLIMBING ROSES

1/3 each. 12/- dozen.

P. AMERICAN PILLAR — A chaste shade of pink, with bright yellow stamens; flowers large, single, borne in clusters; very vigorous good climbing variety.

BANKSIA (Double White)—Pure white, small, and very double; blooming in clusters.

BANKSIA (Double Yellow) — Small, blooming in clusters.

H.T. BARDOU JOB—Bright glowing crimson. shaded with black; one of the most effective climbers.

H.T. BLACK BOY—Vigorous climber; deep crimson, of a colour similar to Bardou Job; growth and foliage are all that can be desired.

H.T. CLIMBING BELLE SIEBRECHT — A vigorous climbing form of the well-known variety of the same name; colour bright rosy pink, blooms large and beautifully formed.

HYB. WICH.—BLAZE.—A splendid new climbing rose, inheriting the blazing colour of "Paul's Scarlet" with the ever-blooming habit of "Gruss an Teplitz." A valuable Climber.

H.T. CLIMBING CAROLINE TESTOUT — A strong, growing sport of Caroline Testout, of vigorous climbing habit.

P. CLIMBING CECILE BRUNNER—Flowers identical with Cecil Brunner, but of strong climbing habit.

CI. CHAS. P. KILHAM.—Brilliant orange orient red, suffused with glowing scarlet, free-flowering foliage not subject to mildew.

H.T. CLIMBING CHATEAU DE CLOS VOUGEOT—A most valuable form of this very distinct variety, which is easily the darkest H.T. grown. Shows strong climbing habit.

CLIMBING DAME EDITH HELEN

A climbing sport of the very popular Dwarf variety. It is a strong grower climber, and should be a great acquisition in climates such as South Australia, where the dwarf variety does so well.

CLIMBING DAILY MAIL SCENTED — A strong climbing sport of the bush rose, "Daily Mail Scented." Free flowering, and deliciously perfumed, and one of the deepest crimson roses.

CLIMBING ETOILE DE HOLLANDE.

A vigorous climbing sport of the beautiful rose Etoile d'Holland. a fine dark crimson scarlet. A welcome addition to the red climbers with its good foliage. It should be one of our leading climbers.

H.T. CLIMBING GENERAL McARTHUR.—A strong climbing sport of the old variety, with all the good qualities of the parent; a great acquisition.

H.T. CLIMBING GOLDEN OPHELIA — A climbing sport of "Golden Ophelia," which will prove a welcome addition to Climbing Roses. Growth vigorous and continuously blooming throughout the season.

H.T. CLIMBING GOLDEN EMBLEM — A vigorous climbing sport from the dwarf form. This will be a valuable acquisition to Climbing Roses.

- CLIMBING HADLEY** — Flowers identical with the parent; a rich crimson, sweetly fragrant; highly recommended.
- H.T. CLIMBING HOOSIER BEAUTY** — A climbing sport from this beautiful crimson Rose that should prove a welcome addition to red climbers.
- H.T. CLIMBING IRISH FIREFLAME**—Single blooms identical with Irish Fireflame.
- T. CLIMBING LADY HILLINGDON** — Orange yellow, long buds, half-full flowers, very free blooming, and attractive colour. The best all-round climbing Yellow Rose; strong growing.
- H.T. CLIMBING LAURENTE CARLE** — Deep carmine. Flowers large and of good form.
- H.T. CLIMBING LORD CHARLEMONT**—A strong climbing sport of the well-known bush variety. Colour clear crimson.
- CLIMBING LORRAINE LEE**—The true climbing sport of the well-known Winter flowering Rose, Lorraine Lee. This particular sport which we offer has a distinct advantage in that it will flower the first year of planting.
- H.T. CLIMBING LOS ANGELES** — Flame pink, toned with coral.
- H.T. CLIMBING LYON ROSE**—Coral red or salmon rose, suffused yellow. Large fragrant flowers.
- H.T. CLIMBING MADAME ABEL CHATENAY**—A climbing sport from the well-known variety Madame Abel Chatenay; producing strong growth, seven to eight feet in a season; perpetually in bloom. Undoubtedly the best Pink Climbing Rose.
- H.T. CLIMBING MDM. EDOUARD HERRIOT** — A strong climbing sport from the well-known variety of same name.
- H.T. CLIMBING MADAME S. WEBER.** — Salmon pink. Large firm petals. Very full, large flowers.
- H.T. CLIMBING MAMAN COCHET**—A strong growing form of Maman Cochet.
- CLIMBING MER. G. A. VAN ROSSEM.** — A vigorous climbing sport of the popular variety so well known. Colour—heavily flamed and shaded dark orange and apricot on a dark golden yellow ground.
- H.T. CLIMBING MRS. AARON WARD**—Indian yellow, edged white. A welcome addition to Yellow Climbers.
- CLIMBING MRS. DUNLOP BEST, H.T.**
A vigorous climbing sport of Mrs. Dunlop Best. This is a very strong grower, and a colour very much needed in climbing roses, a reddish apricot with copper base.
- H.T. CLIMBING MRS. GEORGE SHAWYER.**
—A deep pink climbing sport from same name.
- T. CLIMBING MRS. H. STEVENS**—A strong climbing sport of the well-known pure White Rose of the same name. Very promising.
- H.T. CLIMBING OPHELIA**—In all respects except growth identical with the normal type, than which there is not any Rose which will produce throughout the entire season a greater number of perfect blooms, which are salmon flesh, shaded with rose.
- CLIMBING PRESIDENT HERBERT HOOVER.**—Beautifully formed flowers. Orange shaded red.
- CLIMBING RADIANCE** — A vigorous grower. In all other respects like its parents, producing sweetly scented carmine pink blooms in great profusion.
- H.T. CLIMBING RED RADIANCE** — Colour cerise red; most effective under artificial light and particularly good in Autumn and Winter. A vigorous climbing sport of the popular Radiance.
- CLIMBING ROSE MARIE**—A new climber of great merit. Long perfectly shaped buds, opening to full flowers of an even rose pink shade. Vigorous growth, clean and mildew-proof; highly recommended.
- CLIMBING SHOT SILK**—This is a new colour in climbing roses, and having the same coloured flowers as the bush form of Shot Silk, this vigorous growing sport will certainly become very popular.
- H.T. CLIMBING SOU DE CLAUDIUS PERNET** — The double rich sunflower yellow blooms are in a class by themselves, and provide a gay show when in full bloom.
- CLIMBING SOUVENIR DE GEORGES PERNET** — A fine climbing sport of this beautiful orient Red Rose should be a welcome addition to the Red Climbers.
- H.T. CLIMBING SUNBURST.**—A most valuable addition to climbing roses; rich orange yellow. Has proved of true climbing habit.
- H.T. CLIMBING SUNSTAR** — Deep orange and yellow, edged, veined, and splashed crimson and vermillion.
- H.T.—CLG. TALISMAN.**—A climbing sport of the popular dwarf variety, producing flowers identical with the parent. A totally new colour in climbers.
- T. CLIMBING WHITE MAMAN COCHET**
—A very vigorous climbing sport of White Maman Cochet.
- N. CLOTH OF GOLD**—Pale sulphur yellow, deeper in centre; large and full. One of the best Roses for warm districts.
- H.T. COUNTESS OF STRADBROKE** — A vigorous growing, free blooming, Climbing Rose. Flowers are large, full, and of good shape, and sweetly scented. Colour, rich dark velvety crimson of a particularly vivid shade. Beautiful foliage of a clean dark green, young shoots being reddish brown.
- P. DOROTHY PERKINS**—One of the most vigorous climbers; beautiful shell pink flowers, borne in large clusters.
- P. EMILY GRAY**—The finest yellow climbing Wichuriana rose yet introduced.
- P. EXCELSA**—Bright scarlet double flowers, produced in clusters; thick glossy foliage. Very attractive; better than Crimson Rambler.
- FORTUNIANA**—Pure white; flowering along the growth made the previous season. Locally known as the Bridal Rose.
- S. FLYING COLOURS**—Large single flowers; colour bright deep cerise.
- H.T. GWEN NASH** — Cyclamen pink, strong free flowering. G. Vig.

H.T. HARBINGER—A Spring flowering climber of good habit, with very large single flowers of pure refined pink.

P. HIAWATHA—A very fine single-flowered Wichuriana hybrid; the flowers are produced in long, trailing bunches, some 40 to a bunch, the colour vivid glowing crimson.

S. JESSIE CLARK—Single pink.

S. MACARTNEY GRANDIFLORA (Alba Grandiflora)—Pure white, very large, vigorous grower. The best of the so-called White Macartney Roses.

N. MARECHAL NIEL — Bright rich golden yellow; extra large, full, and fine form. The finest Yellow Rose.

H.T. MISS MARION MANIFOLD — A rich velvet scarlet, shaded with crimson; large, full, and good form. A free and continuous bloomer, and a vigorous climber.

H.T. MISS KITTY KINNONMONT. Large flowers of a bright carmine rose colour; vigorous grower, and mildew-proof foliage.

H.T. NORA CUNNINGHAM — Flowers semi-double; cyclamen pink, with white zone at base.

PRINCESS OF ORANGE.—A climbing form of the popular Polyantha "Gloria Mundi." The colour is the same orange scarlet and of vigorous climbing growth.

P. PAUL'S SCARLET CLIMBER — Vivid scarlet, shaded with crimson, of exceptional merit for pergolas.

H.T. SCORCHER—Crimson semi-double flowers.

SINICA ALBA (Macartney Grandiflora) — Single pure white; strong climber.

SINICA ANEMONE — Single; light silvery pink at edges, deepening to bright rose.

T. SOUVENIR DE LEONIE VIENNOT — Silvery rose, shading to carmine; base of petals canary yellow.

DWARF POLYANTHA ROSES.

1/3 each. 12/- dozen.

BORDERER—Flowers are pink, shaded copper and amber; very free flowering.

CECILE BRUNNER.—Brush, centre salmon pink; one of the best of its class. A gem for buttonhole bouquets.

CORAL CLUSTER — A coral pink sport from Orleans.

DOLLY VARDON.—Double clear pink flowers in large trusses.

ELLEN POULSEN—Dark brilliant pink; very free flowering, and pretty.

ETOILE LUISANTE—Coral and carmine, base golden yellow; orange red bud. Medium size and splendid shape.

GEORGE ELGER.—Golden yellow, changing to pale yellow; free flowering G.M.

GLORIA MUNDI. — A new Polyantha Rose of great merit. Colour brilliant orange scarlet. Quite distinct from any other Polyantha. This rose has won five gold and numerous silver medals. Described by English horticultural papers as the best Polyantha ever raised.

GLOIRE DU MIDI. — Brighter than Gloria Mundi and keeps the color better.

GOLDEN SALMON (Goldlachs)—A new colour in Polyantha Roses, being an intense fiery golden salmon with flowers medium in size produced in large, full trusses. Strong, bushy growth of medium height.

GOLDEN SALMON SUPERIOR. Clear golden salmon, with white eye. Semi-double.

IDEAL—A beautiful dark scarlet polyantha, with mildewproof foliage. A unique colour in Polyantha Roses. Splendid for bedding.

MAGNIFIQUE. — Colour a bright pleasing pink, beautifully fringed double blooms carried in bold trusses. Habit erect and bushy. Excellent for bedding. Greatly admired wherever seen.

MAMAN TURBAT — Peach pink; very free flowering. A most beautiful decorative color, and one of the best dwarf Polyanthas for bedding and edging.

MISS EDITH CAVELL — A scarlet crimson dwarf Polyantha of a particularly clear color.

ORANGE KING—This new dwarf Polyantha is quite unique, having large clusters of small double flowers of deep orange salmon. One of the most beautiful Polyantha Roses ever introduced, and has been much admired when in flower here.

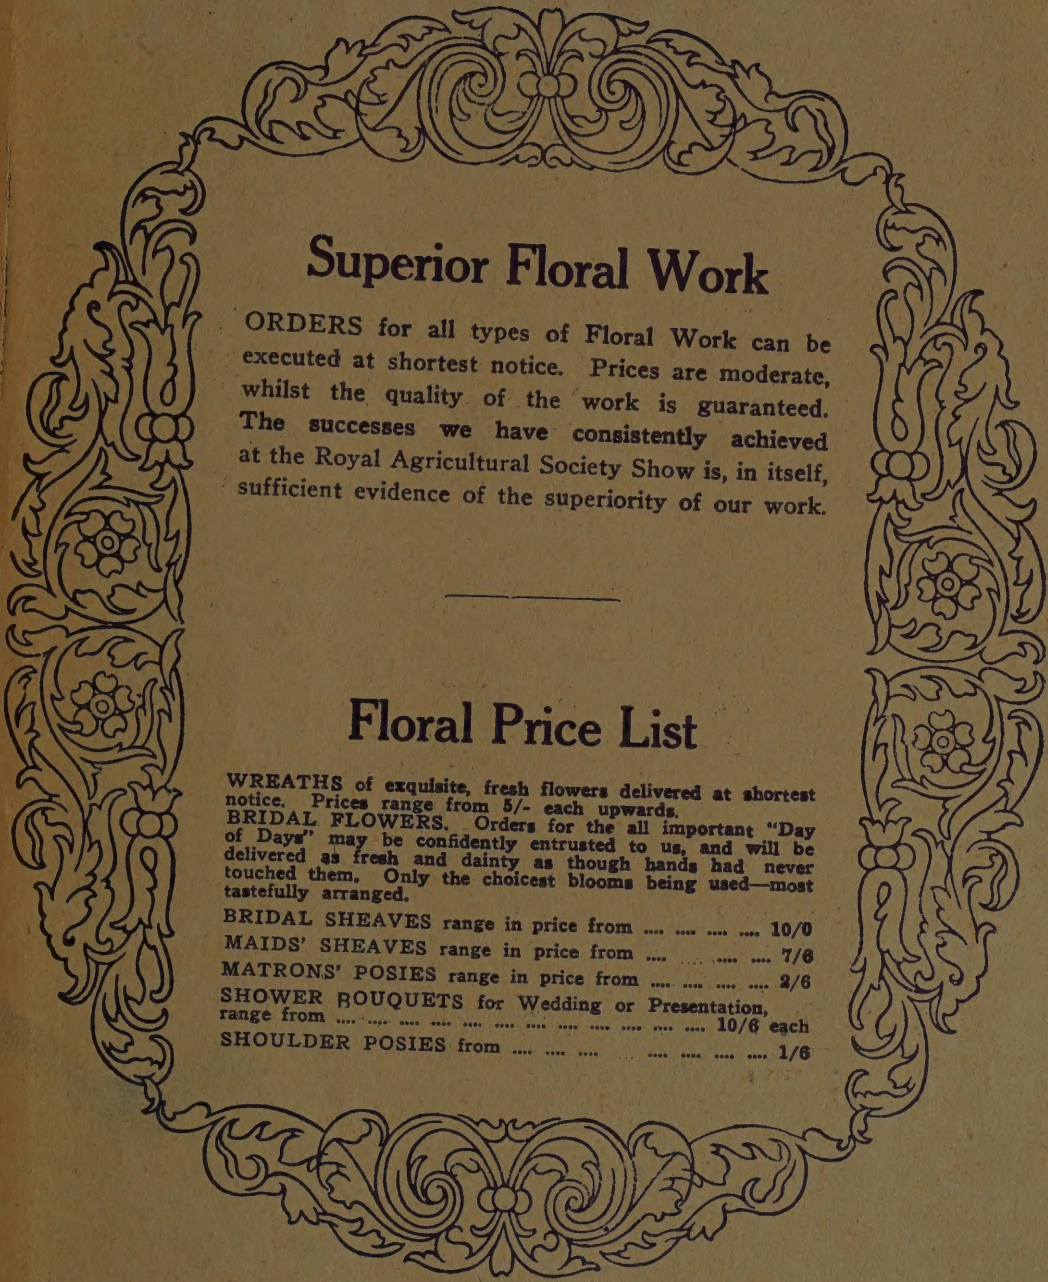

ORLEANS ROSE — Rosy carmine, with white centre; bushy habit and free flowering. Good for bedding and edging.

RUFUS. — This fine Rose will supersede all crimson Polyantha Roses of its class. A pure self-crimson of intense shade. It does not burn or discolour in any weather. Flowers are double, and are produced in bold trusses.

SALMON QUEEN—A distinct and beautiful addition to the dwarf Polyanthas, the colour being deep salmon.

SALMON SPRAY—Colour rich salmon pink, reverse of petals carmine; borne on sprays. Sweetly scented, and lasts well in water. The colour fades in Spring and Summer. Mildew-proof foliage.

TIPTOP—Orange yellow, edged carmine. One of the prettiest of the dwarf Polyanthas. Fine for edging purposes; perpetual blooming.

A large, ornate decorative border made of intricate floral and scrollwork patterns, framing the central text.
